## INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

PWCR 24000132

To the Board of Directors and Stockholders of Cheng Uei Precision Industry Co., Ltd.

### ***Introduction***

We have reviewed the accompanying consolidated balance sheets of Cheng Uei Precision Industry Co., Ltd. and subsidiaries (the "Group") as at June 30, 2024 and 2023, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the consolidated statement of changes in equity and of cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of material accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

### ***Scope of review***

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### ***Basis for qualified conclusion***

As explained in Note 4(3), the financial statements of certain insignificant consolidated subsidiaries and information disclosed in Note 13 were not reviewed by independent auditors. Those statements reflect total assets of NT\$14,632,663 thousand and NT\$18,638,595 thousand, constituting 12.93% and 20.97% of the consolidated total assets, and total liabilities of NT\$3,416,370 thousand and NT\$4,991,345 thousand, constituting 4.53% and 9.10% of the consolidated total liabilities as at June 30, 2024 and 2023, and total comprehensive income (loss) of NT\$(402,298) thousand, NT\$(57,246) thousand, NT\$(364,532) thousand and NT\$(822,160) thousand, constituting (55.63%), 82.02%, (18.24%) and 108.29% of the consolidated total comprehensive income (loss) for the three months and six months then ended. As explained in Note 6(8), certain investments accounted for using equity method were assessed and shares of profit or loss of associates and joint ventures accounted for using equity method as of June 30, 2024 and 2023 were disclosed based on the financial statements which were not reviewed by independent auditors. The balance of investments accounted for using equity method was NT\$4,678,757 thousand and NT\$4,996,498 thousand, and the balance of other non-current liabilities was NT\$23,401 thousand and NT\$22,647 thousand, constituting 4.13% and 5.62% of consolidated total assets and 0.03% and 0.04% of consolidated total liabilities as of June 30, 2024 and 2023, respectively, and the share of profit of associates and joint ventures accounted for using equity method was NT\$167,112 thousand, NT\$21,709 thousand, NT\$323,466 thousand and NT\$53,826 thousand, constituting 23.11%, (31.11%), 16.18% and (7.09%) of consolidated total comprehensive income (loss) for the three months and six months then ended, respectively.

### ***Qualified conclusion***

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using equity

method been reviewed by independent auditors as described in the *Basis for qualified conclusion* section above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2024 and 2023, and of its consolidated financial performance for the three months and six months then ended and its consolidated cash flows for the six months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission.

## 9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

### (1) Contingencies

A. The Group's subsidiary, Shih Fong Power Co., Ltd. ("Shih Fong"), carried out the "Shih Fong Power's FongPing River and Its Tributary Hydroelectric Project" (the "Project") in Hualien County and planned to build a weir in FongPing River for hydropower plants to generate electricity. Since 2000, the Company has successively obtained the permit to build the infrastructure as an electricity enterprise and the work permit to operate power generation equipment as an electricity enterprise (the "Work Permit"). As the construction was unable to be completed on time, an extension was applied for according to the law year by year and the Work Permit was obtained as approved and issued by the Ministry of Economic Affairs. Certain litigations that ensued during the period of application for the renewal of the Work Permit were as follows:

#### (a) Administrative appeal

The local indigenous peoples (the "Petitioners") filed a petition on May 14, 2021 with the Administrative Appeals Committee of the Executive Yuan (AAC), requesting "the suspension of the Project" and "the revocation of work permit in 2021 issued by the Ministry of Economic Affairs". Regarding the dispute with the former, the administrative appeal was dismissed from the AAC on May 31, 2021; and regarding the dispute with the latter, the decision of administrative appeal was rendered by the AAC on March 3, 2022 and the original

administrative action was revoked.

In accordance with the decision of the AAC, the Ministry of Economic Affairs sent a letter to Shih Fong on March 10, 2022, ordering it to consult and obtain consent and participation from the indigenous peoples or tribes. Shih Fong disagreed with the judgement and filed an administrative litigation according to the law on April 29, 2022, requesting the Executive Yuan to revoke the decision of administrative appeal of Shih Fong's Work Permit in 2021. The case trial had been initiated by the court on November 9, 2022, and the case was dismissed by the Taipei High Administrative Court on March 14, 2024.

(b) Administrative litigation

The Petitioners disagreed with the decision of dismissal on May 31, 2021 by the AAC and filed an administrative litigation with the Taipei High Administrative Court (THAC). On December 3, 2021, the THAC rendered a judgement that the Project is suspended until the administrative litigation is finalised. The Ministry of Economic Affairs and Shih Fong disagreed with the abovementioned judgement and filed an counterappeal with the Supreme Administrative Court (SAC). On March 31, 2022, the SAC revoked the original verdict, excluding certain final judgements.

However, in order to conduct the construction smoothly in the future and respect the will of local peoples, Shih Fong sent a letter to the Zhuoxi Township Office on April 7, 2022, requesting it to consult and obtain consent from the tribes. Shih Fong completed relevant tribal consultation and obtained a majority of consent in December 2022 and sent a letter to the Bureau of Energy to report the results of the tribal consultation. The Company had obtained the renewal Work Permit in 2021 and 2022 in December 2022 and the Work Permit in 2023 was renewed by the Ministry of Economic Affairs in February 2023 which will be valid until December 31, 2023. The Petitioners disagreed with the issuance of the Work Permit in 2023 by the Ministry of Economic Affairs and requested for a suspension until the administrative litigation is finalised. On September 28, 2023, the Supreme Court issued a ruling that "the execution shall be stayed until the administrative litigation is concluded and the certain litigation expenses shall all be abandoned." Shih Fong had obtained the renewal Work Permit between 2024 and 2026 in February 2024 which will be valid until December 31, 2026.

- B. The Group's subsidiary, Fugang Electric (Maanshan) Co., Ltd. ("FG MAANSHAN"), a subsidiary of the Group, has a lawsuit with Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. On November 19, 2021, Ma'anshan Intermediate People's Court in Anhui Province rendered a first-instance decision pursuant to the Articles 201 and 206 of "Contract Law of The People's Republic of China", Articles 26 and 53 of "Guarantee Law of The People's Republic of China", Article 26 of "Provisions of the Supreme People's Court on Certain Issues concerning Application of Law in Trial of Cases involving Private Lending" and Article 142 of "Administrative Procedure Law of the People's Republic of China", and affirmed that FG MAANSHAN shall pay principal amounting to RMB 274,450 thousand and interest amounting

to RMB 139,488.9 thousand, based on the principal agreed in the court's judgement and interest calculated until the date when the principal is fully repaid, to Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. within 30 days from the effective date of this judgement. If the payments are not repaid on time, Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. has the priority right to obtain compensation by converting the properties pledged by FG MAANSHAN into cash or seek preferential payments from the proceeds from the auction or sale of the properties concerned.

On December 7, 2021, FG MAANSHAN filed a second instance appeal with the Higher People's Court of Anhui Province to request to modify or remand the decision according to the first instance. Trials of the case had been initiated by the Higher People's Court of Anhui Province on May 11, 2022. On October 14, 2022, FG MAANSHAN and Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. signed the settlement agreement, and on October 18, 2022, both parties reached a settlement in Anhui Ma'anshan Intermediate People's Court. Based on the agreement, FG MAANSHAN should repay the borrowing principal from Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. in the amount of RMB 31.44 million before October 31, 2022. The residual of RMB 333.96 million should be repaid by using right-of-use assets, property and all buildings and affiliated facilities in relation to property on the accounts of FG MAANSHAN, and the actual written transfer procedures should be completed before January 20, 2023. Because of the settlement agreement, FG MAANSHAN was responsible for the loss on disposal of assets transferred and indemnity in the amount of RMB 179.25 million (accounted as other gains and losses in 2022). As of December 31, 2023, the Company had transferred the properties and land use rights based on the contract. However, due to a procedural problem, certain properties and use rights (approximately RMB 69.92 million) would be transferred after the completion of the procedure based on mutual agreement. As of January 22, 2024, the procedure was completed.

On March 17, 2022, Fugang Electric (Maanshan) Co., Ltd. filed an administrative litigation with the Ma'anshan Intermediate People's Court in Anhui Province against the People's Government of Ma'anshan Municipality, the Administrative Committee of Ma'anshan Economic and Technological Development Zone and Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. pursuant to Article 12 of the "Administrative Procedure Law of the People's Republic of China". Fugang Electric (Maanshan) Co., Ltd., received the dismissal of the administrative litigation by the Ma'anshan Intermediate People's Court in Anhui Province on May 6, 2022 and filed an appeal to the Ma'anshan Higher People's Court in Anhui Province on May 13, 2022. The administrative litigation has been filed as a case by the Ma'anshan Higher People's Court in Anhui Province on July 6, 2022. Additionally, on August 8, 2022, the Ma'anshan Higher People's Court in Anhui Province denied the appeal and upheld the original administrative litigation. According to the judgement, on August 24, 2022, FG MAANSHAN filed a motion for a retrial with Supreme People's Court, and on October 10, 2022, the case had been

filed. Because the litigants had reached a settlement, on October 31, 2022, FG MAANSHAN withdrew the motion.

#### B. Risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and

seeks to minimise potential adverse effects on the Group's financial position and financial performance.

C. Significant financial risks and degrees of financial risks

- (a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Group hedges foreign exchange rate by using forward exchange contracts. However, the Group does not adopt hedging accounting. Details of financial assets or liabilities at fair value through profit or loss are provided in Note 6(2).
- iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB and HKD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

#### Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise domestic or foreign listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant. Other components of equity for the six months ended June 30, 2024 and 2023 would have increased by \$10,660 and \$12,335, respectively, as a result of gains/losses on equity securities other comprehensive income classified as equity investment at fair value through other comprehensive income.

#### Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. The Group's interest rates of borrowings are fixed and floating rate. For the six months ended June 30, 2024 and 2023, the Group's borrowings issued by floating rate are priced in New Taiwan dollars, Renminbi

and US dollar.

- ii. As of June 30, 2024, December 31, 2023 and June 30, 2023, if interest rates on borrowings at that date had been 1% lower/higher with all other variables held constant, post-tax profit for the six months ended June 30, 2024 and 2023 would have been \$164,145 and \$104,704 lower/higher, respectively, mainly as a result of higher interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. Group treasury manages credit risk of cash in banks and other financial instruments based on the Group's credit policy. Because the Group's counterparties are determined based on the Group's internal control, only rated banks with an optimal rating and financial institutions with investment grade are accepted.
- iv. The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition. If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.  
The Group adopts the assumptions under IFRS 9 and considers the industry characteristics, the default occurs when the contract payments are past due over 120 days.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganisation due to their financial difficulties;
  - (ii) A breach of contract.
- vi. The Group classifies customers' accounts receivable in accordance with customer types. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.
- vii. The Group used the forecast ability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. As of June 30, 2024, December 31, 2023 and June 30, 2023, the provision matrix is as follows:

	Not past due	Up to 30 days past due	31~120 days past due	Over 120 days	Total

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. Except that the carrying amounts of notes payable, accounts payable and other payables are approximate to the amounts of contractual undiscounted cash flows and those accounts will expire within a year, the amounts of financial liabilities disclosed in the table are the contractual undiscounted cash flows:

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's convertible bonds is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in non-hedging derivatives is included in Level 3.

B. Fair value information of investment property at cost is provided in Note 6(11).

C. Financial instruments not measured at fair value

Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, short-term notes and bills payable notes payable, accounts payable, other payables and long-term borrowings are approximate to their fair values.

E. The methods and assumptions the Group used to measure fair value are as follows:

- (a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>
Market quoted price	Closing price

- (b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- (c) When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- (d) The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- (e) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

- (f) The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- F. For the six months ended June 30, 2024 and 2023, there was no transfer between Level 1 and Level 2.
- G. The following chart is the movement of Level 3 for the six months ended June 30, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
	<u>Equity securities</u>	<u>Equity securities</u>
At January 1	\$ 1,023,772	\$ 1,521,378

Transfers into level 3	-	169,942

Effect of exchange rate changes	23,908	( 19,428)
At June 30	<u>\$ 983,558</u>	<u>\$ 1,541,885</u>

- H. The information on the transfers into Level 3 for the six months ended June 30, 2024 and 2023 is provided in Note 6(8).
- I. Group treasury is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- J. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	<u>Fair value at</u>		<u>Significant</u>	<u>Range</u>	<u>Relationship of</u>
	<u>June 30, 2024</u>	<u>Valuation technique</u>	<u>unobservable input</u>	<u>(weighted average)</u>	<u>inputs to fair value</u>

K. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement.
