I. Letter to Shareholders

Here, a report on the business status of the Company in 2023 is given as follows:

The Company's consolidated net operating revenues for 2023 came to NTD 90,550,764 thousand. Compared with consolidated net operating revenue of NTD 94,102,594 thousand in 2022, this marked a decrease of 3.8%. Net profit after tax in 2023 was NTD 1,457,132 thousand and after-tax earnings per share came to NTD 3.09. This represented a reduction of 4.3% from the net profit after tax of NTD 1,522,518 thousand or NTD 3.14 per share seen in 2022. Despite a slight decline in profit due to external factors last year, the Company would like to thank all employees for their hard work and contributions in the past year.

In 2023, factors such as high-interest rates, high inflation, and China's post-pandemic economic performance not being as good as expected have weakened global demand for end products, resulting in a slowdown in manufacturing activities worldwide. In addition, the expansion of the US-China chip ban, the Russo-Ukrainian war, and the Israeli–Palestinian conflict have contributed to geopolitical tensions, leading to impacts on global economic development and social stability. Looking ahead to 2024, major international forecasting agencies believe that the global economic growth in 2024 will be slightly lower than that in 2023. However, there is still an expectation for a recovery in global commodity trade. In the face of the uncertain and challenging macroeconomic environment, the Company aims to address these challenges by adapting flexibly to market changes, enhancing the competitiveness of our products and services, and strengthening risk management.

The Company's revenue and profit declined slightly in 2023 compared to the previous year. This was primarily due to the impact of inventory destocking in the gaming industry, leading to decreased demand for products such as gaming controllers, which affected the Company's revenue. In addition, the retail channels received the Ministry of Education's One-Tablet-Per-Student Initiative in 2022, so the revenue was higher. There was no such large-scale project in 2023, which also had a certain impact on revenue. However, in the field of new energy, as the construction progress continued, revenue from projects began to be recognized, contributing positively to revenue. Facing the challenges of the new fiscal year, the Company will deepen the existing product technology to enhance product competitiveness, expand other product lines, broaden the customer base, continue to invest in research and development, create products with competitive advantages, and focus on product differentiation to attract more customers.

In order for the Company to grow and thrive on a continuous and stable basis and create greater profits for shareholders, we must be prepared to face challenges and resolve problems. We have absolute confidence to move toward the set goals, create best business performance for the Company and go after maximum profits for shareholders. I hope that all shareholders can continue to provide support and encouragement to the Company. Finally, I wish all shareholders all the best and that all your hopes be fulfilled.

1. 2023 Business Results

1.1 Business Plan Implementation Results

Unit: NTD Thousand

Item	2023	2022	Growth rate
Operating revenue	90,550,764	94,102,594	(3.77%)
Operating costs	78,856,852	82,008,395	(3.84%)
Operating gross profit	11,693,912	12,094,199	(3.31%)

Total comprehensive income for the period	1,341,378	2,430,386	(44.81%)

1.2 Budget Implementation

The Company did not prepared 2023 financial forecasts, so this is not applicable.

1.3 Financial Income and Expenditure Status

Unit: NTD Thousand

Item	2023	2022	Amount of change
Net cash inflow (outflow) from operating activities	2,525,347	(265,341)	2,790,688
Net cash inflow (outflow) from investing activities	(3,662,487)	(8,416,504)	4,754,017
Net cash inflow (outflow) from financing activities	4,951,849	11,086,756	(6,134,907)

1.4 Profitability Analysis

Year		2023	2022
Return on assets (%)		2.55	2.68
Return on shareholders' equity (%)		5.75	6.09
Contribution to paid-in capital Percentage (%)	Operating profit	58.91	68.93
	Net profit before tax	61.22	66.59
Net profit margin (%)		2.32	2.23
Earnings per share for the period (NTD) (Note)		3.09	3.14

Note: Earnings per share is calculated based on the number of shares after retrospective adjustment.

1.5 Research and development status of the Company

The main research and development directions and strategies of the Company are:

- (1) Closely integrate technology into products to generate differentiated competitive advantages.
- (2) Integrate the technical fields of materials, machinery, electronics, optics, electroacoustics, etc.; e.g., through: optical inspection automation, engineering analysis capabilities, secondary processing electroplating technology, antenna design, and wire nano coating development.
- (3) Build professional laboratories for high frequency technology, electroacoustic technology, surface technology, power and so on.
- (4) Lead and continue to develop various halogen-free, lead-free materials and application products that meet future environmental protection requirements.
- (5) Participate in the development process of customers' new products to provide them with various solutions and technical support.
- (6) Strengthen the ability to integrate existing technologies and evaluate and introduce new product development technologies.
- (7) Integrate the technology platform of electro-optic sound to expand products and market share.
- (8) Pay attention to the development of green technology, including energy-saving and carbon emission reduction technologies, renewable energy applications, and develop corresponding products and solutions, and create contributions to a sustainable environment.
- (9) Develop cloud computing and edge computing technologies and modules, and provide related cloud services and data analysis solutions.
- (10) Development of artificial intelligence (AI) related applications and products.

2. Business Plan Summary for 2024

2.1 Business Strategy

2.1.1 Business Purpose:

With core capabilities in molds, forms, stamping, secondary processing, and automation, integrate materials, machinery, electronics, optics, electroacoustics, energy, assembly, and R&D technology. Establish a global marketing and supply chain management network to provide customers with high-quality products in a timely manner, oriented by consumer electronics, information, communications, and automotive market demand; and create value for customers by combining digital content, environmental protection, and energy saving. Constantly seek to surpass ourselves based on concepts of sincerity, a holistic view, and conscientiousness, using our team spirit to create an optimal business performance for the enterprise.

2.1.2 Business Philosophy:

- (1) Sincerity: Simplicity and pragmatism, and being as good as one's word
Keeping promises is an important value to establish long-term cooperative relations with customers and suppliers, so as to take creation of long-term benefits for all three parties as a direction for our thinking.
- (2) Holistic view:
Great things can only be achieved with tolerance, and small beginnings yield major trends
By applying technological innovation, accumulating practical experience, and constantly pursuing self-transcendence and accumulated achievements, only then can the Company become a representative of the high-tech industry.
- (3) Conscientiousness: Making an all-out effort, with a unity of knowledge and action
From the capital, technology, and human resources used to coordinate our plans and from execution to assessment, there is a complete and consistent operational system that demonstrates its performance in a wide range of work functions; and the results of these

joint efforts have created the Company's core competitiveness.

2.2 Expected Sales Volume And Its Basis

The Company's products are mainly components of communications and consumer electronics. With the active expansion of customers and the development of new products this year, it is expected that the sales volume of each product will reach a trend of steady growth.

2.3 Important Production And Sales Policies

Continuously improve internal management capabilities to reduce various production costs and provide customers with the best service and technical resources, establishing a good cooperative relationship with customers to achieve a win-win goal.

3. Future Development Strategy for The Company

- (1) The Company will position itself under the OEM, ODM, and JDM models as it commits to consumer electronics, computers, communications, automotive electronics, digital content, and other product markets.
- (2) We will utilize the Company's core capabilities: Development will center on molds, forms, stamping, secondary processing, and automation, and thereupon integrate technical fields encompassing materials, machinery, electronics, optics, electroacoustics, energy saving, and environmental protection. In this way, we can develop differentiated competitive advantages over our competitors.
- (3) We will use our customer orientation, closeness to market leaders, and joint development of new products to create value for the Company.
- (4) We will deeply cultivate existing customers, expand different product lines for current customers, and provide customers with diversified products and services.
- (5) From materials, parts, components to system products, we will leverage and strengthen the company's vertical integrated manufacturing advantages to reduce manufacturing costs and enhance competitiveness.
- (6) We will establish development and mass production manufacturing capabilities for key components in order to obtain an irreplaceable competitive advantage.
- (7) We will develop the retail channel market, be close to consumers and grasp market demand and trends, and then combine the advantages of production and sales to develop a new niche for the Company. This will also establish an irreplaceable competitive advantage.
- (8) Invest in renewable energy power plants, including solar, wind, water, and gas to facilitate the development of the green energy economic circular ecological chain, and develop energy-saving services, energy storage services, electromechanical engineering, power plant maintenance and operation, and green power trading platforms to create resource efficiency and a circular economy.

4. Effects of The External Competitive Environment, Regulatory Environment, and Overall Business Environment

Due to the instantaneous changes in the external environment and industry, the competition faced by the Company is no longer limited to Taiwan, but in all parts of the world. The targets of the Company's services are world-class customers. Therefore, "value creation" and "cost optimization" are the most important issues for the Company's sustainability in order to meet the global competition environment and survival requirements. The Company must create product value, service value and differentiated value in order to develop customers and meet their diverse needs. At the same time, the Company must be able to improve production efficiency and reduce production costs in order to gain a competitive advantage, attracting new customers and expanding into new markets.

At the same time, in the retail channel market, it is necessary to be able to grasp the acceptance

and preference of consumers for all kinds of new 3C products at any time. We must understand the consumption habits and tendencies of target consumers in various regions, so as to propose different sales strategies to respond. In addition, we should offer different services and product content from competitors to strengthen our competitive advantage.

Green energy is supported by policies and regulations. In the face of a rapidly changing business environment, in addition to continuously controlling fixed costs and improving the competitiveness and timeliness of product costs, we also use the Company's relevant resources to develop forward-looking products to strengthen product differentiation and competitiveness.

Note 1: Representative: of Hsin Hung International Investment Co., Ltd.

Note 2: Representative: of Fu Lin International Investment Co., Ltd.

Note 3: Representative: of Foxlink Taiwan Industry Co., Ltd.

Note 4: Served as a director of the Company from 2002.5.30 to 2014.6.11.

Note 5: If the Company's chairman and general manager or equivalent (top manager) are the same person, or spouse or relative within one degree of kinship to the other, the reason, rationality, necessity and relevant information of the corresponding measures should be explained. The Chairman of the Company also serves as the President, mainly to improve the efficiency of operation and management and the execution of decision-making. At present, more than half of the members of the Board of Directors are not concurrently serving as employees of the Company, so the independence of the board of directors is secure. In addition, the Chairman of the Board of Directors also closely communicates with the directors about the Company's operating status and planning guidelines to implement corporate governance. In the future, the Company plans to increase one independent directors in 2023 to enhance the functions of the Board of Directors and strengthen the supervision function.

She is an associate professor of the Department of Accounting, National Taiwan University. She has more than five years of work experience in commerce, finance, accounting, and company operations, specializing in Corporate governance and accounting related affairs.		None

(2) Board Diversity and Independence:

A. Board Diversity

- The Company's Corporate Governance Best Practice Principles stipulates that the Company shall consider the principle of diversity for the composition of the Board of Directors and formulate an appropriate diversity policy based on its operation, operating model, and development needs. The policy should include but is not limited to the following two criteria:
 - (b) Basic criteria and values: gender, age, nationality, and culture.
 - (c) Professional knowledge and skills: professional background (such as law, accounting, industry, finance, marketing, or technology), professional skills, and industry experience.
- The board members shall generally possess the knowledge, skills, and qualities needed to perform their duties. To achieve the ideal goals of corporate governance, the board of directors as a whole should possess the capabilities and skills below:
 - (a) Business judgment
 - (b) Accounting and financial analysis
 - (c) Business management
 - (d) Crisis management
 - (e) Industry knowledge
 - (f) International perspective
 - (g) Leadership
 - (h) Decision-making
 - (i) Sustainability
- The Company's Board of Directors consists of nine directors. The specific management goals and achieving status of the board diversity policy are as follows:

In accordance with the above principles, the 9 directors of 14th term of the Company consisted of professors in various fields, business professionals, and directors of companies in different industries. They have the professional knowledge, experience, and literacy required to perform their duties and responsibilities to deal with economic, environmental, and social issues Changes in all aspects. Based on their wealth of knowledge, personal insight and business judgment, and maintaining good communication with the management team, the directors provide guidance and suggestions to the Company, and jointly create maximum benefits for shareholders.

● **Implementation of The Board Diversity Policy:**

Diversity item		Basic composition						Diversified core competencies										
		Nationality	Gender	As an employee concurrently	Age			Length of term of independent directors (3 to 9 years)	Business judgment	Accounting and financial analysis	Business management	Crisis management	Industry knowledge	International perspective	Leadership	Decision-making	Sustainability	
					51–60 years old	61–70 years old	71–75 years old

	Jing-Mi Tang		Male			√		√	√			√	√	√	√	√	√	√
	Chih-Yang Tseng		Male		√			√	√	√	√		√	√	√	√	√	√

Note: Independent Director Chuan-Wei Lee has experience in business and company operation management, which is of obvious benefit to the Company. Although Independent Director Lee has been re-elected for three terms, the Company still needs to take advantage of his expertise to supervise and provide professional opinions to the Board of Directors.

B. Independence of the Board of Directors:

- The Company added one independent director during the re-election of directors in 2023, and there were a total of 4 independent directors, accounting for 44% of the total number of directors; in addition, there were 5 outside directors, accounting for more than half of the seats of the directors in compliance with the Company's diversity and independence policies and requirements. However, this is only to meet the needs of future development. The Company will continue to examine the elements that make up diversity, and will continue to strengthen the goal of diversity for the board of directors in the next election.
- In order to maintain the independence of the Board of Directors, the Directors are not spouses or relatives within the second degree of kinship, and are not in the circumstances described in Paragraph 3 and 4, Article 26-3 of the Securities and Exchange Act.

Note 1: If the general manager or equivalent (top manager) and the chairperson is the same person, or spouse or relative within one degree of kinship to the other, the reason, rationality, necessity and relevant information of the corresponding measures should be disclosed (e.g., the number of independent directors should be increased, more than half of the directors should not be concurrent employees or managers, etc.)

The Chairman of the Company also serves as the President, mainly to improve the efficiency of operation and management and the execution of decision-making. At present, more than half of the members of the Board of Directors are not concurrently serving as employees of the Company, so the independence of the board of directors is secure. In addition, the Chairman of the Board of Directors also closely communicates with the directors about the Company's operating status and planning guidelines to implement corporate governance. In the future, the Company plans to increase one independent directors in 2023 to enhance the functions of the Board of Directors and strengthen the supervision function.

Note 2: Vice President Wen-Bin Hsu resigned on September 8, 2023.

Note: Based on the proposed employee compensation amount of NTD 231,145,000 in 2023 as approved by the Board of Directors of the Company, the details of the employee remuneration scheme have not yet been decided as of the publication date of the annual report. Therefore, the proposed amount is estimated based on the actual disbursement amount of the previous year.

3.2 Amount of compensation paid in the last two years by the Company and all companies included in the consolidated financial statements to the Company's directors, supervisors, general manager, and deputy general managers, and the respective proportion of such compensation to the income after tax in parent company only or individual financial statement, as well as the policies, standards, and packages by which it was paid, the procedures through which the compensation was determined, and its association with business performance and future risk.

3.2.1 Proportion to net profits after tax of the total of the remuneration paid to directors, general managers and deputy general managers by the Company and all companies in the consolidated financial statements in the most recent two years

Item Position	Proportion of total remuneration to net profit after tax				Proportion of increase (decrease)	
	2023		2022			
	The Company	All companies included in the financial statements	The Company	All companies included in the financial statements	The Company	All companies included in the financial statements
Director	0.55%	0.68%	0.59%	0.75%	(0.04%)	(0.07%)
Supervisor	0%	0%	0%	0%	0%	0%
President and vice presidents	8.62%	9.65%	11.42%	12.36%	(2.80%)	(2.71%)

Note: Based on the proposed employee remuneration amount of NTD 231,145,000 in 2023 and directors' remuneration of NTD 8,000,00 as approved by the Board of Directors of the Company, the details of the employee remuneration scheme have not yet been decided as of the publication date of the annual report. Therefore, the proportion of total remuneration to net profit after tax is estimated based on the actual amount paid in 2022.

3.2.2 Correlation between the policies, standards and combinations of payment, procedures for determination of remuneration, business performance and future risks:

(1) Directors' Remuneration Policy

Remuneration to directors: According to Article 23 of the Articles of Incorporation, "The board of directors shall authorize the remuneration of all directors to determine the remuneration in accordance with the standards in the industry." and reasonable remuneration for each director based on his/her level of participation and contribution in the operation of the Company.

Remuneration to directors: According to Article 26 of the Articles of Incorporation, "If the Company has a profit in the year, it shall allocate no more than 3% as the remuneration to directors." The performance evaluation of individual directors is conducted in the first quarter after the end of the following year in accordance with the "Procedures for Performance Evaluation of Directors" of the Company. The remuneration committee evaluates the remuneration of directors every year, and the recommendation is submitted to the board of directors for approval.

(2) Managerial Officers' Remuneration Policy

Fixed salary for managers: Fixed salary is adjusted with reference to peer standards, as well as title, rank, education (expertise), professional ability, and job responsibility.

Variable salary of managers:

Remuneration to directors: According to Article 26 of the Articles of Incorporation, "If the Company has a profit in the year, it shall allocate no more than 6% as the remuneration to

directors."

Based on the "Performance Appraisal Management Procedures," our company evaluates an individual's performance achievement rate and their contribution to the company. This evaluation is also based on the annual overall operational performance of the company (such as the company's revenue growth, pre-tax and post-tax profit growth rates, etc.), and non-temporal indicators (such as leadership decision-making abilities, compliance with laws and regulations by their department, and significant deficiencies in operational risks, etc.) to calculate their performance compensation.

(3) Procedures for determining remuneration:

The remuneration to directors and managers is regularly evaluated based on the evaluation results of the Company's "Regulations Governing Performance Evaluation of the Board of Directors" and "Regulations Governing Performance Evaluation applicable to managers and employees."

The items of the directors' performance evaluation include: mastery of the Company's goals and mission, awareness of directors' duties, participation in the Company's operations, management of internal relations and communication, directors' professionalism and continuing education, and internal control

The annual performance appraisal of managers includes the performance indicators corresponding to their main duties, as well as the evaluation of management functions and core competencies. The relevant performance evaluation and the reasonableness of the remuneration are regularly evaluated and reviewed by the Remuneration Committee and the Board of Directors every year. In addition to reference to the individual's performance achievement rate and contribution to the Company, the Company's overall operating performance, future risks and development trends in the industry, and The Company reviews the remuneration system in a timely manner depending on the actual operating conditions and relevant laws and regulations. In addition, after comprehensively considering the current corporate governance trend, reasonable remuneration is paid to seek a balance between the Company's sustainable operation and risk control.

The results of the Company's 2023 performance self-assessment and managerial officers' performance assessment of the Board of Directors, members of directors, and members of various functional committees were positive. The remuneration to directors and managers has fully taken their professional capabilities and the Company's operational and financial position into account, and linking the Company's overall operating performance, individual performance target management, and evaluation results. The actual amount of remuneration to directors and managers paid in 2023 is reviewed by the remuneration committee and then submitted to the board of directors for approval.

(4) Correlation with operating performance and future risks:

The review of the payment standards and system related to the Company's remuneration policy is mainly based on the overall operation of the Company, and the performance achievement rate and contribution are reviewed to improve the overall organizational efficiency of the Board of Directors and management departments. In addition, reference is made to the remuneration standards in the industry to ensure that the remuneration of the Company's management is competitive in the industry, in order to retain outstanding management talents.

The Company's managerial officers' performance targets are combined with "risk control" to ensure that possible risks within the scope of duties are managed and prevented. The results of the appraisal and rating based on the actual performance are linked to all relevant human resources and related remuneration policies. The key decisions of the Company's management are made after a balanced consideration of various risk factors. The performance of the relevant decisions is reflected in the Company's profitability, and the management's compensation is related to the performance of risk control.

4. Corporate Governance Status

4.1 Operation of the Board of Directors

The Board of Directors met 7 times in the most recent year (A) and directors' attendance was as follows:

Position	Name	Number of times actually attending (observing) (B)	Frequency of attendance	Actual attendance (observation) rate (%) [B/A]	Remarks
Chairperson	T.C. Gou	7	0	100%	Note 1
Director	T.C. Wang	7	0	100%	Note 1
Director	James Lee (Note 2)	6	1	86%	Note 2
Director	Eric Huang (Note 2)	7	0	100%	Note 2
Director	Chen-Phan Pu (Note 3)	7	0	100%	Note 3
Director	Jui-Hsia Wan	2	1	67%	Note 4
Independent Director	Randy Lee	7	0	100%	-
Independent Director	Chien-Chung Fu	7	0	100%	-
Independent Director	Jing-Mi Tang	7	0	100%	-
Independent Director	Chih-Yang Tseng	4	0	100%	Note 5

Other matters to be recorded:

- I. If any of the following occurs in the operation of the Board, specify the date, the session, the content of the motion, the opinions of the Independent Directors, and the response of the Company to the opinions of the Independent Directors:
 1. The circumstances referred to in Article 14-3 of the Securities and Exchange Act: For all the resolutions of the Board of Directors in 2022, please refer to pages XX to XX. All resolutions on the matters listed in Article 14-3 of the Securities and Exchange Act have been approved by independent directors.
 2. Further to the aforementioned matters, any adverse opinion or qualified opinion of the Independent Directors against the resolutions of the Board: None.
- II. For recusal of directors from motions due to conflicts of interest, specify the names of the Directors, the content of the motions, the reasons for recusal, and the participation in voting:
 1. On September 6, 2023, the Board of Directors approved the allocation of directors' remuneration for 2022. With regard to the remuneration of directors, T.C. Gou, Chen-Phan Pu, T.C. Wang, James Lee, Eric Huang, Jui-Hsia Wan, Randy Lee, Chien-Chung Fu, and Jing-Mi Tang, were all recused from discussion and voting in accordance with the law and based on their personal interests in the matter. The remaining eight directors passed the proposal without objection.
 2. On September 6, 2023, the Board of Directors approved the allocation of managerial staff remuneration for 2022. In regard to the remuneration of directors concurrently serving as staff T.C. Gou, Chen-Phan Pu, James Lee, and Eric Huang, all recused from discussion and voting in accordance with the law and based on their personal interests in the matter. After the remaining 8 directors passed the proposal without objection, the remuneration of the other

managerial staff was approved by all the directors present without objection.

III. The Board of Directors Status of Evaluation and Implementation

Assessment cycle	Assessment period	Assessment scope	Assessment method	Assessment content
Implemented once per year	2023.1.1~ 2023.12.31	<ul style="list-style-type: none"> • Board of Directors performance evaluation • Board member performance evaluation • Functional committee performance evaluation 	<ul style="list-style-type: none"> • Internal self-evaluation by the Board of Directors • Board member self-evaluation • Internal self-evaluation of functional committees (including Audit Committee, Remuneration Committee, and Corporate Governance and Sustainable Operation Committee) 	<p>Board of Directors self-evaluation</p> <ol style="list-style-type: none"> 1. Degree of participation in company operations 2. Improving the quality of board decisions 3. Board composition and structure 4. Election and continuing education of the directors 5. Internal Control <p>Board member self-evaluation</p> <ol style="list-style-type: none"> 1. Master the company's goals and tasks 2. Director's responsibilities 3. Recognition of functional committee responsibilities 3. Improving decision-making quality of functional committees 4. Functional committee composition and member selection 5. Internal Control

1. The performance evaluation indicators of the Board of Directors include five major aspects and a total of 41 indicators. The total average of the evaluation results is 5 points (maximum score being 5 points). This shows that the Board of Directors has the responsibility to guide and supervise the company's strategy, major business and risk management, and can establish a proper internal control system. The overall operation situation is optimal and meets the requirements of corporate governance.
2. The performance evaluation indicators for board members include six major aspects and a total of 23 indicators. The overall average of the evaluation results is 4.98 points (maximum score being 5 points). This shows that the directors have positive comments on the efficiency and effectiveness of the operation of various indicators.
3. Functional committees include the Audit Committee, the Remuneration Committee, Corporate

Governance and Sustainable Development Committee. The indicators include five major aspects. The total average of the evaluation results is 5 points (with the maximum score being 5 points). It shows that the overall operation of the functional committee is optimal and meets the requirements of corporate governance, effectively enhancing the functions of the Board of Directors.

IV. Assessment of objectives (e.g. setting up an Audit Committee, enhancing the transparency of information, etc.) and implementation status in respect of strengthening the powers of the Board of Directors for the current and immediately past years to be carried out:

1. The Company has established a Remuneration Committee, an Audit Committee and Corporate Governance and Sustainable Development Committee, respectively assisting the Board of Directors in performing their supervisory duties.
2. The Company takes the initiative to disclose important resolutions of the Board of Directors on the Company's website to enhance information transparency.
3. The Company has purchased liability insurance for directors and supervisors in accordance with the Articles of Incorporation to reduce and diversify the risk of material damage to the Company and shareholders, and regularly reviews the terms of the insurance policy to ensure that the insurance indemnity and coverage meet the needs, and reports to the Board of Directors as required.
4. Annual meeting agenda planned in advance

Note 1: Corporate representative of Hsin Hung International Investment Co., Ltd.

Note 2: Corporate representative of Fu Lin International Investment Co., Ltd.

Note 3: Corporate representative of Foxlink Taiwan Industry Co., Ltd.

Note 4: Resigned on May 31, 2023

Note 5: Assumed on May 31, 2023

4.2 Information on operation of the Audit Committee

Four meetings have been held by the Audit Committee in the most recent year. Independent directors attended as follows:

Position	Name	Actual Attendance Frequency (B)	Frequency of Attendance	Actual Attendance Rate (%) (B/A) (Note)	Remarks
Convener	Randy Lee	4	0	100%	Independent Director
Committee member	Chien-Chun Fu	4	0	100%	Independent Director
Committee member	Jing-Mi Tang	4	0	100%	Independent Director
Committee member	Chih-Yang Tseng	2	0	100%	1. Independent Director 2. Assumed on May 31, 2023

Other matters to be recorded:

- I. If the operation of the Audit Committee falls into one of the circumstances, the date, session, the content of the proposal, independent directors' objections, reservations, or major suggestions, Audit Committee' resolution results, and the Company's response to such opinions shall be stated.
 1. Matters listed in Article 14-5 of the Securities and Exchange Act: After the approval of the Audit Committee, they are reported to the Board of Directors.

Date and Session/ Term	Proposal Content, Resolution Status, and Subsequent Handling
March 15, 2023 (14th meeting of the 2nd term)	<p>I. Proposal content:</p> <ol style="list-style-type: none"> 1. Reported on the implementation of the Company's internal audit operations 2. Reported accountant communication matters 3. Report the relevant information on audit quality indicators (AQI). 4. Discussed the Company's 2022 financial statements and business status. 5. Discussed the Company's 2022 profit distribution 6. Approved the replacement of CPAs and the assessment of accountant independence and competency and their remuneration. 7. Discussion Approving the Company's CPAs, their offices and affiliates to provide non-assurance services to the Company and subsidiaries. 8. <p>August 11, 2023 (1st meeting of the 3rd term)</p>	<p>I. Proposal content:</p> <ol style="list-style-type: none"> 1. Reported on the implementation of the Company's internal audit operations 2. Report the Company's engagement in derivative trade. 3. Discussion of the Company's consolidated financial statements and business status for the second quarter of 2023. 4. Discussion of the capital increase in the subsidiary and the reinvestment of Xin Sun Company, Vietnam. 5. Discussion of capital increase in subsidiary and reinvestment in Da Nang, Vietnam. 6. Discuss the proposal of making endorsements/guarantees for the sub-subsidiary (Jing-Shih Group). <p>II. Audit Committee resolution outcome: All members of the Audit Committee agreed to pass.</p> <p>III. The Company's handling of the Audit Committee's opinions: Submitted to the Board of Directors and approved by all directors present.</p>
<p>November 10, 2023 (2nd meeting of the 3rd term)</p>	<p>I. Proposal content:</p> <ol style="list-style-type: none"> 1. Reported on the implementation of the Company's internal audit operations 2. Report the Company's engagement in derivative trade. 3. Report the situation of exceeding loan limit of subsidiaries and the corrective action plan. 4. Discussion of the Company's 2023 third quarter consolidated financial statements and operations. 5. Discussion of capital increase in CU International Ltd., a 100% owned subsidiary of the Company. 6. Discussion of amendments to the Company's "Procedures for Loaning Funds to Others." 7. Discussion and formulation of the Company's internal audit plan in 2024. 8. Matters with regard to the review of financial statements and governance communication shall be communicated and discussed with the reviewing accountants in the form of meetings. <p>II. Audit Committee resolution outcome: All members of the Audit Committee agreed to pass.</p> <p>III. The Company's handling of the Audit Committee's opinions: Submitted to the Board of Directors and approved by all directors present.</p>

2. Further to the aforementioned matters, motions rejected by the Auditing Committee but passed by the Board at the consent of more than 2/3 of the Directors: None.
- II. For recusal of independent directors from motions due to conflicts of interest, specify the names of the independent directors, the content of the motions, the reasons for recusal, and the participation in voting: None.
- III. The communication between the independent directors and the audit supervisor and the CPAs (materiality, means, and result of communication on the financial position and operation of the Company should be covered).
 1. The Company's internal audit supervisor regularly reports on the implementation of internal audits to the quarterly audit committee. In 2023, the internal audit supervisor reported to the independent directors on the audit committee regarding the implementation of audit operations four times. After discussion and communication in the four meetings, the independent directors all had a grasp and understanding of the audit execution results. No other objections or suggestions were raised.
 2. After being reviewed or checked by a certified public accountant, the financial statements of the Company are sent to the Audit Committee for discussion. And after its approval, a report or resolution is submitted to the Board of Directors. The CPAs usually discuss and communicate with independent directors by e-mail, but arranges at least 1-2 actual attendances of the Audit Committee every year. On March 15, 2023, the Audit Committee arranged for the CPAs to attend in person, and report and communicate with independent directors on matters such as the financial statement audit plan, major financial reports, and the update of accounting and auditing laws and regulations. After discussion and communication, the independent directors had no opinion on the accountants' reports. Therefore, the independent directors of the Company have good communication with the CPAs.
- IV. Annual working focus and operational status of the Audit Committee:
 The Audit Committee of the Company held four meetings in 2023. All audit committee members attended each meeting, and their main working focus and authority were as follows:
 1. Establishing or amending the internal control system in accordance with Article 14 of the Securities and Exchange Act.
 2. Evaluation of the effectiveness of the internal control system.
 3. Formulating or modifying the processing procedures for major financial business activities that acquire or dispose of assets, engage in derivative commodity transactions, lending of funds to others, endorse or provide guarantees to third parties.
 4. Matters involving director self-interest.
 5. Significant asset or derivative commodity transactions.
 6. Significant capital loans, endorsements or guarantees.
 7. Raising, issuing or private placement of equity securities.
 8. Appointment, dismissal or remuneration of certified public accountants.
 9. Appointment and removal of financial, accounting or internal audit supervisors.
 10. Annual financial reports and quarterly financial reports.
 11. Implementation of internal audit operations.
 12. Other important matters specified by the Company or the competent authority.

Convener	Randy Lee	2	0	100%	Serving another term
Committee member	Chien-Chung Fu	2	0	100%	Serving another term
Committee member	Jing-Mi Tang	2	0	100%	Serving another term
Committee member	Chih-Yang Tseng	1	0	100%	1. Newly elected to office 2. Assumed office on May 31, 2023

Other matters to be recorded:

I. Remuneration Committee's scope of authority:

- (I) Committee members should faithfully perform the following functions and powers with the attention of good managers, and be responsible to the Board of Directors as they submit their suggestions to the Board of Directors for discussion:
 1. Formulate and regularly review the policies, systems, standards and structures of directors, supervisors, and managers' performance evaluation and remuneration.
 2. Regularly evaluate and determine the remuneration of directors, supervisors, and managers.
- (II) When the Committee performs the functions and powers of the preceding article, they should be based on the following principles:
 1. The performance evaluation and remuneration of directors, supervisors, and managers should refer to the usual level of payment in the industry. Furthermore, they should consider

the reasonableness of the connection with personal performance, company operating performance and future risks.

2. Directors and managers should not be incentivized to engage in behaviors that exceed the Company's risk tolerance in pursuit of remuneration.
3. The ratio of dividends to directors and senior managers' short-term performance and the payment time of part of the variable salary shall be determined in consideration of industry characteristics and the nature of the Company's business.

(III) The salary remuneration referred to in the preceding two paragraphs includes cash remuneration, stock options, employee stock bonuses, retirement benefits or severance payments, various allowances, and other measures with substantial incentives.

II. If the Board of Directors does not adopt or amend the recommendations of the Remuneration Committee, the date and period of the Board of Directors, the content of the proposal, the resolution of the Board of Directors, and the Company's handling of the opinions of the Remuneration Committee should be stated. (If the remuneration approved by the Board of Directors exceeds the recommendation of the Remuneration Committee, the differences and reasons should be stated): None.

III. On resolutions of the Remuneration Committee, if members have objections or reservations and have records or written declarations, the date, period, proposal content, opinions of all members and the handling of the opinions of the members shall be stated: None.

IV. Reasons for discussions and resolutions of the Remuneration Committee in 2023, and the company's handling of members' opinions:

Meeting Date	Proposal	Resolution Result	Company's Handling
1st meeting of 2023, March 15, 2023	The Company's remuneration plan for directors for 2022	Approved by all members present	Proposed to the Board of Directors and approved by all directors present

			<p>issues assessed and managed by the Committee, and approves the policies and goals of sustainability-related issues and urge the management team to make adjustments in line with the Company's operating conditions.</p> <p>6. The Company held a meeting on February 21, 2024. The contents of the motions included issues that require attention in the development of sustainable operation in 2024, and an implementation plan for 2024 was formulated; supervise the implementation of sustainable operation matters, and evaluate the implementation.</p> <p>7. The Company has a Social Responsibility Division under its Human Resources Administration Office, and there are currently 7 staff members in this division. They are responsible for formulating corporate social responsibility implementation plans, regular audits, and promoting the operation of social responsibility every year, and for preparing corporate social responsibility reports and so on.</p>	
II. Does the Company follow the principle of materiality, conduct risk assessments on environmental, social and corporate governance issues related to company operations, and formulate relevant risk management policies or strategies?	V		<p>1. The company has formulated a Corporate Social Responsibility Policy. At the same time as the Company is operating, it is actively implementing corporate social responsibility to comply with the international trend of balancing the development of the environment, society and corporate governance.</p> <p>2. The Company has set up an Internal Audit Department to inspect and evaluate the effectiveness of the internal control system, and provide suggestions for improvement in a timely manner. It does so to ensure the continuous</p>	No difference

			and effective implementation of various systems, and to assist the Board of Directors and management to achieve and set goals by evaluating and improving risk management. Through the establishment and maintenance of the Company's internal audit system, the improvement plan is developed thereby.	
III. Environmental Issues (I) Has the Company established an appropriate environmental management system based on its industrial characteristics?	V		The Company has obtained ISO 14001, QC080000 and OHSAS18001 system certifications, fulfilling its commitment to environmental management policies. The ISO 14001 certificate is valid from November 11, 2022 through November 11, 2025, and the ISO50001 certificate is valid from February 6, 2023 through February 5, 2025.	No difference
(II) Has the Company committed itself to improving the utilization efficiency of various resources, and to using recycled materials with low impact on the environment?	V		The Company cooperates with suppliers such that scrap produced after production is sold to recycling companies to reduce the impact on the environment. In 2023, we will increase the percentage of recycled gold raw materials in the production process to 57%.	No difference
(III) Does the Company assess the potential risks and opportunities of climate change for the Company now and in the future, and take measures to deal with climate-related issues?	V		1. In order to better implement the corporate social responsibility of environmental protection, the Company established a green product management organization that advances management operations for the restricted substance system, thereby ensuring the effective operation of hazardous substance system management. We require attention be paid to the latest developments in international laws, regulations and standards, and timely internal conversion to ensure that customers' expectations for green product production are met. We also pay attention to each manufacturing link and process, identify risks and effectively implement management and	No difference

			<p>control, and comply 100% with global environmental regulations and customer standards. Furthermore, we strive to establish mutual trust and mutually beneficial supplier partnerships, comply with environmental protection standards and ethics, and grow together with suppliers.</p> <p>2. The Company announced its participation in SBTi in December 2021 and commissioned PWC to assist in the formulation of science-based carbon targets. We set a carbon reduction target aligned with preventing temperatures from increasing 1.5°C by 2030, and the carbon reduction plan was officially certified by SBTi in November 2022.</p>	
(IV) Does the company count greenhouse gas emissions, water consumption and the volume of total waste in the past two years, and formulate policies for energy saving and carbon reduction, greenhouse gas reduction, water management or other waste management?	V		<p>1. The Company is committed to energy-saving and carbon-reducing measures. The greenhouse gas emissions of each plant are checked in accordance with the ISO14064-1 standard, and obtain third-party verification; which is based on caring for the Earth and energy saving and environmental protection. In the future, we will continue to promote energy saving and greenhouse gas reduction policies. With the goal of continuous reduction, we hope to become a low-carbon enterprise with sustainable environmental development.</p> <p>2. The Company has set targets for reduction of greenhouse gases, water consumption, and other waste management. Please refer to the Company's sustainability report for details.</p> <p>3. 			<p>formulation of science-based carbon targets. We set a carbon reduction target aligned with preventing temperatures from increasing 1.5°C by 2030, and the carbon reduction plan was officially certified by SBTi in November 2022.</p> <p>4. The Company has completed the greenhouse gas inventory in April 2023 and was inspected by the external verification agency Afano International in April this year. furthermore, we received a Afano Greenhouse Gas Verification Statement in June.</p>	
IV.Social Issues				
(I) Has the Company established related policies and procedures in accordance with applicable legal rules and the International Convention on Human Rights?	V		The Company complies with relevant laws and regulations such as the Labor Standards Act, and it formulates various management methods to protect the rights and interests of both employers and employees, and to institutionalize various internal operations of the company. There is also a social responsibility division to ensure that employees' basic rights and social responsibilities are followed and implemented.	No difference
(II) Has the Company formulated and implemented reasonable employee welfare measures (including salary, vacation and other benefits, etc.), and appropriately reflects business performance or results in employee compensation?	V		The Company's internal regulations stipulate corporate ethics, and a reasonable salary and remuneration policy, as well as a clear performance appraisal, reward and punishment system, in line with corporate social responsibility policies.	No difference

Evaluation Item	Operational Status			Differences and Reasons for Differences With Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies
	Yes	No	Summary Description	
(III) Has the Company provided a safe and healthy work environment for the employees, and related education on occupational safety and health for the employees at regular intervals?	V		<p>1. The Company has implemented labor safety promotion and fire safety drills for employees, and regularly implements employee health examination and safety and health education and training. Enrich learning materials for all employees through online and offline courses. In 2023, the Group companies held a total of 275 training sessions, attended by a total of 65,100 people.</p> <p>2. In 2023, all 8 domestic and overseas production plants have all passed the ISO45001 occupational health and safety management system certification.</p> <p>3. The number of recordable occupational injuries in 2023 was 32, representing a recordable injury rate of 0.12, which was lower than the 66 persons with recordable occupational injuries in 2022 and the rate of recordable occupational injuries at 0.26.</p> <p>4. There were no cases of major fires and no casualties due to fires in 2023.</p>	No difference
(IV) Has the Company provided effective training in career planning for employees?	V		The company currently trains personnel through on-the-job training to ensure that employees perform duties in existing positions and also learn to acquire necessary skills for promotion.	No difference
(V) Regarding customer health and safety, customer privacy, marketing and labeling of products and services, does the Company comply with relevant regulations and international standards, and formulate relevant consumer protection policies and appeal procedures?	V		The Company complies with the relevant regulations and international standards for marketing and labeling of products and services. There is also a special area for stakeholders, providing a channel for customer questions, appeals or suggestions. The Company upholds the principle of good faith to protect the rights and interests of consumers.	No difference

Evaluation Item	Operational Status			Differences and Reasons for Differences With Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies
	Yes	No	Summary Description	
(VI) Has the Company formulated supplier management policies, where suppliers are required to follow relevant regulations on issues such as environmental protection, occupational safety and health or labor and their implementation?	V		In addition to committing to self-regulation with the strictest standards, the company also promotes suppliers' compliance with social responsibilities. Taking RBA, laws and regulations, and customer requirements as the standard or content, we formulate supplier social responsibility management procedures and adopt multiple channels to communicate social responsibility policies and regulations to suppliers. Furthermore, we incorporate labor, human rights, ethics, and environment as principles to conduct social responsibility compliance audits on new suppliers and major suppliers. In this way, we encourage all suppliers to meet social responsibility requirements.	No difference
V. Does the Company refer to the internationally-prepared reporting standards or guidelines, preparation of corporate social responsibility reports and other reports that disclose the company's non-financial information? Did the preliminary report obtain the confidence or assurance opinion of the third-party verification unit?	V		<p>1. The Company compiles and issues its corporate social responsibility report in accordance with the GRI Standard of the Global Reporting Initiative (GRI). It thus discloses the Company's sustainability issues, strategies, goals and measures, and the achievement of various indicators, and so on. In addition to complying with international trends and meeting the needs of customers and investors, it also exposes non-financial information that is not presented in the annual financial report. The content includes achievements in the economic, social, environmental and other related fields. The corporate social responsibility report can be viewed on the Company's official website.</p> <p>2. We completed the appointment of a third party to provide the Type 1 moderate-level assurance as per the AA1000 Assurance Standard for each sustainability report published by the Company from 2022 onwards. Sustainability reports published annually in the future</p>	No difference

	Yes	No	Summary Description	
			shall also undergo third-party certification. For details, please refer to sustainability report announcements given on the Company's website.	
<p>VI.If the Company has formulated its own Sustainable Development Best Practice Principles in accordance with the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, please describe the difference between its operation and the established Principles: The Company has established its Corporate Social Responsibility Policies, and they have no major differences with the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies.</p>				
<p>VII. Other important information that facilitates the understanding of the efforts in promotion of sustainable development:</p> <p>The Company upholds the business philosophy of sincerity, macro, and responsibility, and continues to promote corporate governance, develop a sustainable environment, and maintain social welfare. In order to fulfill due corporate social responsibility, the Company must uphold integrity as the highest principle for its business operations and employee behaviors among its various codes of conduct; in the Company's system design or business strategies, sustainability is largely considered development-related issues and policies, in order to enable the Company to achieve stable and long-term sustainable development, and achieve the goal of social co-prosperity and symbiosis with the environment.</p> <p>1. Social co-prosperity category:</p> <ul style="list-style-type: none"> ● Caring donations to public welfare groups and social welfare organizations: including donating winter clothes and various materials. ● Caring for the elderly in the community: Holding elderlies warmth meal event ● Blood Donation: The Bank donates blood three times a year. In 2023, a total of 1,032 bags of blood. <p>2. Environmental symbiosis:</p> <p>On October 14, 2023, the sustainability team convened nearly 100 employees to participate in the sustainable marine culture exploration and beach cleaning activities. Through guided walking tours, we learn about local culture and provide local communities with stable exposure and sustainable job opportunities. By understanding social and cultural issues (fishery culture, community relations) in the local community, we create values for social co-prosperity, and practice cultural sustainability, responsible consumption, and a sustainable village. In addition, the tour guide gave a detailed explanation of the ecology of the marshes, and then the sustainability director led the staff to conduct beach cleaning activities to maintain the marine ecology and help the sustainable conservation of marine resources.</p>				

● Climate Related Information of TWSE/Tpex-Listed Companies

1. Implementation Status of Climate-Related Information

Item	Implementation Status
1. Describe the oversight and governance of climate-related risks and opportunities by the Board of Directors and management.	<ul style="list-style-type: none"> ■ The Board of Directors appointed the Sustainable Development Committee to manage climate issues. Based on the climate-related risk topics collected, the Committee uses the Recommendations of the Task Force on Climate-related Financial Disclosures to identify, analyze and track the implementation of climate change related plans/actions. The possibility and degree of impact of climate risks, and appropriate mitigation and adjustment measures are taken. Led by the Environmental Sustainability Team of the Sustainable Development Task Force, we identify the priority of risks and opportunities according to “level of impact” and “likelihood of occurrence.” Regarding the management process of risks and opportunities prioritization, we ensure that material climate-related risks/mechanisms are all properly grasped and assessed. Identify the impacts and risks faced by the Group in response to carbon neutrality, and formulate response strategies and management systems to reduce operational risks caused by climate change. ■ The Company established a Corporate Governance and Sustainable Development Committee and elected Mr. Randy Lee as the committee convener while concurrently establishing a Corporate Governance Task Force and Sustainable Development Task Force, to be convened, respectively, by Kufn Lin and Vice-President Spencer Yeh. Among them, the Sustainable Development Task Force leads the supervision and governance of Cheng Uei's internal climate-related risks and opportunities. Task force members include the heads of the production departments and the heads of the central manufacturing site units. ■ The Committee reports implementation results, climate-related risk response strategies, and annual operating guidelines to Board of Directors every six months. At the same time, internal meetings are held regularly every month with meeting topics to include responses to major customer requirements, monitoring risk events, reviewing energy saving and emission reduction targets and annual budgets and overseeing the implementation performance of each

	<p>department.</p> <ul style="list-style-type: none"> ■ In cases involving climate and major capital investment, including energy-saving technological transformation projects, in accordance with the internal construction project contracting operation management measures, a bid review committee shall be established for a certain amount or more to review relevant materials and propose a bid award proposal. The Audit Committee composed of independent directors of the Company will then review the case and decide the bid.
<p>2. Describe how the identified climate risks and opportunities will affect the Company's business, strategy, and finances (in the short, medium and long term).</p>	<ul style="list-style-type: none"> ■ The Company committed to setting science-based targets in 2021 and passed the Science Based Target Initiative (SBTi) compliance review in 2022. ■ Referring to the schedule of carbon reduction targets, we have set 2021 as the base year and the short term is defined as 1 to 3 years; the medium-term is 4 to 6 years; and the long term is more than 6 years. ■ Short-, medium- and long-term risks: <ol style="list-style-type: none"> 1. Short term: Increased cost of raw materials; stricter environmental and energy regulations; extreme weather such as typhoons and floods. 2. Medium term: Increased cost of renewable energy acquisition; cost of transition to a low-carbon economy. 3. Long term: fuel/energy tax or carbon tax; net-zero emission trend; long-term difficulty in obtaining renewable energy. ■ Short-, medium- and long-term opportunities: <ol style="list-style-type: none"> 1. Short term: the development of new products and circular economy innovation of raw materials; improving the natural disaster response and defense mechanism; and reducing the use of water resources. 2. Medium term: participation in renewable energy projects, carbon trading markets and energy-consuming equipment renovations. 3. Long term: improvement of energy resource production efficiency; investment in renewable energy; generation of opportunities for carbon assets and enhancement of our corporate reputation.
<p>3. Describe the financial impact of extreme climate events and transformational actions.</p>	<ul style="list-style-type: none"> ■ The Company identifies risks and opportunities covering products and services, supply chains, adaptation and mitigation activities, R&D investment, and operations and assesses the probability and extent of events according to each risk and opportunity. ■ The Company further analyzes the operating costs and revenues, capital

	<p>expenditures and allocations, capital acquisitions, acquisitions and asset carve-out acquisitions that will result from the event to understand the financial impact of the event on the organization and develop response strategies.</p>
<p>4. Describe how the identification, assessment and management processes of climate risks are integrated into the overall risk management system.</p>	<ul style="list-style-type: none"> ■ The Board of Directors appointed the Sustainable Development Committee to manage climate issues. Based on the climate-related risk issues collected by the committee, we have adopted the Recommendations of the Task Force on Climate-related Financial Disclosures risk framework while identifying, analyzing and tracking the implementation status of climate change-related plans/actions, and take appropriate mitigation and adaptation measures depending on the likelihood of climate risk and the level of impact. ■ Led by the Environmental Sustainability Team of the Sustainable Development Task Force, we identify the priority of risks and opportunities according to “level of impact” and “likelihood of occurrence.” Regarding the management process of risks and opportunities prioritization, we ensure that material climate-related risks/mechanisms are all properly grasped and assessed.
<p>5. If scenario analysis is used to assess resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors and major financial impacts used should be explained.</p>	<ul style="list-style-type: none"> ■ The scenario analysis reflects the Company's establishment of 2022 as the base year, adopting an emission scenario where the absolute carbon reduction must at least meet the 1.5°C target with the Absolute Contraction Approach under IPCC AR5 (2014) serving as the baseline scenario. The main financial impact comes from the payment of carbon fees, the increase in operating costs due to the purchase of renewable energy electricity certificates and the increase in the installation and operation costs of carbon reduction equipment.
<p>6. If there is a transition plan to address climate-related risks, describe the content of the plan and the indicators and objectives used to identify and manage physical and transition risks.</p>	<ul style="list-style-type: none"> ■ In 2023, the Group will continue to optimize energy management. The main production base, Huanan Plant, has passed the review of energy-saving technical renovation project. Approximately NTD 35 million has been invested in the project. It is expected to optimize the air compression system and its automatic operation control, as well as the renovation of refrigeration dryer to zero air consumption Dryer, replace LED lighting. The Huanan Plant's energy-saving renovation project is expected to be fully completed by June 2024. It is estimated that the annual power consumption can be saved by 4.376 million KWH, and the annual emission reduction is 2,496 tonCO₂. ■ In 2023, the use of renewable energy will reach 54.88%. The self-built solar power generation device generated 6,992 MWh of power, and another 138,243 MWh of power was purchased in the form of PPA and green

	<p>certificate. The Company will continue to build solar power internally to increase the generation capacity of renewable energy. At the same time, it seeks for green power with stable price and volume to obtain green certificate, in order to avoid the significant increase in costs due to renewable energy.</p> <ul style="list-style-type: none"> ■ Increase the recycling rate of metallic materials and increase the percentage of recycled gold to achieve responsible sourcing. The main production plants are UL2799 certified, and the recycling and reuse ratio is increased to reduce operating costs.
7. If internal carbon pricing is used as a planning tool, the basis for setting prices should be stated.	<ul style="list-style-type: none"> ■ Since the Company set 2022 as the base year, the operating period is still short and internal carbon pricing has not yet been introduced; it is expected to be implemented as a medium-term plan.
8. If there are climate-related targets, they should state the activities covered, the scope of greenhouse gas emissions, the planning period and the progress of achieving each year. If carbon offsets or renewable energy certificates (RECs) are used to achieve the relevant target, the source and amount of carbon reduction credits or the number of RECs should be stated.	<ul style="list-style-type: none"> ■ Through STBi, Cheng Uei is committed to reducing absolute Scope 1 and Scope 2 emissions in the target year of 2030 by 42% compared with the base year of 2021. Scope 3 emissions from the use of goods and services purchased and sold were reduced by 25% compared to the base year of 2021. ■ Net zero emissions by 2040. ■ In 2023, the use of renewable energy will reach 54.88%. The self-built solar power generation device generated 6,992 MWh of power, and another 138,243 MWh of power was purchased in the form of PPA and green certificate.
9. Greenhouse gas inventory, assurance status, and reduction targets, strategies, and concrete action plans (please fill in 1-1 and 1-2 separately)	<ul style="list-style-type: none"> ■ In accordance with the GHG Protocol, the Company inventories greenhouse gas emissions via direct emissions (Scope 1) and indirect emissions (Scope 2). In 2023, a total of seven manufacturing sites passed ISO 14064-1 greenhouse gas inventory verification. ■ From 2023, Scope 3 inventory will be conducted with reference to GHG Protocol Scope 3, including emissions from the purchase of goods and services and the use of products sold. For the relevant greenhouse gas inventory results, please refer to the sustainability report published on the Company's official website.

1-2 Greenhouse gas reduction goals, strategies and concrete action plans

Foxlink established the Corporate Governance and Sustainability Committee in 2021, which includes a subcommittee on Environmental Sustainability. This subcommittee is responsible for formulating greenhouse gas reduction targets, emission reduction strategies, and specific action plans. The progress of these plans, along with the achievements in emissions reduction, is reported to the board of directors every six months. In 2021, Foxlink committed to establishing science-based carbon reduction targets and underwent a compliance review by the Science Based Targets initiative (SBTi) in 2022. Foxlink's commitment includes an absolute reduction of 42% in Scope 1 & 2 emissions by 2030 compared to the 2021 baseline year. Additionally, in Scope 3 emissions related to purchased goods and services and emissions from product use and sales, Foxlink aims to achieve a 25% reduction by 2030 compared to the 2021 baseline year. Furthermore, in 2023, Foxlink made a commitment to achieve net zero emissions by 2040 under The Climate Pledge.

In order to fully grasp greenhouse gas data and ensure the accuracy of greenhouse gas inventory data, all major production bases underwent ISO14064 greenhouse gas verification in 2023. It is expected that greenhouse gas inventory systems and supplier greenhouse gas inventory systems will be implemented in the third quarter of 2024, enabling effective management of group greenhouse gas inventory data and collection of supplier greenhouse gas data. In 2023, Foxlink also responded to the international carbon disclosure requirements (CDP), improving the CDP rating to management level, and effectively communicating carbon reduction data to stakeholders.

In 2023, the total greenhouse gas emissions (Scope 1 + Scope 2/Market-based) amounted to 108,116 metric tons of CO₂e per year, representing a decrease of 58.86% compared to the 2021 baseline year. The primary reason for this reduction is the Foxlink's ongoing investment in energy efficiency and carbon reduction initiatives such as autonomous energy conservation, self-use of solar energy, and purchasing green electricity or certificates. In 2023, Foxlink achieved a renewable energy utilization rate of 54.88%.

Our group has committed to achieving net zero emissions by 2040 and has devised a carbon reduction pathway. In 2022, renewable energy usage reached 50%, and it is projected to constitute 56.54% of total energy usage by 2030, meeting the requirements of the Science Based Targets initiative (SBTi). In 2024, the group will implement greenhouse gas inventory and supplier survey systems to scientifically compile and manage greenhouse gas data. Additionally, the solar power generation equipment installed at the Xuzhou plant will be put into operation, demonstrating the Foxlink's dedication to carbon reduction efforts.

4.6 Ethical Business Performance Conditions, As Well As Differences and Reasons for Differences with Ethical Corporate Management Best Practice Principles for TWSE / GTSM Listed Companies

Evaluation Items	Status			Deviation from Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies and Causes thereof
	Yes	No	Summary Description	
<p>I. Formulation of ethical management policy and plans</p> <p>(I) Has the Company specified its policy and method for the implementation of ethical corporate management in its internal rules and regulations and external documents, and have the Board and the management of the Company promised to pursue the policy of ethical corporate management?</p>	V		<p>On March 11, 2011, the Board of Directors of the Company approved the formulation of Ethical Corporate Management Best Practice Principles. In addition, the Board of Directors of the Company approved the establishment of the Corporate Governance and Sustainable Development Committee on November 12, 2022 to promote and improve matters related to corporate governance and sustainable development. At the same time, through the establishment of a Corporate Governance Task Force and Sustainable Development Task Force, the implementation of ethical corporate management matters is included in the scope of the Corporate Governance Task Force. Furthermore, these matters are handed over to the stock affairs unit to be responsible for the formulation and supervision of ethical management policy and prevention plans, reporting regularly to the committee and to the Board of Directors.</p> <p>The Corporate Governance and Sustainable Development Committee meets at least twice a year. Each task force puts forth an annual</p>	No difference

Evaluation Items	Status			Deviation from Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies and Causes thereof
	Yes	No	Summary Description	
			<p>implementation plan at the beginning of the year and submits a report on the implementation results every six months. Said annual implementation plan and report on the implementation results are reviewed by the committee and reported to the Board of Directors.</p> <p>The Committee was convened in 2023 on February 15, 2023 and August 11, 2023. The second committee passed the annual work plan of the annual working group and the semi-annual work implementation progress review, and both of them were submitted to the Board of Directors meeting convened on the same day.</p>	
(II) Has the Company established an assessment mechanism for the risk of dishonesty, regularly analyzing and evaluating business activities with a high risk of dishonesty in the business scope, and formulated a plan to prevent dishonesty, and cover at a minimum the preventive measures for various acts under Article 7, Paragraph 2 of "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies?"	V		When conducting daily verifications, the internal audit unit will also include in the verification whether there is any dishonest behavior internally. When an employee demonstrates dishonest behavior, he or she shall be punished in accordance with the Employee Reward and Punishment Measures based on the circumstances and impact.	
(III) Does the Company specify the operating procedures, behavior guidelines, disciplinary penalties and grievance system in the plan to prevent dishonesty, and implement it, and regularly review and revise the pre-	V		In order to ensure the implementation of ethical management, all employees of the corporate Group have signed its Integrity Commitment Agreement. 4.7 If the Company has established the Corporate Governance Best Practice Principles and the related regulations, it should disclose how to inquire about such principles:

The Company has defined the "Corporate Governance Best Practice Principles" and disclosed the important management policies of the Company in the corporate governance section of the Company's website under Investor Relations. For more information, visit: <https://www.foxlink.com/web/>

4.8 Other important information that is sufficient to improve the understanding of corporate governance operations that must be concurrently disclosed: None.

4.9 Implementation Status of Internal Control System:

(1) Internal Control System Statement:

Cheng Uei Precision Industry Co., Ltd. Internal Control System Statement

Date: March 11, 2024

For the Company's Internal Control System of 2023, based on the results of self-assessment, the following is hereby declared:

- I. The Company acknowledges and understands that the establishment, implementation and maintenance of the internal control system are the responsibility of the Board and managerial officers of the Company, and that such a system has been implemented within the Company. The purpose of the system is to reasonably ensure that the effectiveness and efficiency of operations (including profits, performance, and protecting the security of assets), reliability, timeliness, transparency, and regulatory compliance of reporting, as well as the compliance with applicable laws, regulations, and bylaws are achieved.
- II. The internal control system is designed with inherent limitations. No matter how perfect the internal control system is, it can only provide a reasonable assurance to the fulfillment of the three objectives referred to above. Moreover, the effectiveness of the internal control system could be affected by the changes of environment and circumstances. However, the company's internal control system has a self-supervision mechanism. Once the missing element is recognized, the company takes corrective action.
- III. The Company evaluates the design and execution of its internal control system based on the criteria specified in the "Regulations Governing Establishment of Internal Control Systems by Public Companies" (hereinafter referred to as the "Regulations") to determine whether the existing system continues to be effective. The criteria defined in "the Regulations" include five elements depending on the management control process: 1. environment control, 2. risk assessment, 3. control process, 4. information and communication, and 5. supervision. Each constituent contains several criteria. Please refer to "the Regulations" for details.
- IV. The Company has adopted the said criteria to validate the effectiveness of its internal control system design and execution.
- V. Based on the results of examination, the Company believes that the design and implementation of its internal control system dated December 31, 2023 (including supervising and managing its subsidiaries), consisting of the effectiveness and efficiency of business operations, the preparation of reliable, timely and transparent financial statements, and their compliance with the relevant rules and regulations, are effective, and reasonably assure the achievement of the aforementioned goals.
- VI. This Statement will be a major part of the Company's annual report and prospectus, and will be made publicly available. The Company shall be held liable for misrepresentation or nondisclosure in the above content, according to Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- VII. This Statement has been approved by the Company's Board of Directors at the meeting held on March 11, 2024, at which this Statement was unanimously endorsed by all 9 attending directors with 0 individuals having opposing opinions.

Cheng Uei Precision Industry Co., Ltd.

Chairman: T.C. Gou

President: T.C. Gou

(2) If it is necessary to entrust an accountant to review the internal control system, the accountant's review report shall be disclosed: None

Note 1: the 2022 profit distribution proposal, approved by the Board of Directors.

Note 2: As of the date of publication of the Company's annual report, the 2024 first quarter report of the Company has not been reviewed by the CPAs.

1.6 Company dividend policy and implementation status:

(1) Dividend Policy:

The Company operates in information and communication-related industries, and is in the growth stage of the Company's life cycle. Therefore, in order to match the overall environment and the characteristics of industry growth, and to achieve the Company's goal of sustainable operations and stable operating performance, the Company's dividend policy directs that not more than 90% of the company's distributable earnings will be distributed to shareholders in the form of dividends. Furthermore, and in line with the future capital expenditure budget and capital demand situation, the cash dividend portion of the Company's dividends will not be less than 20%.

(2) Proposed cash dividend distribution in this instance

The Company allocated NTD 1,024,653,880 from 2023 earnings as cash dividends, and distributed NTD 2 per share. This proposal was approved by the Board of Directors and authorized the Chairman to set separate matters such as the ex-dividend record date, distribution date, and other related matters.

1.7 The influence of stock dividends planned to be paid in the Shareholders Meeting of this year on the operation performance and earnings per share of the Company:

Unit: NTD Thousand

Item			Year	2024
Paid-in capital amount at the beginning of the period				5,123,269
Cash and stock dividends to be distributed in the current year (Note)	Cash dividend per share		2 per share (NTD)	
	Capitalization of retained earnings to be distributed per share		None	
	Capitalization of capital reserves to be distributed per share		None	
Change in business performance	Operating profit		The Company did not prepare 2024 financial forecasts, so this is not applicable	
	Increase (decrease) ratio of operating profit over the same period last year			
	Net profit after tax			
	Increase (decrease) ratio of net profit after tax compared with the same period last year			
	Earnings per share (NTD) (Before retrospective adjustment)			
	Earnings per share increase (decrease) ratio over the same period last year			
	Annual average return on investment (the reciprocal of the annual average P/E ratio)			
Proposed earnings per share and P/E ratio	Any capitalization of retained earnings is to be fully allocated to cash dividends	Projected earnings per share (NTD)		
		Proposed annual average return on investment		
	If capitalization of capital reserves has not been carried out	Projected earnings per share (NTD)		
		Proposed annual average return on investment		
	If the capitalization of retained earnings has not been handled and the capitalization of retained earnings has been paid by cash dividend	Projected earnings per share (NTD)		
		Proposed annual average return on investment		

Note: the 2023 profit distribution proposal, approved by the Board of Directors.

1.8 Remuneration of Employees and Directors

- (1) The percentage or scope of remuneration for employees, directors, and supervisors as set out in the Articles of Incorporation:

If the Company makes a profit during the year, it should allocate no less than 6% for employee remuneration and no more than 3% for directors' and supervisors' remuneration. However, when the Company has accumulated losses, the reserves for covering the losses shall be retained in advance.

Employee remuneration as per the preceding paragraph can be paid in stock or cash, and can be directed to employees of the Company and employees of affiliated companies. The remuneration of directors and supervisors can only be paid in cash.

- (2) The amount of remuneration for employees, directors and supervisors estimated and presented in the current period shall be calculated based on the number of shares distributed to employees as remuneration, or actual amount paid to employees if different from the estimated amount:

If the Company makes a profit during the year (referring to profit before tax minus the profit before the distribution of employee remuneration and director and supervisor remuneration), it should allocate no less than 6% for employee remuneration and no more than 3% for directors' and supervisors' remuneration. However, when the Company has accumulated losses, the reserves for covering the losses shall be retained in advance.

The calculation basis of the number of shares to be distributed for employee stock dividends is based on the closing price on the day before the Board of Directors' resolution. However, if there is a discrepancy between the calculation basis of the number of shares and the actual distribution amount of the employee remuneration for stock distribution and the estimated amount, it will be regarded as a change in accounting estimates and listed as the actual distribution year's profit and loss.

- (3) Distribution of remuneration adopted by the Board of Directors:

- A. Amount of the remuneration paid to employees, directors and supervisors in cash or stock. If there is a discrepancy with the annual estimated amount of recognized expenses, the number of discrepancies, reasons and handling circumstances should be disclosed:

On March 11, 2024, the Board of Directors approved 2023 employee remuneration and directors' remuneration to be NTD 231,145,000 and NTD 8,000,000, respectively. The recognized amounts of employee remuneration and director remuneration in the 2023 financial statements are NTD 231,145,000 and NTD 8,000,000, respectively. There is no difference between the remuneration of employees and directors approved by the Board of Directors and recognized in the financial statements.

- B. The amount of employee bonuses distributed by stocks and its proportion to the total net profit and total employee bonuses in the parent company only financial report for the current period: No employee remuneration was distributed by stocks in this instance.

- (4) The actual payment of remuneration to the employees and the directors and supervisors in the previous year (including the number of distributed shares, amounts, and stock price). If there is a difference with the recognized amount of remuneration for employees and directors and supervisors, the number of differences, the reasons and the handling circumstances should be stated.

The remuneration of employees and directors recognized for 2022 were as follows: the remuneration of employees was NTD 312,000,000; the remuneration of directors was NTD 10,000,000.

Furthermore, the actual amount of employee remuneration paid for the year was NTD 312,000,000; director's remuneration was NTD 10,000,000. There was no difference between the actual distribution amounts and the recognized amounts.

1.9 Repurchase of shares by the Company: None.

2. Handling of Corporate Bonds

2.1 Information on Corporate Bonds

Corporate Bond Type		First Domestic Issue of Guaranteed General Corporate Bonds In 2019	First Domestic Issue of Guaranteed General Corporate Bonds In 2020

Issuing price		Fully issued at par value	Fully issued at par value
Total		NTD 3 billion	NTD 3.6 billion
Interest rate		Fixed annual interest rate of 0.80%	Fixed annual interest rate of 0.65%
Term		5 year maturity Maturity date: June 26, 2024	5 year maturity Maturity date: July 29, 2025
Guarantee agency		CTBC Bank, Taiwan Cooperative Bank, Mega International Commercial Bank, Chang Hwa Bank	CTBC Bank, Taiwan Cooperative Bank, Hua Nan Bank, Agricultural Bank of Taiwan, Mega International Commercial Bank
Trustee		Bank Sinopac Company Limited	Bank Sinopac Company Limited
Underwriting agency		CTBC Bank Co., Ltd.	CTBC Bank Co., Ltd.
Certifying attorney		Attorney Yang Wen-Yuan, Baker McKenzie	Attorney Yang Wen-Yuan, Baker McKenzie
Certified public accountant		Accountant Lin Se-Kai, PricewaterhouseCoopers	Accountant Lin Se-Kai, PricewaterhouseCoopers
Method of repayment		One-time principal repayment	One-time principal repayment
Outstanding principal		NTD 3 billion	NTD 3.6 billion
Redemption or prepayment terms		None	None
Restrictive covenants		None	None
Credit rating agency name, rating date, company debt rating results		None	None
Other rights attached	Amounts of ordinary shares, overseas depositary receipts, or other securities that have been converted (exchanged or subscribed) as of the publication date of the annual report	Not applicable	Not applicable
	Issuance and conversion method (exchanged or subscribed)	Not applicable	Not applicable
Issuance and conversion, exchange or subscription methods, issuance conditions, possible dilution of equity, and impact on existing shareholders' equity		None	None
Name of the depository institution of the exchange target		Not applicable	Not applicable

2.2 Information on conversion of corporate bonds: None.

2.3 Information on corporate bond exchange: None.

2.4 General declaration and issuance of corporate bonds: None.

2.5 Information on corporate bonds with stock options: None.

3. Disposal of Preferred Shares: None.

4. Circumstances of Handling Overseas Depositary Receipts: None.

5. Handling of Employee Stock Options:

- A. In respect to the Company's unexpired employee stock options, their handling status and impact on shareholders' rights and interests up to the date of publication of the annual report should be disclosed: The Company currently has no outstanding employee stock options.
- B. The names, acquisitions, and subscription status of managers obtaining employee stock option certificates and the top ten employees who can subscribe for stock option certificates accumulated through the printing date of the annual report: None.
- C. Handling of restricted employee shares: Up to now, no restricted employee shares have been issued.
- D. The names, acquisitions, and subscription status of managers obtaining restricted employee shares and the top ten employees who can subscribe for stock option certificates accumulated through the printing date of the annual report: None.

6. M&A or Transfer of Shares of Other Companies To Issue New Shares: None.

7. Implementation Status of Fund Utilization Plan: None.

V. Overview of Operations

1. Business Content

1.1 Business Scope

1.1.1 The Company's Principal Business Activities

The Company's business scope mainly covers the manufacturing, sales, and service of various connectors, cable products, batteries, and power products in the information industry, communications industry, automation equipment industry, precision machinery industry, and consumer electronics industry.

The product range currently produced by the Company encompasses:

- (1) CA02010 Manufacture of Metal Structure and Architectural Components
- (2) CB01010 Mechanical and Equipment Manufacturing
- (3) CB01030 Pollution Controlling Equipment Manufacturing
- (4) CB01990 Other Machinery Manufacturing
- (5) CC01020 Electric Wires and Cables Manufacturing
- (6) CC01030 Electrical Appliances and Audiovisual Electronic Products Manufacturing
- (7) CC01040 Lighting Equipment Manufacturing
- (8) CC01060 Wired Communication Mechanical Equipment Manufacturing
- (9) CC01070 Wireless Communication Mechanical Equipment Manufacturing
- (10) CC01080 Electronics Components Manufacturing
- (11) CC01090 Manufacture of Batteries and Accumulators
- (12) CC01101 Restrained Telecom Radio Frequency Equipment and Materials Manufacturing
- (13) CC01110 Computer and Peripheral Equipment Manufacturing
- (14) CC01990 Other Electrical Engineering and Electronic Machinery Equipment Manufacturing
- (15) CD01030 Motor Vehicles and Parts Manufacturing
- (16) CD01040 Motorcycles and Parts Manufacturing
- (17) CD01050 Bicycles and Parts Manufacturing
- (18) CD01990 Other Transport Equipment and Parts Manufacturing
- (19) CE01010 General Instrument Manufacturing
- (20) CE01030 Optical Instruments Manufacturing
- (21) CE01990 Other Optics and Precision Instrument Manufacturing
- (22) CI01010 Rope, Cable and Net Manufacturing
- (23) CQ01010 Mold and Die Manufacturing
- (24) E601020 Electric Appliance Installation
- (25) E603090 Lighting Equipment Construction
- (26) E701010 Telecommunications Engineering
- (27) E801010 Indoor Decoration
- (28) F107990 Wholesale of Other Chemical Products
- (29) F111090 Wholesale of Building Materials
- (30) F113050 Wholesale of Computers and Clerical Machinery Equipment
- (31) F118010 Wholesale of Computer Software
- (32) F207990 Retail Sale of Other Chemical Products
- (33) F211010 Retail Sale of Building Materials
- (34) F213030 Retail Sale of Computers and Clerical Machinery Equipment
- (35) F214030 Retail Sale of Motor Vehicle Parts and Motorcycle Parts, Accessories
- (36) F214040 Retail Sale of Bicycle and Component Parts Thereof
- (37) F214990 Retail Sale of Other Traffic Means of Transport and Component Parts Thereof

- (38) F218010 Retail Sale of Computer Software
- (39) F401021 Restrained Telecom Radio Frequency Equipment and Materials Import
- (40) G801010 Warehousing and Storage
- (41) I102010 Investment Consulting
- (42) I301010 Software Design Services
- (43) J101050 Sanitary and Pollution Controlling Services
- (44) J101060 Wastewater (Sewage) Treatment
- (45) ZZ99999 All business items that are not prohibited or restricted by law, except those that are subject to special approval.

1.1.2 Distribution of Business Volume

Unit: NTD Thousand

Product item	Business volume	Ratio
3C components	29,198,974	32.25%
System and peripheral products	37,683,291	41.62%
Retail sale of 3C products	12,422,435	13.72%
Energy service management	11,246,064	12.42%
Total	90,550,764	100.00%

Note: The above business volumes constitute operating revenues from the consolidated financial statements

1.1.3 Current goods (services) of the Company

The Company's main products are 3C components, system products, 3C product retail channels, and green energy related engineering services. The main products are as follows:

A. Cable connectors:

Mainly used for signal and power transmission of various 3C products. The main products include USB connection cables, DC power cables and transmission cables used in mobile phones, notebook computers, earphones and monitors.

B. Communication connectors:

Communication connectors refer to various types of connectors that do not include cables. The products are mainly used in consumer electronics such as mobile phones, notebook computers, network peripherals, earphones, and game consoles.

C. Power management modules:

Mainly used to control the uninterruptible power systems of cable TV networks; and the power supplies and converters of various 3C products.

D. System products:

Including smart pens, headsets, joysticks for game consoles and electric bicycles.

E. Retail channels: There are retail channels for 3C electronic products.

F. Energy service management

The main business is engineering, technical services, and electricity sales.

- The engineering business includes engineering services, construction of computer rooms, and construction of solar, wind and hydro power plants.
- Technical services include energy-saving services, operation of computer rooms and power plants, and design and development of solar energy, wind power and hydraulic farms.
- Electricity sales refer to the electricity revenue generated by green energy generation.

1.1.4 New products planned for development

- (A) Panoramic video conference camera
- (B) High End Qualcomm Wireless ANC Headset
- (C) Wireless Gaming Headset
- (D) Eye-tracking webcam
- (E) Development of AR glasses technology
- (F) 4DView stereoscopic image recording and modeling
- (G) Development of AI technology for game console joystick object colors
- (H) Physical movement detection for remote fitness sessions
- (I) Low pollution and carbon reduction production technology
- (J) Electric scooter battery modules
- (K) Electric bicycle battery modules
- (L) Charging pile product development
- (M) Introduction of automated guided vehicles (AGVs)
- (N) Black nickel plating technology

1.2 Industry Overview

1.2.1 Current status and development of the industry

The Company is mainly engaged in the manufacturing of various connectors and cables for the information, communication and consumer electronics industries, the manufacturing of 3C components such as power management modules for mobile phones and NB-use, as well as system products such as joysticks for game consoles, smart pens and Bluetooth headsets sales and service. Due to the wide variety of products, the following is an analysis of industries such as connectors, power management modules, game console joysticks, earphones, 3C product retail channels, and new energy.

(1) Connector

Connectors are mainly used for the connection between components and are important bridges between connecting circuits and signals. Their quality affects the reliability of signal transmission, which in turn affects the quality of the entire electronic machine's operation. Therefore, to maintain the normal and stable functions of electronic products, the quality of the connector is very important. General connector products will require characteristics such as low contact impedance, high insertion and removal force resistance, high insertion and removal times, environmental resistance and high frequency stability, and so on. Fine pitch and SMT products are especially indispensable for connectors used in portable electronic products.

Connectors have a wide range of applications, and have been applied to personal computers and their peripheral products, communication products, instrumentation equipment, military, aerospace, medical equipment, automotive transportation, consumer electronics and other products. In other words, almost all products in the electrical field need to use connector products.

Given continuous economic growth and the introduction of new electronic products, statistics from Bishop & Associate indicate that the global output value of connector products will reach USD 96 billion in 2023 and attain USD 105 billion in 2024, marking growth of 9.3%.

Source of data: Bishop & Associate

(2) Power management module

The power management module is an indispensable key component for all power electronic products. Its function is to convert the low-stability high-voltage AC power provided by the power company into the high-stability low-voltage DC power required by electronic products. It covers

a wide range of industries and diversified products, with applications including communication products, computer peripherals, consumer electronics, and so on. In terms of power management modules, products mainly include power supplies for consumer electronic products such as mobile phones and digital cameras, and UPS for servers. In recent years, digital home products have become proliferated substantially, including TVs, PCs, mobile phones, handheld devices, printers, audio-visual equipment, application devices, digital content, broadband Internet access, home networks and digital cameras, and more. Market demand for small, lightweight, and low-cost products will continue to increase, and especially portable communication products. Due to the advantages of smaller, thinner and portable electronic products, they promote market growth and form a virtuous circle. The communications market is thus expected to become the market with the greatest potential for power management modules.

(3) Smart Pen

As an accessory to tablet PCs, changes in the specifications of tablet PCs will directly affect the development trend of smart pens as accessories. Tablets have gradually evolved into a polarized product segment of high-end and affordable. High-end tablets usually have more advanced hardware specifications, higher performance and more functions to meet the needs of professional users. On the contrary, affordable tablets It provides basic functions and performance and is more suitable for daily use. The same applies to the development of Smart Pen.

In 2023, under the influence of the global macro economy and industry development cycle, the tablet market entered a period of adjustment. As the mainstream brands have cleared their inventories, the promotion of global technology development trends such as artificial intelligence, and manufacturers' new product launch plans, the tablet market in 2024 The market is expected to return to the growth trend, which will drive the growth of smart pens.

(4) Game console

The game industry can be divided into several segments, including the most classic console games, Handhelds, the most popular Mobile games, as well as Cloud games, metaverse, etc., 2020 The global outbreak of COVID-19 has forced people to avoid outdoor activities and contact. New lifestyles such as working from home and distance learning have accelerated the digital transformation and led to the rise of the "stay-at-home economy." The game industry is particularly in this trend. From 2019 to 2022, the global video game market has grown significantly. After 2022, as most countries gradually eased their lockdowns, the "stay-at-home economy" bonus came to an end. In addition, in the face of the global economic downturn and inflationary pressures, the global game industry It has ceased to grow, but with the continuous advancement of the digital trend and the innovation and development of the game industry itself, it still has huge potential.

(5) Headphones

With the continuous advancement of technology, headphone products are becoming more and more intelligent and multi-functional. The continuous application of new technologies such as true wireless earphones, smart noise reduction technology, and touch control has brought more developments to the earphone industry. Consumers' demands for high-quality sound quality and convenient functions are also increasing, which promotes the innovation and upgrading of the headphone industry. In recent years, with the popularity of online entertainment, digital media, and remote work, earphones have become an indispensable accessory in people's daily lives. The global earphone industry is in a stage of rapid development. Due to the constantly changing demand, the headphone market will continue to grow.

(6) 3C retail channels

In recent years, iPhone and Android series mobile phones have begun to fully support high-power charging, and the wireless fast charging function has become increasingly popular. In addition, tier-one mobile device brands no longer ship with chargers in response to environmental

protection requirements. This has led to increased demand for high-power charging related accessories shipment volume. In addition, the USB IF Association has launched a new generation of PD3.1, which pushes the original maximum power of 100W to 240W and provides more diverse charging applications for products. Notebooks equipped with USB C can also share high wattage with mobile phones. Therefore, the charging products launched by 3C retail channels need to have diversified output methods, fast speed, and high power.

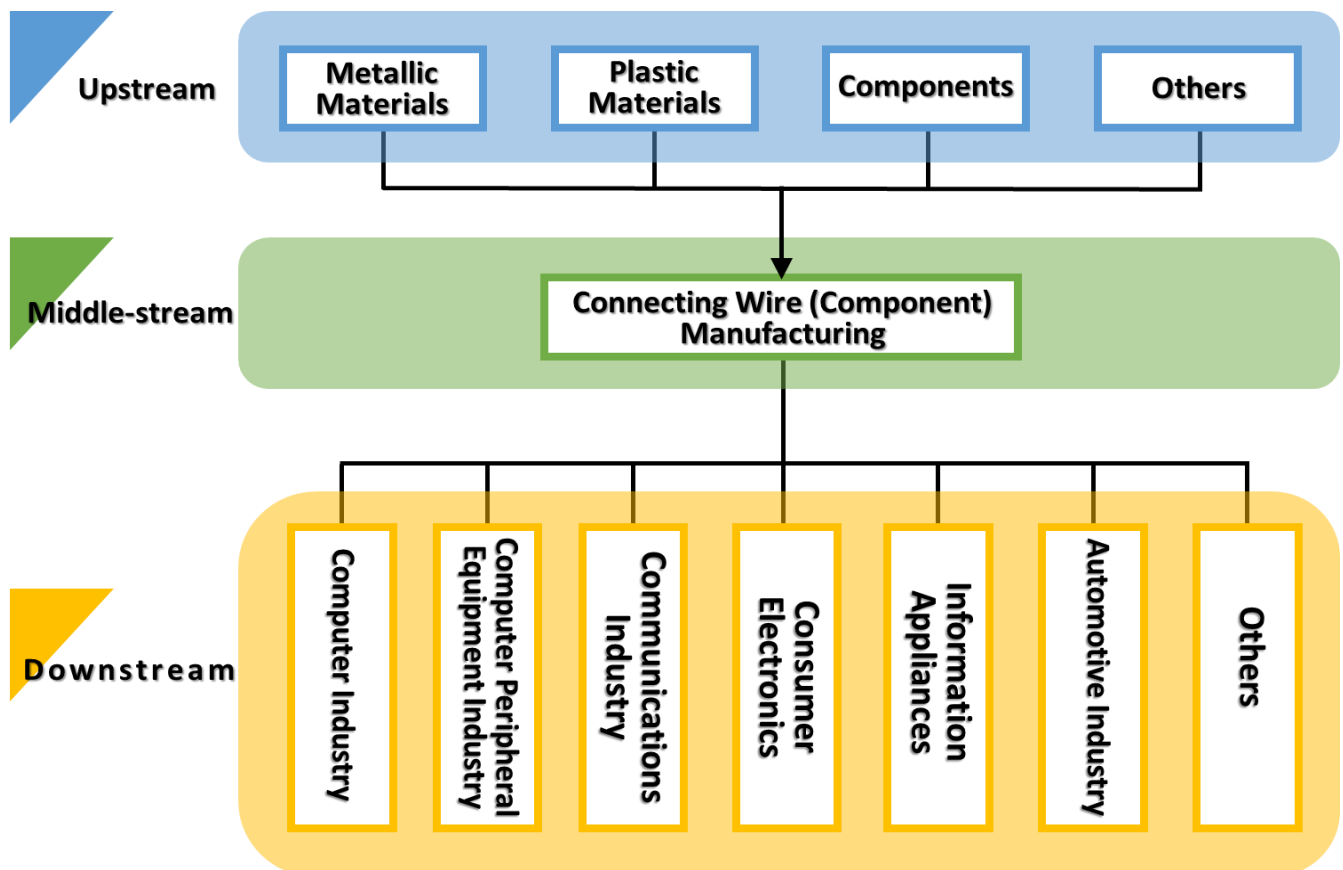

(7) New energy

In view of the fact that the world is in a critical era of energy transformation, green energy will be a new engine driving economic development in the future, in order to promote China's energy independence, emerging green energy industry, and gradually achieve the goal of non-nuclear home, the Ministry of Economic Affairs has passed the "green energy technology industry innovation plan" on October 27, 2016, one of the "5+2" innovative industries, based on domestic green demand. The introduction of domestic and foreign large-scale investment, increase quality employment and drive China's green energy technology and industry jump, with "green energy promotion", "industrial development" and "scientific and technological innovation" as the three major visions, through the comprehensive promotion of energy-saving, energy creation, energy storage and smart system integration and electricity industry reform and other policy-oriented measures, with a view to early solar photovoltaic target volume of 8.7GW by 2020, To install smart meters in 3 million low-voltage households by 2024, and to meet the target of 20% renewable energy generation by 2025, the long-term target of promoting the total amount of renewable energy is set at more than 27GW(27 million kW) by 2025. Including solar photovoltaic cumulative capacity of 20GW(expected annual power generation of 25 billion KWH), land wind 1.2GW(expected annual power generation of 2.76 billion KWH), offshore wind 5.5GW(expected annual power generation of 19.8 billion KWH), hydropower 2.15GW(expected annual power generation of 6.6 billion KWH) and biogas, the implementation of energy transformation, To gradually reduce the proportion of nuclear power generation, and achieve the vision of non-nuclear homes by 2025.

1.2.2 Relationships with upstream, middle-stream, and downstream industries:

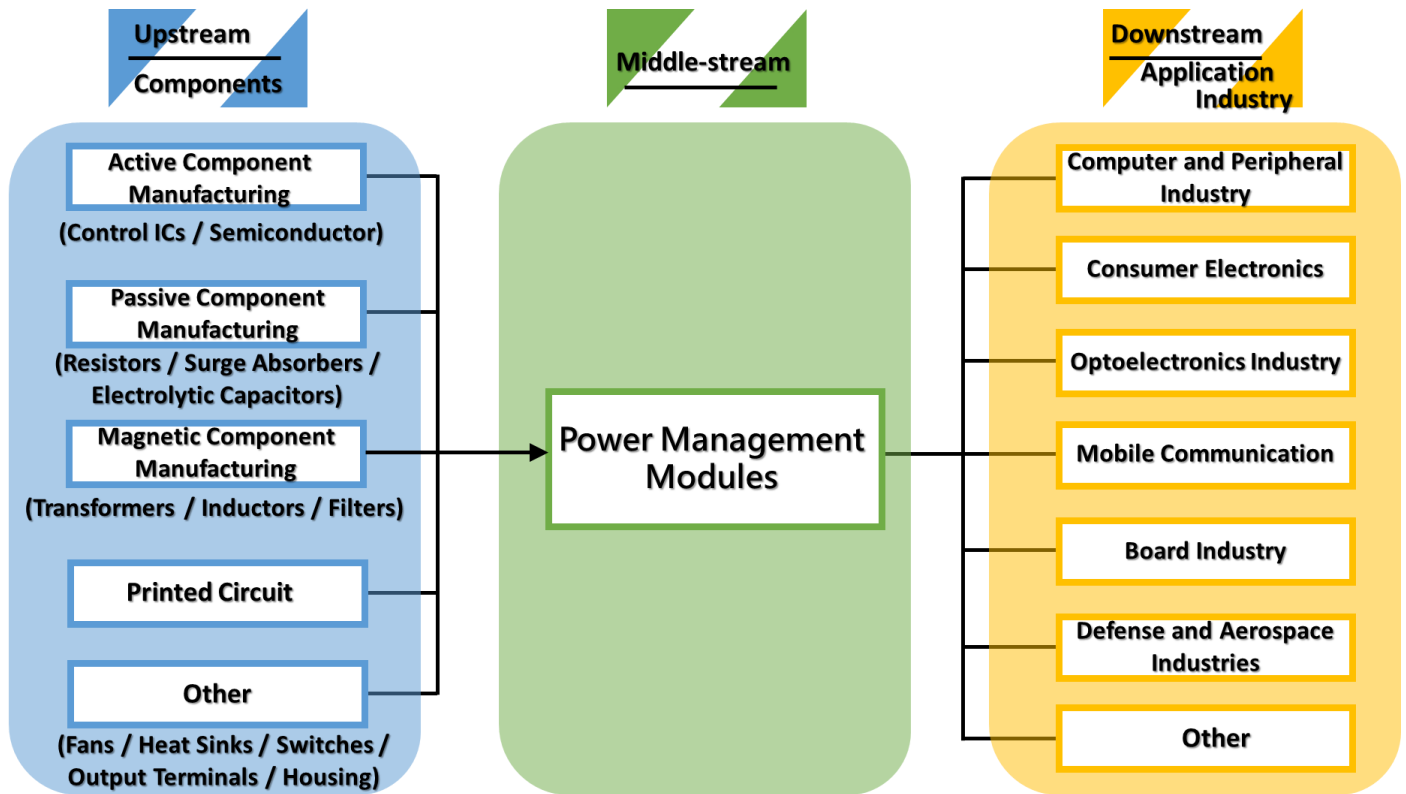

(1) Connectors

In the connector industry, the upstream materials are mainly plastic materials, copper alloy plates and electroplating materials. The industries covered include copper manufacturing, plasticization, and so on. As the domestic related manufacturer system is quite complete, there is no scarcity in its sources. Furthermore, it has wide application in downstream industries, mainly in computers and peripherals, network communication products, consumer electronics and other electrical appliances that require power and telecommunications. The industry's upstream, midstream, and downstream relevance are as follows:

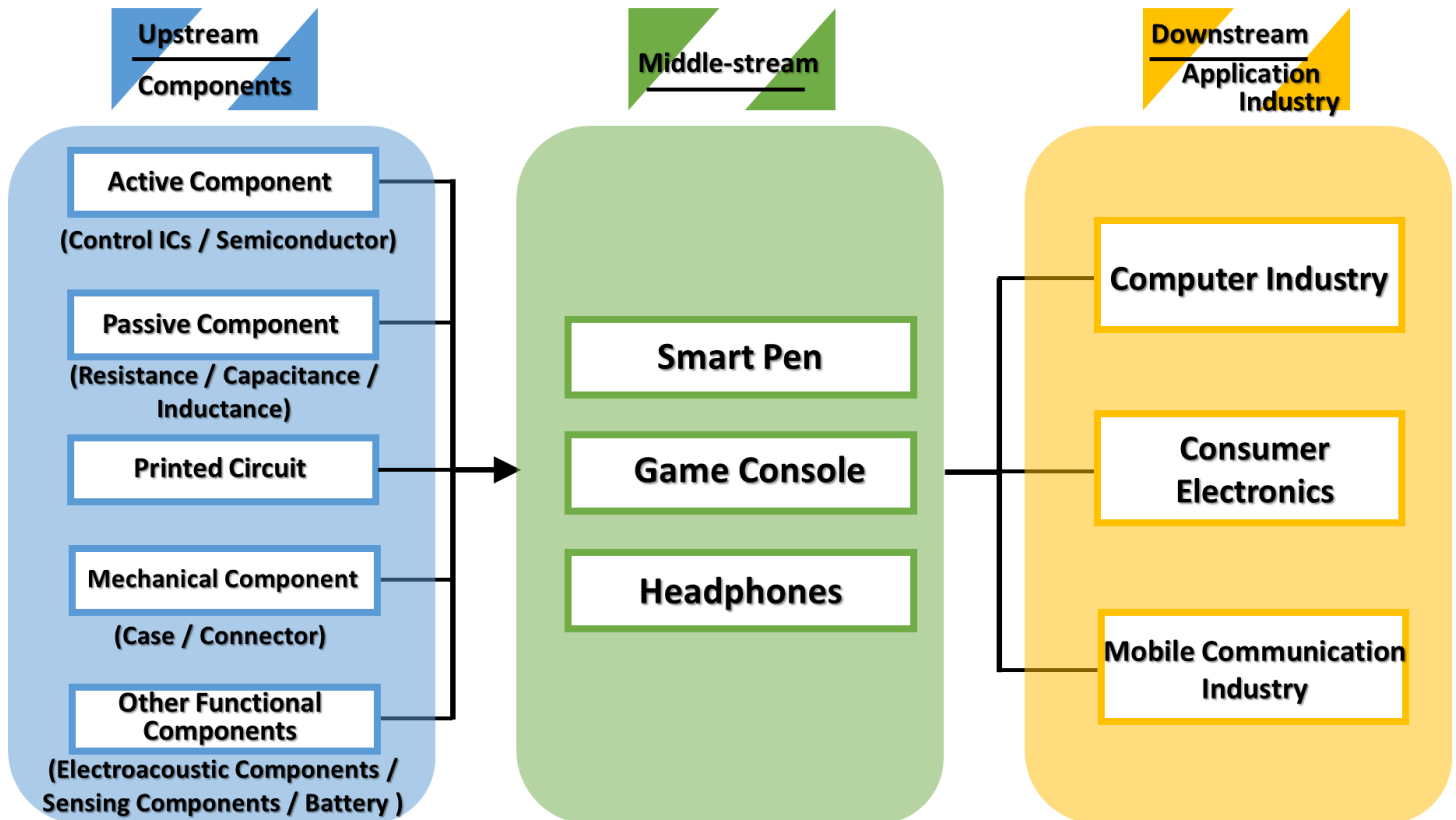

(2) Power management module

The power management module sector falls within the electronics industry, and its industrial structure is mainly based on upstream electronic components. This includes active components, passive components, magnetic components and printed circuit boards, and so on. Downstream application fields cover various electronic product application industries. The industry's upstream, midstream, and downstream relevance are as follows:

(3) Smart pen/game controller/headset

As the accessories for computers, game consoles and mobile communication consoles, the industrial structure of smart pens/game controllers/headphones involves the following key links, including upstream active components, passive components, PCB, mechanical components and functional components, etc. Assembly and manufacturing, while the downstream applications cover brands and retailers in the computer industry, consumer electronics industry, and mobile communication industry. The up-stream, mid-stream and down-stream are as follows:

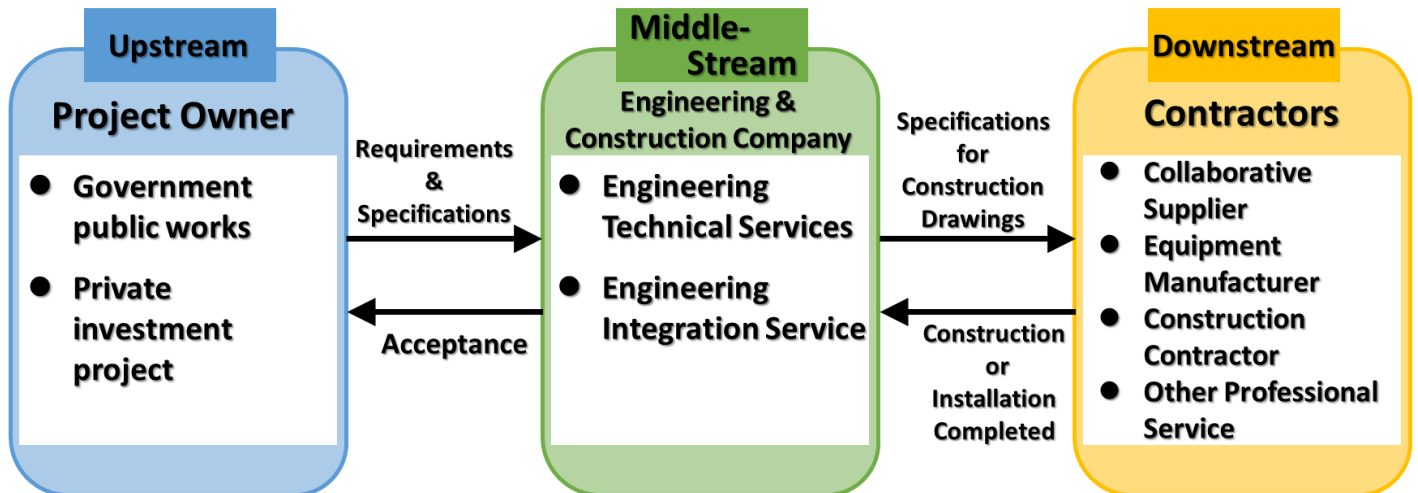

(4) Distribution channel

(5) New energy

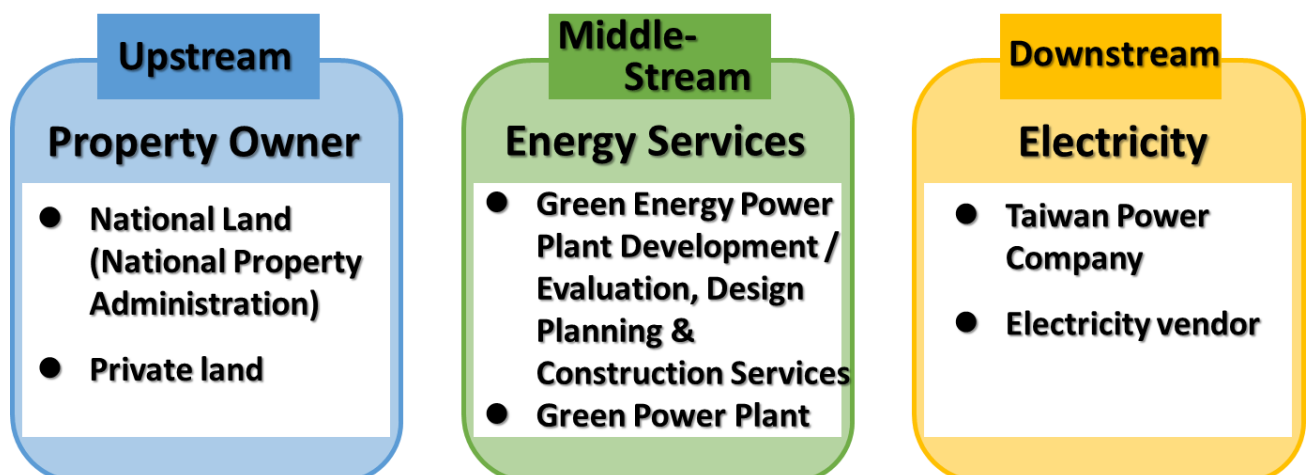

- **Engineering business**

Shinfox mainly provides services such as feasibility analysis, planning, design, procurement services, equipment supply, construction and commissioning of customers' projects, refer to as the midstream of the industry. The upstream industry refers to the owners with construction needs, and the turnkey companies are located in the middle reaches of the industry. The downstream industry refers to the third parties. The correlation between the upstream, midstream and downstream industries is as follows:

- **Solar energy and wind power plant investment and energy service industry**

Shinfox Energy has been entrusted by the Client to carry out feasibility study, survey, design, procurement, construction, and trial operation of energy projects. The general contracting enterprise is fully responsible for the quality, safety, construction duration, and cost of contracted projects. The property owner and the investor sell the electricity generated by renewable energy to Taiwan Power Company or the electricity retailer in accordance with the electricity sales contract. The up-stream, mid-stream and down-stream are as follows:

1.3 Product trends

As our company's various products are primarily used in mobile communications, consumer electronics, lithium battery packs, and peripheral industries, with the trend of electronic products moving towards portability and intelligence, it necessitates that products such as connectors, power management modules, smart pens, game controllers, and headphones, all adapt and undergo adjustments in line with the prevailing market product development trends.

A. Connectors

As electronic devices become lighter and thinner, connectors need to be more and more miniaturized and high-density in order to improve the integration and performance of the device. In addition, with the continuous improvement of data transmission speed and the popularization of multimedia applications, connectors need to support higher-speed data transmission and higher bandwidth requirements. Therefore, connector products will tend to support high-speed transmission standards such as USB 3.1, Thunderbolt, etc., to meet the needs of users for high-definition video, audio and data transmission.

B. Power management module

High efficiency and energy saving is an important trend in the development of power management module products. With the continuous advancement of the third generation semiconductor technology, the new generation of semiconductor components will have higher performance and lower power consumption, thereby further improving the power management module performance and efficiency. The application of these technologies will promote the power supply products to move towards a more efficient, intelligent and sustainable development direction.

C. The product development trends of smart pens, headsets and game controllers are as follows:

- Enhance interactivity: These products will increasingly focus on user interaction, and provide a richer and more intuitive user experience through smarter design and functions. For example, smart pens may have more sensing functions, earphones may support touch operation, and game controllers may adopt more accurate motion sensing technology.
- Enhancement of intelligent functions: Smart pens, earphones and game controllers will be smarter and equipped with more smart functions, such as voice assistant, smart noise reduction, smart gesture recognition, etc., to improve user experience and convenience.
- Compatibility improvement: These products will focus more on compatibility with different devices and platforms. For example, smart pens may support multiple operating systems, headsets may be compatible with multiple devices, and game controllers may support multiple gaming platforms.

D. 3C retail channels

- Integrity of Brand Product Line: As the development of 3C products becomes more and more mature and the technology advances with each passing day, it is necessary to develop more diversified product lines, and the completeness of the product can increase the customer's recognition of the brand.
- Social media management: In recent years, online marketing has played a very important role in the retail industry. The establishment of a brand community and the maintenance of positive interactions with fans are of great help to the management of the brand image.

E. New energy engineering business

Due to the increasingly complex engineering needs, the Company no longer participates in bidding in a single industry type of engineering contracting cases to reduce risks and increase contracting opportunities. In the future, the electromechanical industry market will use engineering consulting companies to provide all-round, comprehensive and professional engineering services in a turn-key manner, combining with relevant industries such as construction, civil engineering, and

machinery.

In addition, in recent years, the government has actively planned to expand the investment in comprehensive infrastructure. As a professional electromechanical turnkey engineering company, Shinfox has development niche and advantages for the government to expand the public construction and real system.

F. New energy power plant investment and energy service industry

In order to create a good living environment in Taiwan, the Ministry of Economic Affairs promotes green energy domestically, giving priority to renewable energy with mature technology and low power generation cost, and investing in relevant R&D for more forward-looking but not yet commercialized technologies, with rolling review. In terms of renewable energy promotion goals and its percentage, Taiwan currently focuses on wind power (including onshore and offshore wind power), solar photovoltaic, biomass power, and geothermal power.

1.4 Market competition

A. Connectors

The Company's connector products are mainly used in various mobile 3C products and automotive electronic products. There is a lot of competition in the connector market, including large multinational companies and regional small companies. Strive for market share by providing better quality products, more competitive prices and better services.

B. Power management module

The company's power management module products are mainly used in various mobile 3C products and network routers, power supplies and converters for TV set-top boxes. Product applications include mobile phones, e-books, digital cameras, routers and set-top boxes, and main competitors include Delta, Chicony, Phihong, Flextronics, Lite-On, and AcBel.

C. 3C peripheral accessories

The market for peripherals for 3C products is fiercely competitive. There are competitors for products ranging from entry-level to high-end. High-end products have more powerful performance and functions, as well as stylish appearance design and exquisite workmanship. The market for the Company's smart pen, game controller and headset products is mainly aimed at OEM orders from high-end brands. Through cooperation with high-end brands, the Company can promote exchanges of technology and innovation, which will help enhance the Company's research and development capabilities and product standards in order to meet the ever-changing market demand.

Under current conditions of rapid industrial integration, the development trend of "the big getting bigger" is quite clear. The low-cost advantages enjoyed by small and medium-sized enterprises have gradually been lost. In fact, if they fail to establish their own core values, they will be eliminated by the market in the future. Therefore, under the effect of market globalization, the Company will be guided by market leaders, approach international customers, and understand their needs. Further, we should gradually shift from the past OEM model to ODM or JDM, developing new products with customers and providing them with diversified products and technical services. Only in this way can the Company justify its existence and create new opportunities for long-term development.

D. 3C retail channels

The competition in the 3C retail market is fierce. It is necessary to strengthen the integrity of the brand product line, manage social media, build a brand community and maintain positive interaction with fans, and strengthen existing members. Brand-related activities help to increase member stickiness and keep paying attention to new product launch news.

E. New energy engineering business

Shinfox has adopted a stable strategy - customer-oriented, to provide more effective and more

satisfactory services to specific customers, while achieving low cost and differentiation, and maintaining the organization's return on investment. Shinfox's expertise and track record in the integration of related electrical and mechanical engineering systems and in energy technology engineering are superior to those of its peers in terms of expanding and obtaining case opportunities.

F. New energy power plant investment and energy service industry

Positioned as an expert in power integration, Shinfox has a proven track record in heavy-duty equipment, wind-power generator sets, and substations. Furthermore, Shinfox has integrated the competing and co-operative relationships between the upstream material and equipment manufacturers and downstream contractors to reduce the overall construction cost and obtain an advantage in the return on investment space.

The Company continues to develop and invest in large-scale solar photovoltaic and wind power plants, and plans to establish a SPV (Special Purpose Vehicle) project holding site to improve operation and capital efficiency, and plans to dispose of the SPV's equity, recover funds ahead of schedule and realize profits, and use the funds to expand solar power plants or develop other new businesses to achieve the goal of continuous growth.

1.5 Technology and R&D Overview

The company's invested research and development expenses and successfully developed technologies or products are as follows:

Unit: NTD Thousand

Differentiation	2023	2024 (through 2024.03.31)
Expenses	2,521,545	601,283
Successful Development New Products or New Technology	<ol style="list-style-type: none"> 1. USB-C connector laser spot welding and welding monitoring technology. 2. Connector terminal U-shaped cold forging technology. 3. Centrifugal plating technology for metal loose parts. 4. Completed the development of 240W high-current charging cable. 5. USB4 Gen3 Active Cable. 6. Development of integrated technology for the ECG sensor of electric bicycle and the three-power system. 7. The AI optical system for detecting the color of game joystick objects. 8. Development of smart taillights for two-wheeled vehicles. 9. Physical movement detection for remote fitness sessions. 10. ANC headset prototype & ANC tuning technology. 11. Cooperated with the digital innovation subsidy program developed by the Digital Industry Administration, and Foxwell Power will implement the Foxwell Cloud green power sharing cloud service. 	<ol style="list-style-type: none"> 1. Establishment and application of electroplating masking & plating technology. 2. Automated busbar technology. 3. AOI white light inspection technology. 4. Vehicle-mounted Ethernet wire harness products. 5. 280W ultra-high current charging cable. 6. High Power 460W PSU. 7. Physical movement detection for remote fitness sessions. 8. IP Cam with AI function. 9. In line with Taiwan's 2050 net zero transformation goal, develop inspection software to simplify inspection procedures, integrate public clouds and existing cloud platforms, and provide inspection services through the API framework and functional modules.

1.6 Long-term and short-term business development plans

In response to future industry development trends and the overall economic environment, the Company formulates long-term and short-term plans to map out its future business direction and from there enhance its competitiveness. A summary of the company's short-term and long-term plans is given as follows:

(1) Short-term business development plan

- A. Improve achievement rates, profitability, product differentiation, technical capabilities, product quality, and management capabilities.
- B. Reduce costs, expenses, product delivery, inventory, product development time, and so on.
- C. Take advantage of vertical integration to strengthen the integration of Group resources.
- D. A series of product extensions have been made for the top-selling products, such as new Bluetooth earphones, 3-in-1 wireless charging cradle, magnetic products, etc., all of which will bring revenue growth in 2023 and will continue their success in 2024 products, continue to launch related new products, and deepen our existing customers, and diversify our products to increase revenue growth per customer.
- E. In line with the government's promotion of renewable energy policies, we are continuously investing in the development and installation of clean energy sources such as solar, wind, geothermal, and hydropower. We are also consistently seeking excellent project sites, gradually accumulating engineering experience and achievements. We aim to establish or strengthen photovoltaic, wind, and hydropower teams with manufacturing and maintenance capabilities, transitioning from power generation to the liberalized electricity market. Through the sale of green energy and accompanying renewable energy certificates, we aim to increase the added value of renewable energy opportunities.

(2) Short-term business development plan

- A. Continue to promote with core products and capabilities in line with support of optics, increasing market size and creating benefits of high-value output.
- B. Expand market operations and develop diversified products and services.
- C. Get a feel for market trends and make good use of the Group's technical resources.
- D. Continuously cultivate and develop human talent.
- E. The 3C products in Taiwan are over-competitive and the market is saturated. We are targeting at the growing demand for small personal appliances. We are actively expanding new product lines, increasing sales of high value-added products, and stepping into the field of small home appliances based on individual needs. In addition, there is no delay in the development of overseas markets. In the early stage, under the agent model, we will actively promote the PQI brand at exhibitions in the future, and the early stage goal is to develop markets in Central and South America and Southeast Asia.
- F. In addition to the continuous investment in domestic renewable and clean energy development, active efforts have been made to integrate various renewable energy industry chains, spanning from development, construction, operation and maintenance to energy trading. On December 3, 2019, the company obtained a license to operate as an electricity retailer, enabling free trade of electricity. Furthermore, the company has entered the natural gas market and is currently the second company in Taiwan to obtain approval for natural gas importation, being the sole privately-owned natural gas importer in Taiwan. The company will continue its market development plan to replace heavy oil or coal with cleaner energy sources. To summarize, the operational strategy involves five main directions: "solar, wind, water, gas, and large platform," with a focus on cultivating expertise in various strategic areas. At the same time, it also participates in international bidding projects, evaluates the potential of overseas investment, and uses the experience of domestic power plants to deploy in Southeast Asia and lay the foundation for the Asian market. Continue to develop ESG industry business and create an ecological chain of resource circulation for the sustainable development of Taiwan.

2. Market and Production and Sales Overview

2.1 Market Analysis

2.1.1 Main product sales areas

Unit: NTD Thousand

Region	2023	
	Amount	Amount
Taiwan	22,357,958	24.69%
Mainland	22,445,300	24.79%
United States	27,771,270	30.67%
Hong Kong	2,285,456	2.52%
Korea	227,345	0.25%
Others	8,363,143	9.24%
Total	90,550,764	100.00%

Note: The above amounts constitute revenues from the consolidated financial statements

2.1.2 Market share and future market supply and demand status and growth of the market

(1) Market share

- The Company sells a wide range of 3C components and peripheral products, including connectors and cables, power management modules, smart pens, game controllers, and earphones etc.

According to the statistics of Bishop & Associates, the global connector product output value will reach US\$96 billion in 2023, and it is expected to reach US\$105 billion in 2024, with a growth of 9.4%. Our company's connector products include cable connectors and communication connectors. In the global connector industry, connector products have a wide range of applications. In 2023, the total global connector industry value reached \$96 billion. The sales revenue of our company's connectors and connecting wires is approximately NT\$xxx billion, resulting in our company holding a market share of only about xxx1.2% in the global connector market. For other products, there is no complete and objective market share data, so they are not listed.

- The sales of 3C peripherals include physical distribution channels and trading services, and it is not easy to estimate an accurate market share. In addition, other products are diversified, so it is difficult to accurately estimate the market share.
- Currently, Shinfox's engineering business is entirely focused on domestic sales. Due to the diverse nature of system engineering services covering various fields, and the substantial differences in the specialized engineering areas of domestic mechanical and electrical engineering companies engaged in engineering services, it is not feasible to calculate market share based on revenue on the same basis.

(2) Future market supply and demand and growth

- At present, the Company's main products are 3C product parts and components and peripheral accessories, which are highly related to the prosperity of the electronic product market. In 2023, the global economy will be affected by factors such as inflation and high interest rates, resulting in weak terminal demand. Inflation will reduce the purchasing power of consumers. High interest rates will increase the borrowing cost of companies and individuals, resulting in a decrease in investment and consumption activities. Indirect impact on the Company's product shipments slowdown.

- In the future, with the promotion and upgrading of new technologies in electronic products, the demand for intelligent, high-performance and multi-functional products will increase, and the demand for related components and accessories will also increase accordingly. By continuously improving product technology and performance and adopting automated production methods, the Company meets the needs of the market and customers, and expands its market share to achieve the goal of continuous growth.
- 3C peripheral products are a product category with a rapid product life cycle, and they are also accessories for electronic products. The company's products are all available for shelf sales in mainstream sales channels, allowing users of electronic products at all levels to find the products they need in appropriate channels.
- The primary sources for solar market development are rooftop solar photovoltaic system installations on rooftops of factories (enterprises) in various industrial zones nationwide and government public tender projects. By the end of 2023, installations totaling 12,417.685 megawatts had been completed. and gradually promote the large-scale development of above-ground land including salt production.
- Shinfox will continue to develop onshore wind power plants and actively participate in the development of the third stage of offshore wind power blocks, which is expected to bring income from the construction of offshore wind power projects and long-term maintenance and operation income.
- Hydropower generation is a clean, self-produced energy source. In line with government policies and the conclusions of the National Energy Conference, promoting small-scale hydropower projects that efficiently utilize water resources and are environmentally friendly is worth actively developing and supporting.
According to the 2008 Taiwan Small Hydraulic Power Assessment Report by the Water Resources Administration, a total of 79 sites with small hydraulic potential were assessed, of which 47 were river sites and 32 irrigation channels. The Farmland Irrigation Association has also conducted a preliminary survey on 27 sites with the potential of micro hydro power generation.
- By the end of 2023, two companies have completed the construction of natural gas stations and have begun supplying gas officially. They will continue with market development plans to seize the "clean energy" opportunities by replacing heavy oil or coal as fuel sources.

2.1.3 Advantages and disadvantages of our competitive niche, development prospects, and countermeasures

(1) Competitive Niche

- Close cooperation with international manufacturers
The Company has been deeply involved in the field of 3C product components for many years and has rich experience in production and manufacturing. Because the product quality and technology are deeply trusted by customers, coupled with a sound financial structure, our sales targets are mostly internationally renowned first-line manufacturers. Moreover, we have been with each other for many years and we have a good understanding of cooperation and a high degree of trust. The Company thus enjoys a good reputation in the industry, and it is also an important supplier of 3C components that is indispensable for major international manufacturers. The Company has accumulated very significant product design capabilities based on its close cooperative relationship with major international manufacturers, and our new product development can quickly gain recognition from existing customers. In addition, as we have won the trust and recognition of international customers, we have thus laid out a niche for the Company's future business expansion and this is also conducive to striving to gain the

business of potential new customers.

- Joint research and development

In order to meet the needs of all customers, the company's OEM/ODM team uses professional R&D and manufacturing services, from components to complex assembly integration, to carry out projects, propose application solutions, or offer technical support. By using 24-hour R&D and manufacturing services to jointly develop new products with customers, and by providing customers with creativity and service support, this ensures that the product can be accurately completed in the shortest time from samples to formal production.

- Quality advantages

In the spirit of excellence, the company is committed to pursuing the highest internationally recognized benchmarks for quality. Through an excellent quality management system, every work item is subject to strict control, evaluation, and analysis as we undertake continuous improvement to improve operational efficiency. Furthermore, we have implemented the ISO/TS 16949 quality management system to build a more complete customer oriented process as we strive to reach the ultimate goal of customer satisfaction.

- Diversified products, high added value

The Company's product structure includes related components for information, communications, and portable electronic products. In response to the needs of the market, the Company continues to develop towards high-end, high value-added products, as a complete product portfolio will benefit the flexibility of the company's operations and increase the ability to respond to rapid product changes.

- Possessing vertically integrated manufacturing capabilities, providing customers with diversified services

The Company has deep vertical integration capabilities in the production of 3C product components ranging from cable, product design, mold development, stamping, electroplating and molding to processing and assembly and so on. As these can be manufactured in our Company's factories, we therefore have the advantages of cost and quality. In addition, the company's product structure covers related components of communications, information, and portable electronic products. The products are diversified, which can meet the customers' demand for one-time purchases.

- Actively investing in the development of new products and technologies

Due to ongoing changes in technology, consumer preferences, and market trends, it is essential to rapidly introduce updated and improved products. In order to align with this trend, our company initially started with the production of connectors and cable products and has since expanded to include power management modules. Looking ahead, our research and development center will focus primarily on the development of wireless communication, high-speed transmission, as well as optical, acoustic, and high-current products. Therefore, in the future the Company will take the integration of optoelectronics as its development goal as it cooperates with the development and expansion of the wireless transmission field, making full use of the advantages of the Group and establishing a diversified product portfolio.

- Shinfox New energy

A. With a wide range of engineering services and excellent engineering performance, it is one of the few engineering service companies in Taiwan that can span into different industrial fields at the same time.

B. The operational team responsible for energy service management has rich experience in the construction and operation of power plants. In addition to focusing on the investment, development, and operation of renewable energy power plants,

they are responsible for the overall package of power plant engineering and maintenance. This includes everything from site assessment, planning and design, document submission, installation, technician certification, project management, grid connection, to post-completion warranty, maintenance, and comprehensive management services. 【One-stop integrated service】.

(2) Favorable factors for development prospects

- Product application areas such as mobile phones, game consoles and electric vehicle products are booming, driving the continuous growth of peripheral industries.
- With our product design capabilities, we can quickly develop new products to meet customer needs.
- Having won the trust and recognition of international customers, this is conducive to future business expansion and offers endless growth potential.
- Deep vertical integration extends from mold development to stamping, electroplating, forming and assembly; all these can be produced on their own with cost and quality advantages.
- Active expansion of product application areas ensures sources of growth momentum.
- Early development of process technology and material applications that meet future environmental regulations will improve competitive advantages and added value.
- Joint development of new products with major international manufacturers and accumulation of considerable technical and product design capabilities.
- The Jingshi subsidiary's Apple product channel in Hong Kong has a certain scale, which is attractive to accessories suppliers. It can accelerate the introduction of peripheral accessories, enrich the types of accessories, and form a virtuous circle of business growth in this part.
- The government promotes a "nuclear-free home" and the green energy policy will continue to expand the renewable energy target, which is helpful for the development of the subsidiary's renewable energy business. As of 2023, the estimated benefits of the energy power plant (including power generation and construction) are as follows: green energy power generation: 40,000 MWh, carbon emission reduction: 198,000 metric tons.

(3) Unfavorable factors for development prospects

- It is not easy to train and develop human resources in R&D.
- Prices of upstream materials have risen, reducing product profitability.
- Primary competitors are world-class manufacturers and competitive pressure is high.
- 3C retail channels
 - A. Large fluctuations in exchange rates: The international exchange rates fluctuate greatly, which affects cost control.
 - B. The entry threshold for 3C brands is too low.
- Shinfox New energy
 - A. The market competition is fierce and there is pressure to reduce prices.
 - B. Higher engineering, production, and manufacturing costs.
 - C. It is not easy to obtain the site of a solar power plant.
 - D. Huge capital expenditure.

(4) Countermeasures

- We cooperate with various universities and colleges for industry-university cooperation to cultivate and train talent in various disciplines over the long term. At the same time, we are improving employee welfare measures and strengthening professional training in order to improve manpower quality and reduce the turnover rate of personnel.
- We are taking advantage of the Group's bulk purchase capabilities to reduce the cost of input materials and maintain product profitability.

- We are introducing new automated production equipment and testing equipment and are committed to the improvement of production technology and process quality, to improve production efficiency and quality stability and thus become more competitive than our peers.
- We are enhancing our vertically integrated manufacturing capabilities and cooperating with precision mold development and automated processing testing technology to reduce costs and enhance our competitive advantages.
- We continue to develop new products and new technologies to reduce the impact of rising material prices, enhancing product profitability.
- We are enhancing our vertically integrated manufacturing capabilities and cooperating with precision mold development and automated processing testing technology to reduce costs and enhance our competitive advantages.
- We continue to promote process and production management improvement plans, introducing advanced production management technology to reduce production costs and enhance competitiveness.
- 3C retail channels
 - A. Closely observe the price fluctuations in the foreign exchange market and use various hedging methods to minimize potential risks.
 - B. Considering that there are many brands in the market, the prices are uneven, and consumers are more selective. Jing-shi continues to develop new products and control costs and prices to become more competitive in the market and improve the overall product profitability.
- Shinfox New energy
 - A. With years of accumulated engineering practices and experience, we have better control and bargaining power over equipment and material suppliers, and provide owners with suggestions on alternative construction methods. Through value engineering, we can effectively reduce customer costs and improve construction management capabilities and engineering service quality.
 - B. The Company has the advantage in the integration of upstream, midstream and downstream. Through outsourcing to experienced manufacturers, the supply channels of raw materials are expanded and the database of raw material procurement is established.
 - C. Shinfox is also one of the acquisition targets of forestry in many areas of Taiwan unfavorable for cultivation, salt flats, state-owned lands, lands yet to be released by Taiwan Sugar, and orphaned power plants abandoned by system providers that have withdrawn from the market. In addition, the Company has evaluated the bidding for the development of the third stage of offshore wind power sites.
 - D. The solar farm is held by a Special Purpose Vehicle (SPV), and the plan is to sell the SPV shares after completion to recoup funds and realize profits in advance. The funds obtained will then be used to expand solar power plants or develop other new businesses, thus achieving the goal of continuous growth through a rolling investment strategy.

2.2 Important uses and production processes of main products

2.2.1 Important applications of major products

- (1) The Company's main products are divided into cable connectors, board connectors, power management modules, and accessories for 3C products such as smart pens, earphones, and game controllers.

USB Type-C connectors for cable connections are primarily used in transmission cables for various consumer electronics products, including smartphones and other consumer

electronic devices. Board-to-board connectors mainly include products such as lightning connectors, USB Type-C connectors, audio jack connectors, and memory card connectors. Network connectors are used to connect network peripheral devices, while game console connectors are used on the main console and controller ends to connect to other peripherals. The main purpose of the power management module is to enable the electronic equipment to obtain a stable, safe and effective power supply, and to provide various protection functions to ensure the normal operation of the electronic equipment.

The accessories of 3C products are mainly the medium between the user and the host for inputting instructions, operating and realizing interaction. These accessories include smart pens, headphones, game controllers, etc. They are usually connected to the host of electronic devices (e.g., smart phones, tablets, game consoles, etc.), through which users can perform various operations and interactions, thus realizing a richer user experience.

(2) 3C retail channels

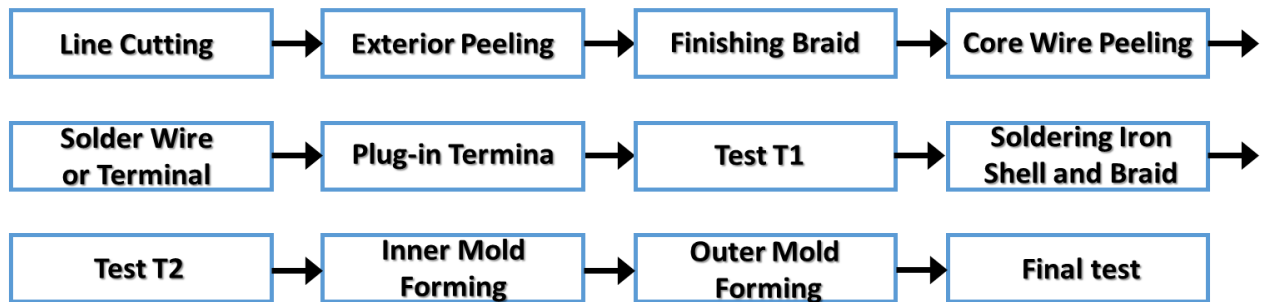

- Mobile peripherals:
Consumer communication products and entertainment or data processing equipment used by individuals or businesses. Support the use of various consumer entertainment products, communication products, data processing equipment, and outdoor/outdoor products.
- Memory products:
Used in personal computers, printers and other information products and as data access or transmission equipment

(3) Shinfox New energy

Major Products	Purpose
Construction revenue	We provide comprehensive engineering contracting services, including various professional technical services such as feasibility studies and planning, engineering design, equipment supply, equipment manufacturing, engineering construction, construction supervision, and testing.
Technical service revenue	We evaluate and plan the utilization of energy-efficient lighting, variable frequency technology, network monitoring, contract electricity, etc., to provide energy-saving and emission reduction technical services for large shopping malls and department stores. We offer maintenance and upkeep services for various electrical substations, transformer stations, and telecommunications equipment rooms.
Electricity sales revenue	The generated electrical energy is supplied to various electricity demands through the Taiwan Power Company (Taipower) grid, including industrial and residential electricity needs.

2.2.2 Production procedures of major products

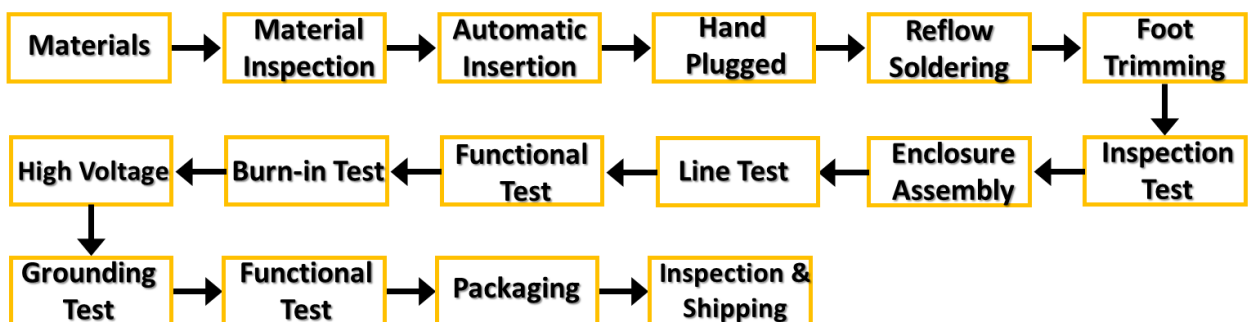

A. Cable Products

B. Connectors

C. Power Management Module

D. Peripheral Accessories

E. Shinfox Construction Business

2.3 Supply status of main raw materials

The Company's main raw materials include copper materials, plastic materials, cables, batteries, capacitors, ICs, and PCBs. The Company has established a stable supply cooperative relationship with various suppliers. For purchases of major components, purchasing sources are dispersed as much as possible to ensure smooth purchasing.

2.4 Names of customers who accounted for more than 10% of total purchases (sales) in any of the most recent two years and their purchase (sales) amounts and proportions, and reasons for increase or decrease

2.4.1 Information on major suppliers in the last two years:

Unit: NTD Thousand

Year	2022				2023			
Item	Designation	Amount	Percentage Of Total Annual Net Purchases (%)	Relationship With Issuer	Designation	Amount	Percentage Of Total Annual Net Purchases (%)	Relationship With Issuer
1	Company A	16,749,214	26%	None	Company A	11,529,782	18%	None
2	Company C	2,392,598	4%	None	Company D	4,188,958	7%	None
	Others	44,847,952	70%	-	Others	47,824,621	75%	-
	Purchase of goods Net amount	63,989,764	100%	-	Purchase of goods' net amount	63,543,361	100%	-

Reasons for increase or decrease: In the 2023 fiscal year, A company's procurement amount decreased by 12% compared to the 2022 fiscal year, mainly due to the completion of the flat panel project, resulting in a decrease in purchases from A company. On the other hand, D company's procurement amount increased by 5% in the 2023 fiscal year compared to the 2022 fiscal year, primarily due to increased revenue from new energy, leading to an increase in purchases from suppliers.

2.4.2 Information on major sales customers in the last two years

Unit: NTD Thousand

Year	2022				2023			
Item	Designation	Amount	Percentage Of Total Annual Net Purchases (%)	Relationship With Issuer	Designation	Amount	Percentage Of Total Annual Net Purchases (%)	Relationship With Issuer
1	Company "One"	14,422,164	15%	None	Company "Four"	18,911,892	21%	None
2	Company "Four"	12,968,277	14%	None	Company "Five"	9,908,573	11%	None
	Others	66,712,153	71%	-	Others	40,257,640	68%	-
	Sales Net amount	94,102,594	100%	-	Sales net amount	90,550,764	100%	-

Reasons for increase or decrease: Customer D's sales amount in the 2023 fiscal year increased by 7% compared to the 2022 fiscal year, mainly due to adjustments in the customer's product line, resulting in increased shipments of some products. Customer E, on the other hand, saw a 9% increase in sales amount in the 2023 fiscal year compared to the 2022 fiscal year due to revenue recognition starting.

2.5 Production value in the last two years

Unit: Thousand items, NTD Thousand

Major Products \ Year	2022			2023		
	Production Capacity	Production Volume	Production Value	Capacity	Production Volume	Production Value
3C Electronic Products	1,546,707	1,438,438	103,121,599	1,544,130	1,250,745	87,552,150

2.6 Sales volume in the last two years

Sales volume units: Thousand items, NTD Thousand

Major Products \ Year	2022				2023			
	Domestic sales		Exports		Domestic sales		Exports	
	Volume	Value	Volume	Value	Volume	Value	Volume	Value
3C electronic products	72,532	14,689,833	1,234,459	79,412,761	52,883	10,576,680	1,230,371	79,974,084

3. In the last two years and as of the printing date of the annual report, numbers of employees in terms of average length of service, average age, and distribution ratio of academic qualifications

March 31, 2024

Year		2022	2023	2024 through March 31
Number of Employees Number of Individuals	Staff	8,674	8,597	8,269
	Operational Staff	19,284	18,502	15,542
	Total	27,958	27,099	23,811
Average Age		34.65	38.53	31.86
Average Years Of Service		6.19	6.16	4.40
Education Distribution Ratio	Ph.D.	0.06%	0.05%	0.06%
	Master's Degree	1.59%	1.99%	1.99%
	College And University	17.85%	18.18%	20.06%
	High School	11.15%	11.64%	12.89%
	Below High School	69.35%	68.13%	65.00%

4. Environmental protection expenditure information

- 4.1 The total amount of losses and penalties due to environmental pollution in the most recent year and up to the date of the annual report, and disclose the estimated amount that may be incurred currently and in the future and corresponding measures: The Company did not and being punished.
- 4.2 Explanation of pollution prevention measures: Our company primarily produces electronic components such as connectors and battery modules. Our production processes do not generate significant pollution or hazardous substances into the environment. Any business waste generated during our processes is handled by qualified waste disposal companies, and we ensure compliance with regulations by completing online declarations as required by law. In terms of wastewater discharge, we have obtained an industrial park integration certificate, and our wastewater is treated collectively by the industrial park's wastewater treatment system. Therefore, our business operations do not generate any pollution issues within our scope.

5. Labor Relations

The Company has an Employee Welfare Committee to facilitate the promotion of various welfare measures. The company has always treated employees with integrity, establishing a good relationship of mutual trust and mutual dependence with employees through a welfare system that enriches and stabilizes their lives and providing a good education and training system. Although there is no industrial union organization, over the years, the employees of the company have nonetheless also been able to demonstrate team spirit, cooperate with Company decisions, cooperate seamlessly with one another, and create an atmosphere of harmony between labor and management. Following are specific measures taken by the Company to work towards harmonious labor-management relations:

5.1 Labor Retirement Reserve Supervision Committee

The Labor Retirement Reserve Supervision Committee was established in December 1989 in order to check the amount of labor retirement reserves, deposits and expenditures, payment and other matters, ensuring labor rights and interests.

5.2 Benefits provided by the Company

- (1) Year-end commendation meeting to commend outstanding units and individuals.
- (2) Congratulations and condolences are given out by the Company when the employee experiences marriage, childbirth, hospitalization, or a death (including the employee's immediate family members).
- (3) All employees participate in labor insurance, group insurance, and so on.
- (4) There is a staff canteen providing staff lunches and evening buffets.
- (5) Staff uniforms are provided.
- (6) Health diagnosis subsidies are provided as well as medical consultations.
- (7) Awards and scholarships are provided to employees and their children every semester.
- (8) Colorful social gatherings are held.
- (9) Employee birthday bonuses are given out every month.
- (10) Various societies have been established, and subsidies provided for their activities.

5.3 Continuing education and training

The Company attaches great importance to the professional skills training and personal development of employees, and provides a comprehensive training system. Through the annual survey and questionnaire feedback on different training types, the Company takes into account the training needs of each department and meets the development of employees' diversified abilities. From the foundational training on the group's corporate mission and business policies during onboarding to the abundant general resources available after joining, employees can not only absorb essential group knowledge but also tailor their learning to diverse job skills and performance

enhancement courses based on their work needs and preferences.

In addition, it also integrates the development strategies of business units and provides professional skills training according to the needs of the units, so as to strengthen the professional capabilities of the Group and also make up for the skills gap in organizational development. In addition, the Company has set up a wealth of management courses for management employees, and promoted an exclusive learning system to continuously optimize the management leadership and knowledge of industry trends required by management employees.

We hope to improve the overall employee job satisfaction, help employees develop their potentials, improve themselves, and continue to grow the Company's overall capabilities. In 2023, the Group's employee education and training hours totaled 217,039 hours, with a total of 108,520 trainees and a total training expense of NTD 4.2 million.

The training activities are carried out in accordance with the annual education and training plan, and are divided into the following categories according to the level and nature of the position:

(1) Training for new recruits

Gather relevant functional units to construct a complete training content for new recruits, including the Group's business purposes and policies, organizational rules and regulations, ethical standards, occupational safety and health, quality policy, RBA code of conduct, information security and other courses to help new recruits quickly understand and integrate them into the work team as soon as possible.

(2) Management competency training

According to the annual management development needs of supervisors at all levels, combined with the exclusive learning system, the abundant management course resources are used to meet the needs of supervisors to develop the management skills and refine their management capabilities. Senior managers hold seminars on a regular basis to share internal experience, project knowledge, and industry trend analysis to enhance their leadership skills.

(3) Profession competency training

Professional development courses are organized based on the annual development needs of each function and the Company's operating strategies and goals. The course categories are extensive and include industrial safety, quality management, production management, legal compliance, technical research and development, among others. The target audience is not limited to internal business units but extends to open online learning throughout the entire group according to the nature of the course. Additionally, instructors are not limited to internal senior professional staff and managers; external expert instructors are also hired based on the requirements of the course content.

(4) Self-development training

Based on the annual employee learning orientation survey results, various job skills and knowledge enhancement courses are offered within our internal Learning Management System at the company. These courses cover a wide range of topics including health and stress management, goal setting and execution, communication, sustainability issues, digital development, and more. Employees have the flexibility to utilize online learning in their own time, enabling them to develop diverse skills, optimize work processes, and ultimately enhance overall operational efficiency.

(5) External training

The Company supports employees' on-the-job training and makes good use of external professional training institutions and resources to strengthen their professional skills, develop new skills, and improve overall business development.

5.4 Protective measures for working environment and employees' personal safety

- (1) The Group follows the ISO45001 Occupational Health and Safety Management System and local regulations to formulate occupational health and safety policies and establish a management system that is applicable to all employees and contractors. The occupational health and safety

system is closely integrated with the Company's production and manufacturing operations, and has passed It is implemented through the process of planning, training, prevention, control, performance evaluation and continuous improvement. At the same time, The group company is committed to pursuing the goal of zero harm, zero occupational diseases, and zero accidents, aiming to create the best working environment for all employees. The company upholds the occupational health and safety policy, implements relevant occupational health and safety laws and regulations to better protect the health, safety, and property rights of employees. Moreover, the company actively conducts inspections and remediation of safety hazards, maintains open channels for safety improvement proposals, encourages the participation of all employees, and proactively addresses and accepts oversight and audits from government agencies, clients, and other relevant parties.

(2) Emergency Response and Disaster Prevention

The establishment of the safety and disaster prevention center at the headquarters in Tucheng integrates real-time safety information from various factory locations to provide immediate safety and disaster prevention information. The company conducts regular industrial safety seminars and drills each year, provides training for response personnel, strengthens the group's safety and disaster prevention management system, and works to prevent operational disruptions caused by various risks.

(3) Occupational health:

The Company's Industrial Safety Department is responsible for checking the physical and chemical hazards of each unit in accordance with the annual safety and health management plan. It completes the operating environment monitoring plan with a sampling strategy, and the monitoring results are in compliance with legal standards.

(4) Education training:

In accordance with the annual education and training plan, the total number of occupational safety and health training hours in 2023 was 39,599 hours, with a total of 29,867 trainees.

5.5 Retirement system:

The Company's retirement system is implemented in accordance with Taiwan's Labor Standards Act and the Labor Pension Regulations, including:

(1) Seniority under the Labor Standards Act (old system): defined benefit pension system

A. Employee retirement application:

Employees must self-retire under conditions of "having worked for more than 15 years and reached the age of 55," "having worked for more than 25 years," or "having worked for more than 10 years and have reached the age of 60."

B. Employee pension payment:

The average salary of one month when the approved employee retires is used as the calculation standard for the employee pension base. Calculation of the standard of payment is based on the employee's working experience, with two units granted for every one year of work through the first fifteen years, and one unit for one year of work for every year thereafter for a maximum of 45 units. For years of seniority less than half a year, they will be counted as one year; for years of seniority of over half a year, they will be counted as one year. However, according to Article 54 of the Labor Standards Act, employees who qualify for mandatory retirement due to the performance of their duties are subject to a 20% increase in their retirement pension according to the aforementioned regulations.

C. Supervision of employee pensions:

The Labor Retirement Reserve Supervision Committee was established in accordance with the law in December 1989 and the Committee is re-elected every four years; it reviews matters such as the amount of labor retirement reserves, deposits and expenditures, and payments to ensure labor rights and interests.

(2) Seniority under the Labor Pension Act (old system): defined contribution pension system

- A. The Company allocates 6% to retirement pensions on a monthly basis: In accordance with the Scale Tables of Monthly Deposit for Labor Pension issued by the Bureau of Labor Insurance, appropriating 6% of an employee's wages to the employee's personal pension account every month.
- B. Voluntary contribution to an employee's personal pension: Employees may also voluntarily contribute up to 6% of their monthly wages according to their own preferences.

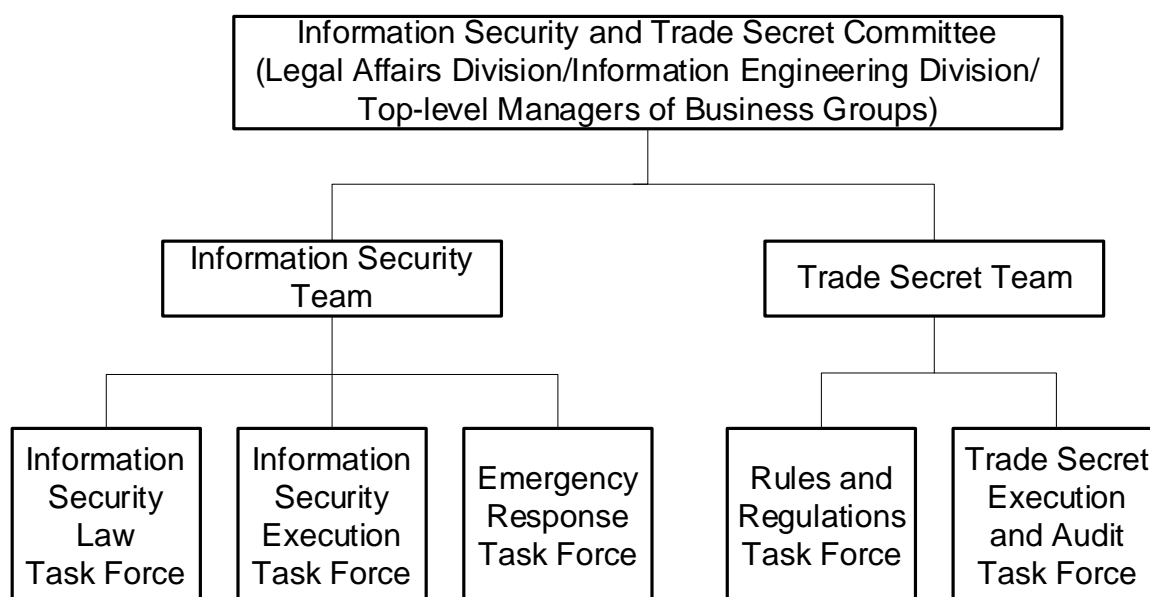

5.6 Whether there are any labor agreements or labor disputes suffered losses in the most recent year and up to the date of publication of the annual report:

The company's most recent year and as of the publication date of the annual report, there were no major labor disputes or labor disputes.

6. Information and Communication Security Management

6.1 Specify the information security risk management framework, the information and communication security policy, the specific management plan, and the resources invested in the information security management.

(1) Information security management organizational structure

(2) Information and communication security policy,

The information and communication security policy formulated by the Company is to maintain the integrity, availability, and confidentiality of information that belongs to the companies under the group, actively avoid damage caused by human beings or natural and other external forces, and reduce the impact on the Company's operations and the losses to the Company. We enhance various information security measures and patch vulnerabilities in information facilities through regular internal information security audits, to maintain the normal operation of information systems. We also hold internal information security meetings to strengthen information security emergency response capabilities and reinforce and adjust annual information security management targets.

(3) Information and communication security management measures

Clients' requirements for information security and information security management are critical issues about which the Group has long been concerned. We implement sensitive and confidential data leakage prevention management measures launched by the Information Security and Trade Secret Review Committee to protect clients' privacy and protect sensitive and confidential data. This is our basic commitment to our clients and is also the main reason that many clients are willing to continue to establish partnerships with Cheng Uei.

We are committed to taking anti-virus, anti-leakage, and anti-hacking information management measures during the handling of all clients' sensitive and confidential data. The summary is as follows:

A. Anti-virus measures:

Install anti-virus software on clients' computer. Raise employees' awareness of information and share information security news with them to enhance their awareness of information security. Implement information security management measures in alignment with clients' requirements for the production environment, to ensure the security of the information system in the production environment.

B. Anti-hacking measures

Carry out vulnerability scanning and patching regularly for the Company's information operating systems to ensure that there will not be any vulnerability in the systems as a loophole for hackers to intrude.

Establish terminal computer system access control, verify that terminal equipment can securely access the Company's network resources, and reduce information security management risks through information security system management.

C. Data leakage prevention measures:

Adopt a data loss prevention (DLP) solution to sensitive and confidential data to ensure that correct sensitive and confidential data is accessed and stored by the correct person at the correct time in the correct place.

Audit and control the incoming and outgoing emails to and from the group to ensure that clients' sensitive and confidential data will not be leaked.

(4) Specific action plans, resources invested, and the information security organization's performance

A. The Company's specific action plans in the past include

- The DLP solution adopted since 2021
- Internal sensitive and confidential data review and protection measures meeting
- Continuous execution of email system security audits and reviews
- Regular information system vulnerability scanning and patching
- Completion of the annual security review of clients' data

B. Resources invested and the information security organization's performance:

The information security organization has been responsible for reviewing and implementing Cheng Uei's information security policy. We inspect and review information security every month for the information security items required by clients. We strengthen the management and control of sensitive and confidential data and review it before transmitting it to clients. We satisfy clients' requirements for information security under a security control mechanism and thus obtain clients' recognition. In the future, Cheng Uei will not only pay attention to the security of the operation technical environment but also adopt relevant control mechanisms for the terminal equipment in the office environment, ensuring information security for employees at work. We inform employees of the information security news in the industry through announcement, to help increase their awareness of information security in the work environment. This is a major achievement of the information security organization since it began operating. Its achievements include the following:

- Strengthened the management and control of engineering drawing files in 2021.
- Conducted vulnerability scanning and patching for critical information systems.
- Install terminal computer access information security software to implement identity and network resource access management, and strengthen network security. The goal is to ensure that only authorized and compliant device users can access the Internet, and to improve the security incident management and response mechanism.
- Established an email pre-audit system to prevent leakage of sensitive and confidential data.

6.2 Please specify the losses and potential impacts caused by material information security incidents and countermeasures in the last year and up to the publication date of the annual report. If it cannot be reasonably estimated, the fact that it cannot be reasonably estimated shall be specified: None.

7. Important contracts:

Contract nature	Contractual parties	Contract start and end date	Main content	Restrictive covenants
OEM contract	Company AA	January 13, 2011 - until termination	OEM production	1. Confidentiality clause 2. Intellectual property rights guarantee clause
OEM contract	Company AB	July 3, 2011 - until termination	OEM production	1. Confidentiality clause 2. Intellectual property rights guarantee clause
OEM contract	Company AC	July 1, 2010 - until termination	OEM production	1. Confidentiality clause 2. Intellectual property rights guarantee clause
OEM contract	Company AD	March 11, 2022 onwards	OEM production	OEM production of the Company
OEM contract	Company AE	November 01, 2022 onwards	OEM production	OEM production of the Company
License agreement	HDMI Association	September 12, 2004 - until termination	Technology or software license	1. Confidentiality clause 2. Intellectual property rights guarantee clause
License agreement	USB Association	May 3, 2013 - until termination	Trademark, technology, software licensing	1. Confidentiality clause 2. Intellectual property rights guarantee clause
License agreement	Company AG	May 4, 2010 - until termination	CDMA Modem Cards and Subscriber Unit technology	1. Confidentiality clause 2. Intellectual property rights guarantee clause
Construction contract	JIANXING VIETNAM CONSTRUCTION DEVELOPMENT COMPANY LIMITED	2023/12/28	Vietnam plant construction contract	
Lease contracts	Company AF	2021/01/31~2031/01/30	Leasing of plant	None
Credit contract	Industrial and Commercial Bank of China	2020/03/01~2024/12/31	The loan amount was NTD 2.8 billion.	None
Credit contract	Bank SinoPac	2022/09/30~2025/09/30	The credit amount was NTD 2.95 billion.	1. The current ratio shall be maintained at more than 100% (inclusive). 2. The debt ratio shall be maintained below 200%.

Contract nature	Contractual parties	Contract start and end date	Main content	Restrictive covenants
				3. The interest coverage ratio should be maintained at 4 times or more. 4. Tangible net worth should be maintained at more than NTD 15 billion.
Credit contract	Taipei Fubon Bank	2023/06/05~2025/05/31	Credit amount of NTD 1.8 billion	
Credit contract	Mega International Commercial Bank	2023/08/01~2024/07/31	Credit amount of NTD 1.5 billion	
Credit contract	KGI Bank	2023/10/18~2025/10/17	Credit amount of NTD 1 billion	
Sales contract	Company CA	November 20, 2019 Automatic renewal for a period of one year	Sales contract	The Company shall bear responsibility for confidentiality
Sales contract	Company IA	January 1, 2024 ~ December 31, 2033	Electricity sales contract	The Company shall bear responsibility for confidentiality
Sales contract	Company BH	January 13, 2014 onwards	Sales contract	The Company shall bear responsibility for confidentiality
Sales contract	Company IC	March 8, 2023 ~ March 7, 2031	Liquefied natural gas sales contracts	The Company shall bear responsibility for confidentiality
Development contract	Company BC	November 22, 2010 onwards	Development contract	The Company shall bear responsibility for confidentiality of technical information
Development contract	Company BF	May 18, 2017 onwards	Development contract	The Company shall bear responsibility for confidentiality of technical information
Development contract	Jiuwei Power	From June 14, 2022 to contract	Commissioned development contract	Confidentiality clause, breach clause
Purchase contract	Company IL	From December 29, 2021 to expiration of the warranty period	Offshore wind turbine equipment procurement	Non-transferability, Confidentiality clause, breach clause
Purchase contract	Company IG	2023/08/11~2025/10/31	Power generation equipment procurement	None
License agreement	Company BA	2023/02/06~2024/03/31	License agreement	1. Confidentiality clause 2. Intellectual property rights guarantee clause
License agreement	Company BE	March 15, 2019 onwards	License agreement	1. Confidentiality clause 2. Intellectual property right guarantee clause
Service contract	Company IH	2020/08/19~2025/12/31	Engineering technical	Non-transferability, Confidentiality clause,

Contract nature	Contractual parties	Contract start and end date	Main content	Restrictive covenants
			consulting service	breach clause
Investment contract	Company ZA	September 29, 2023 onwards	Power plant investment	None
Investment contract	Company ZB	October 13, 2023 ~ December 15, 2023	Investment contract	None
OEM contract	Company BA	October 13, 2023 ~ November 30, 2024	OEM production	OEM production of the Company
OEM contract	Company BB	Termination by written notice from the other party on December 10, 2013	OEM production	OEM production of the Company
OEM contract	Company BC	November 01, 2013 onwards	OEM production	OEM production of the Company
OEM contract	Company BD	January 20, 2017 onwards	OEM production	OEM production of the Company
Construction Contracting & Procurement	Company IJ	From June 3, 2021 to the expiration of the warranty period	Engineering and equipment procurement of the second phase of the offshore wind-power generation project	Non-transferability, Confidentiality clause, breach clause
Construction contracting	Taiwan Power Company	June 15, 2020 ~ December 31, 2030	Offshore Wind Power Phase 2	Non-transferability, Confidentiality clause, breach clause
Construction contracting	Singwei Power Co., Ltd.	From December 17, 2020 to expiration of warranty period	Turnkey project of solar photovoltaic power generation system	Non-transferability, Confidentiality clause, breach clause
Construction contracting	Company IK	From December 30, 2020 to expiration of warranty period	Installation project of solar photovoltaic power generation system	Non-transferability, Confidentiality clause, breach clause
Construction contracting	Company IM	From August 18, 2021 to expiration of warranty period	Offshore Wind Power Phase 2 project contract	Non-transferability, Confidentiality clause, breach clause
Construction contracting	Shinfox Far East Company Pte Ltd.	January 13, 2023 onwards	Construction contracting	None
Construction contracting	Company IF	2023/03/15~2025/03/01	Offshore wind power engineering contract	None
Construction contracting	Changpin Wind Power	March 23, 2023 onwards	Wind turbine and booster station construction contract	None
Construction contracting	Company IE	2023/06/30~2025/12/31	Construction contracting	None
Construction contracting	Company ID	2023/08/21~2025/12/31	Wind-power equipment installation contract	None

Contract nature	Contractual parties	Contract start and end date	Main content	Restrictive covenants
Construction contracting	Company IB	2023/12/15~2024/07/31	Offshore wind power engineering contract	None
Credit contract	Taipei Fubon	2023/05/31~2024/05/31	The credit amount is US\$18.25 million.	None
Credit contract	Taiwan Cooperative Bank	2023/09/27~2025/09/27	Credit amount of NTD 500 million	None
Credit contract	6 banks including Bank of Taiwan	2023/09/12~2023/09/15	First secured convertible corporate bonds in 2023 Credit amount of NTD 3 billion	1. The current ratio shall not be less than 100% (inclusive). 2. The debt ratio shall not be higher than 300% (inclusive). 3. The net tangible value shall not be less than NTD 9.5 billion (inclusive).
Credit contract	Bank SinoPac	2023/04/10~2023/04/17	Credit amount NTD 2.9 billion	With collateral (Changpin's equity pledged)
Credit contract	King's Town Bank	2023/10/03~2024/04/03	Credit amount of NTD 1.5 billion	None
Credit contract	KGI Bank	2023/12/21~2024/06/23	Credit amount of NTD 1.5 billion	None
Credit contract	Mega International Commercial Bank	2023/08/04~2024/08/04	Credit amount of NTD 800 million	None
Credit contract	Export–Import Bank of the Republic of China	2023/08/01~2024/08/01	Credit amount of NTD 800 million	None
Credit contract	CTBC	2020/12/07~2026/03/31	Credit amounted to NTD 5.4 billion	
Credit contract	O-Bank	2022/10/03~2025/10/03	Credit amount of NTD 1.75 billion	Financial ratio limit, reserve account limit
Credit contract	Chunghwa Bills Finance Corporation	2023/06/13~2024/06/13	Credit amount of NTD 600 million	None

VI. Financial Overview

1. Condensed balance sheet and consolidated income statement for the most recent five years

1.1 Balance sheet information

1.1.1 Consolidated condensed balance sheet - adopting International Financial Reporting Standards

Unit: NTD Thousand

Year Item		Financial data for the most recent five years (Note)				
		2019	2020	2021	2022	2023
Current Assets		37,437,621	49,290,306	50,288,129	61,093,418	67,717,157
Property, Plant and Equipment		23,397,983	20,850,423	21,024,968	20,923,246	22,705,808

Total comprehensive income attributable to owners of the parent company	1,256,389	2,254,491	385,907	1,776,996	863,292
Total comprehensive profit and loss attributable to non-controlling interests	-	-	-	-	-
Earnings per share	4.10	4.06	1.90	3.14	3.09

Note: The aforementioned financial information has been verified by an accountant for each year.

1.3 CPA name and audit opinion for the most recent five years

Year	Names of certified public accountants	Audit opinion	Reason for change in accountants
2019	Se-Kai, Lin / Hsiao-Tzu, Chou	Unqualified opinion	
2020	Se-Kai, Lin / Yi-Chang, Liang	Unqualified opinion	
2021	Se-Kai, Lin / Yi-Chang, Liang	Unqualified opinion	
2022	Se-Kai, Lin / Yi-Chang, Liang	Unqualified opinion	
2023	Se-Kai, Lin / Hsiao-Tzu, Chou	Unqualified opinion	Internal Management Organization Adjustment in the Office

2. Financial analysis for the last five years

2.1 Consolidated Financial Analysis-Adopting International Financial Reporting Standards

Analysis item		Year (Note)	Five-Year Financial Analyses				
			2019	2020	2021	2022	2023
Financial structure (%)	Debt to asset ratio		61.47	63.43	60.90	63.11	65.18
	Ratio of long-term funds to property, plant, and equipment		200.96	249.39	252.90	296.03	284.09
Solvency %	Current ratio		142.49	162.87	167.88	168.03	164.14
	Quick ratio		93.22	115.15	104.81	102.36	112.12
	Interest coverage ratio		7.81	8.40	7.31	9.06	6.06
Operating ability	Accounts receivable turnover (times)		6.61	5.41	5.13	5.33	4.93
	Average cash collection days		55.22	67.47	71.15	68.48	74.04
	Inventory turnover (times)		6.85	6.25	5.15	4.74	4.74
	Payables turnover (times)		5.71	4.89	4.44	4.99	4.97
	Average sales days		53.28	58.40	70.87	77.00	77.00
	Property, plant, and equipment turnover rate (times)		4.31	4.05	4.15	4.49	4.15
	Total asset turnover (times)		1.35	1.15	1.05	1.04	0.89
Profitability	Return on assets (%)		2.86	2.78	1.95	2.68	2.55
	Return on equity (%)		6.36	6.46	4.28	6.09	5.75
	Net profit before tax to paid-in capital ratio (%)		46.55	50.43	42.03	66.59	61.22
	Net profit rate (%)		1.83	2.10	1.54	2.23	2.32
	Earnings per share (NTD)		4.10	4.06	1.90	3.14	3.09
Cash flows	Cash flow adequacy ratio (%)		21.64	18.68	(11.85)	(0.73)	6.12
	Cash flow ratio (%)		85.95	154.23	68.33	35.29	34.69
	Cash reinvestment ratio (%)		8.35	6.63	(7.04)	(1.30)	1.69
Leverage	Operational leverage		3.53	2.62	3.20	2.19	2.52
	Financial leverage		1.18	1.17	1.22	1.14	1.26

Please explain reasons for changes in financial ratios in the last two years:

1. Debt service coverage ratio decreased by 33.07% mainly due to the increase in finance costs and the decrease in operating net profit in 2023.
2. Cash flow ratio increased by 938.74% mainly due to the increase in cash inflow from operating activities in 2023.
3. Cash reinvestment ratio increased by 229.77% mainly due to the increase in cash flow from operating activities in 2023.

Note : The aforementioned financial information has been verified by an accountant for each year.

2.2 Parent Company Only Financial Analysis-Adopting International Financial Reporting Standards

Analysis item \ Year (Note)		Five-Year Financial Analyses				
		2019	2020	2021	2022	2023

Leverage	Operational leverage	0.50	3.50	1.10	2.03	0.48
	Financial leverage	0.67	-0.46	1.15	3.27	0.69

Explain reasons for changes in financial ratios in the last two years:

1. Quick ratio decreased by 20.93% mainly due to the increase in current liabilities in 2023.
2. Debt service coverage ratio decreased by 31.01% mainly due to the increase in finance costs and the decrease in operating net profit, in 2023.
3. Inventory turnover (times) decreased by 41.36% mainly due to the increase in inventory as of the end of 2023.
4. Average sales days increased by 71.31% mainly due to the decrease in inventory turnover in 2023.
5. Cash flow ratio increased by 122.22% mainly due to the increase in cash inflow from operating activities in 2023.
6. Cash flow adequacy ratio increased by 41.30% mainly due to the increase in cash inflow from operating activities in 2023.
7. Cash reinvestment ratio increased by 1,841.27% mainly due to the increase in cash inflow from operating activities in 2023.
8. Operating leverage decreased by 173.48% mainly due to the decrease in operating loss in 2023.
9. Financial leverage decreased by 40.62% mainly due to the decrease in operating loss in 2023.

Note : The aforementioned financial information has been verified by an accountant for each year.

1. Financial structure
 - (1) Liabilities to assets ratio = total liabilities/total assets.
 - (2) The ratio of long-term funds to property, plant, and equipment = (total equity + non-current liabilities) / net property, plant, and equipment.
2. Solvency
 - (1) Current ratio = current assets/current liabilities.
 - (2) Quick ratio = (current assets-inventory-prepaid expenses) / current liabilities.
 - (3) Interest coverage ratio = net profit before income tax and interest expense/interest expense in the current period.
3. Operating ability
 - (1) Accounts receivable (including accounts receivable and notes receivable due to business) turnover rate = net sales / average receivables in each period (including accounts receivable and notes receivable due to business) balance.
 - (2) Average cash collection days=365/receivable turnover rate.
 - (3) Inventory turnover rate = cost of goods sold / average inventory value.
 - (4) Payables (including accounts payable and bills payable due to business) turnover rate = cost of goods sold / average payables in each period (including accounts payable and bills payable due to business) balance.
 - (5) Average sales days = 365 / inventory turnover rate.
 - (6) Turnover rate of property, plant, and equipment = net sales/average net property, plant, and equipment.
 - (7) Total asset turnover ratio = net sales/average total assets.
4. Profitability
 - (1) Return on assets = (after-tax profit and loss + interest expense × (1-tax rate))/average total assets.
 - (2) Return on equity = profit and loss after tax/average total equity.
 - (3) Net profit rate = after-tax profit and loss/net sales.
 - (4) Earnings per share = (profit and loss attributable to owners of the parent company-preferred share dividends) / weighted average number of issued shares.
5. Cash flow
 - (1) Cash flow ratio = net cash flow from operating activities/current liabilities.
 - (2) Net cash flow ratio = net cash flow from operating activities in the last five years / the last five years (capital expenditure + inventory increase + cash dividend)
 - (3) Cash reinvestment ratio = (net cash flow from operating activities-cash dividends) / (gross property, plant, and equipment + long-term investment + other non-current assets + working capital)
6. Leverage:
 - (1) Operating leverage = (net operating income-variable operating costs and expenses) / business interests.
 - (2) Financial leverage = operating profit / (business profit-interest expense)

1. Financial structure
 - (1) Liabilities to assets ratio = total liabilities/total assets.
 - (2) Ratio of long-term capital to fixed assets = (Net shareholders' equity + long-term liabilities) / Net fixed assets.
2. Solvency
 - (1) Current ratio = current assets/current liabilities.
 - (2) Quick ratio = (current assets - inventory - prepaid expense) / current liabilities.
 - (3) Interest coverage ratio = net profit before income tax and interest expense/interest expense in the current period.
3. Operating ability
 - (1) Accounts receivable (including accounts receivable and notes receivable due to business) turnover rate = net sales / average receivables in each period (including accounts receivable and notes receivable due to business) balance.
 - (2) Average cash collection days=365/receivable turnover rate.
 - (3) Inventory turnover rate = cost of goods sold / average inventory value.
 - (4) Payables (including accounts payable and bills payable due to business) turnover rate = cost of goods sold / average payables in each period (including accounts payable and bills payable due to business) balance
 - (5) Average sales days = 365 / inventory turnover rate.
 - (6) Fixed asset turnover = Net sales / Net fixed assets.
 - (7) Total assets turnover = net sales / total assets.
4. Profitability
 - (1) Return on assets = (after-tax profit and loss + interest expense × (1-tax rate)]/average total assets.
 - (2) Shareholders' return on equity=post-tax profit or loss/net average shareholders' equity
 - (3) Net profit rate = after-tax profit and loss/net sales.
 - (4) Earnings per share = (Net profit after tax - Dividends on preferred shares) / Weighted average number of shares outstanding.
5. Cash flow
 - (1) Cash flow ratio = net cash flow from operating activities/current liabilities.
 - (2) Net cash flow ratio = net cash flow from operating activities in the last five years / the last five years (capital expenditure + inventory increase + cash dividend)
 - (3) Cash reinvestment ratio = (net cash flow from operating activities-cash dividends) / (Gross fixed assets + long-term investment + other assets + working capital)
6. Leverage
 - (1) Operating leverage = (net operating income-variable operating costs and expenses) / business interests.
 - (2) Financial leverage = operating profit / (business profit-interest expense)

3. The Audit Committee review report of the most recent financial report

Audit Committee's Audit Report

The Company's Board of Directors has made a 2023 annual business report, financial statements, and profit distribution proposal. Among them, PWC Taiwan has audited the financial statements and issued an audit report. The above-mentioned business report, financial statements, and profit distribution proposal have been checked by the Audit Committee, and it believes there is no discrepancy. The reports are submitted for review in accordance with Article 14-4 of Securities and Exchange Act and Article 219 of the Company Act.

Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2023, pursuant to “Criteria Governing Preparation of Affiliated Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises”, the entity that is required to be included in the consolidated financial statements of affiliates, is the same as the entity required to be included in the consolidated financial statements of parent and subsidiary companies under International Financial Reporting Standard No. 10. Also, if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiaries, it shall not be required to prepare separate consolidated financial statements of affiliates.

Hereby declare,

CHENG UEI PRECISION INDUSTRY CO., LTD.

March 11, 2024

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR 23000594

To the Board of Directors and Stockholders of Cheng Uei Precision Industry Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Cheng Uei Precision Industry Co., Ltd. and its subsidiaries (the "Group") as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the reports of other auditors (please refer to the *Other matter* section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the reports of other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Group's 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements of the year ended December 31, 2023 are stated as follows:

Valuation of goodwill impairment

Description

Please refer to Note 4(20) for accounting policies on impairment loss on non-financial assets, Note 5(1) for the uncertainty of accounting estimates and assumptions applied to goodwill impairment valuation, and Note 6(13) for details of goodwill impairment valuation.

As of December 31, 2023, the balance of goodwill (including indefinite useful life trademarks) derived from the acquisition of Foxlink Image Technology Co., Ltd. and DG Lifestyle Store Limited by the Company's subsidiary, FIT Holding Co., Ltd. amounted to NT\$715,197 thousand and NT\$418,502 thousand, respectively. The Group valued the impairment of goodwill (including indefinite useful life trademarks) through the discounted cash flow method, using the higher of value in use or fair value less costs to sell to measure the cash generating unit's recoverable amount. As the assumptions of expected future cash flows contained subjective judgement and involved a high degree of uncertainty which would cause a material impact on the valuation result, the valuation of goodwill impairment was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. Obtained an understanding and assessed the reasonableness of valuation of goodwill impairment policies and procedures, including collection of internal and external data, operating forecast and industry changes.
- B. Obtained the external appraisal report on impairment valuation and performed the following

procedures:

- (a) We examined the external appraiser's qualification and assessed the independence, objectiveness and competence.
- (b) We assessed that the valuation method used in the appraisal report was widely used and appropriate.
- (c) We assessed the reasonableness of significant assumptions (including expected growth rate and discount rate) applied in the appraisal report.

Recognition of construction revenue-assessment on the stage of completion

Description

Please refer to Note 4(31) for accounting policies on construction contracts, and Note 5(2) for the uncertainty of critical judgement, accounting estimates and assumptions applied to construction contracts. As of December 31, 2023, contract assets, contract liabilities and construction revenue of the Group amounted to \$8,675,960 thousand, \$43,541 thousand and \$10,285,643 thousand, respectively, refer to Note 6(24) for details.

Construction revenue and costs of the Group mainly arise from undertaking construction works. If the outcome of a construction contract can be estimated reliably, profit or loss should be recognised by reference to the stage of completion of the contract activity, using the percentage-of-completion method of accounting, over the contract term. The stage of completion of a construction contract is measured by the proportion of contract costs incurred for the construction performed as of the financial reporting date to the estimated total costs for the construction contract, and revenue is recognised over time.

The aforementioned estimated total costs are assessed by the management based on the different nature of constructions and the price fluctuations in the market to estimate the costs for each construction activity such as estimated subcontract charges and material and labour expenses, and the complexity of aforementioned total cost usually involves subjective judgement and contains a high degree of uncertainty, which may affect the construction revenue recognition, thus, we consider the assessment on the stage of completion which was applied on construction revenue recognition as a key audit matter.

How our audit addressed the matter:

We performed the following audit procedures on the stage of completion as described on the above key audit matter:

- A. Obtained an understanding on the nature of business and industry, and assessed the reasonableness of internal process applied to estimate total construction cost, including the basis for estimating the expected total cost for construction contracts of the same nature.
- B. Assessed and tested the internal controls used by the management to recognise construction revenue based on the stage of completion, including checking the supporting documents of additional or reduced constructions and significant constructions performed in the period.
- C. Sampled and tested the subcontracts that have been assigned, and assessed the basis and reasonableness of estimating costs for those that have not been assigned.
- D. Performed substantive procedures relating to the construction profit or loss statement, including sampling and verifying the costs incurred in the period with the appropriate evidence, and recalculating and confirming that construction revenue calculated based on the stage of completion had been accounted for appropriately.

Assessment of allowance for inventory valuation losses

Description

Please refer to Note 4(13) for accounting policies on inventory, Note 5(3) for the uncertainty of accounting estimates and assumptions applied to inventory valuation, and Note 6(7) for details of inventory.

The Group is primarily engaged in the manufacturing and sale of electronic components and parts. As the electronic products' life cycles are relatively short and the market is highly competitive, there is a higher risk of incurring inventory valuation losses or obsolescence due to economic depression or an excess of supply over demand. The Company's inventories are measured at the lower of cost and net realisable value, and individually assessed for those inventories over a certain age in order to identify obsolete or slow-moving inventories.

The industry technology is rapidly changing, and the net realisable value involves subjective judgement resulting in an uncertainty when assessing the obsolete or slow-moving inventories. Given that the inventory and allowance for inventory valuation losses were material to the financial

statements, the assessment of allowance for inventory valuation losses was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. Assessed the reasonableness of policies and procedures on allowance for inventory valuation losses based on our understanding of the Group's operation and industry.
- B. Obtained an understanding of the Group's warehousing control procedures. Reviewed annual physical inventory count plan and participated in the annual inventory count event in order to assess the effectiveness of the management of inventory.
- C. Verified whether the systematic logic used in the Group's inventory aging report is appropriate and in line with its policies.
- D. Inspected inventory valuation basis adequacy and verified the selected samples' information, for instance, purchase price and sale price. Also recalculated and evaluated the reasonableness of inventory allowance basis in order to verify that the inventory was measured at the lower of cost and net realisable value.

Other matter - Reference to the reports of other auditors

We did not audit the financial statements of certain subsidiaries and investments accounted for under the equity method which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of these subsidiaries and the information disclosed in Note 13, is based solely on the reports of the other auditors. Total assets of these subsidiaries amounted to NT\$429,970 thousand and NT\$426,718 thousand, constituting 0.41% and 0.43% of the consolidated total assets as at December 31, 2023 and 2022, respectively, and operating revenue amounted to NT\$2,687,168 thousand and NT\$2,150,424 thousand, constituting 2.97% and 2.29% of the consolidated total operating revenue for the years then ended, respectively. The total balances of these investments accounted for under the equity method amounted to NT\$33,401 thousand and NT\$203,442 thousand, constituting 0.03% and 0.21% of the consolidated total assets as at December 31, 2023 and 2022, respectively, and the share of profit (loss) of associates and joint ventures accounted for under the equity method amounted to NT\$48 thousand and NT\$(9,441) thousand, constituting 0.00% and (0.39%) of the consolidated total comprehensive

income for the years then ended, respectively.

Other matter-Parent company only financial reports

We have audited and expressed an unqualified opinion with an *Other matters* section on the parent company only financial statements of Cheng Uei Precision Industry Co., Ltd. as at and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies

in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

CHENG UEI PRECISION INDUSTRY CO., LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

Cheng Uei Precision Industry Co., Ltd. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) on July 14, 1986 and has begun operations on July 31, 1986. The Company and its subsidiaries (collectively referred herein as the “Group”) are engaged in the manufacture of cable assemblies, connectors, battery packs, and power modules. Effective September 1999, the shares of the Company were listed on the Taiwan Stock Exchange.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorized for issuance the Board of Directors on March 11, 2024

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by FSC effective and became effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023
Amendments to IAS 12, ‘International tax reform - pillar two model rules’	May 23, 2023

Except for the amendment described below whose related information is provided in Note 6(32), the above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

Amendments to IAS 12, ‘International tax reform - pillar two model rules’

The amendments give companies temporary relief from accounting for deferred income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (OECD). An entity shall neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

(2) Effect of new issuances of or amendments to IFRSs Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:.

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The Group continues to evaluate the impact of the above standards and interpretations on its financial condition and financial performance. The quantitative impact will be disclosed when the assessment is complete.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively

referred herein as the “IFRSs”).

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligations.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (a) All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
 - (d) Changes in a parent’s ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
 - (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial

recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of. Conversely, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be transferred directly to retained earnings, if such gains or losses would be transferred directly to retained earnings when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Main business activities	Ownership(%)		Description
			December 31, 2023	December 31, 2022

Note 1: Investment or incorporation began in 2023.

Note 2: Investment or incorporation began in 2022.

Note 3: Dissolved or liquidated in 2023.

Note 4: Dissolved or liquidated in 2022.

Note 5: With balance sheet date of March 31. For the preparation of consolidated financial statements, the Company had required FOXLINK MYANMAR, and PQI had required Sinocity and DG as consolidated entities to prepare financial statements with balance sheet date on December 31 to conform to the balance sheet date of the consolidated financial statements.

Note 6: CU and CULINK has participated in Foxlink India's capital increase in March 2023. After the capital increment, Foxlink India became a wholly-owned subsidiary of CU and CULINK with 34.45% and 65.55% ownership, respectively.

Note 7: CU, NEW START and CULINK increased their capital in FG XUZHOU in 2023. After the capital increase, CU, NEW START and CULINK respectively held 27.94%, 24.85% and 47.21% equity interests, totalling 100% equity interests, in FG XUZHOU.

Note 8: FII and FUII subsequently invested in FIE in 2022. After the capital increment, FII and

FUII hold 13.53% and 86.47% ownership in FIE, respectively, at a total shareholding ratio of 100% in FIE.

Note 9: Shinfox increased its capital on May 10, 2022. FUII and PQI did not acquire shares proportionally to its interest. As a result, FUII and PQI decreased their share interest from 9.10% to 8.64% and 50.18% to 47.63%, respectively.

Note 10: The Group had disposed all of the ownership in Junezhe in December 2022. Please refer to Note 6(36) for details.

Note 11: PQI Mobility Inc. completed the registration of cancellation in October 2022. Therefore, 100% ownership in Power Quotient Technology (YANCHENG) Co., Ltd. was changed to be held by Power Quotient International (H.K.) Co., Ltd.

Note 12: For the year ended December 31, 2023, the Group disposed 1,601 thousand shares of Foxwell Power. The shareholding ratio was 77.57% after the sales, refer to Note 6(34) for details.

Note 13: The Group sold its entire equity interest in Diwei Power and Liangwei Power in December 2023, refer to Note 6(36) for details.

Note 14: Guanwei Power increased its capital on July 5, 2023. Shinfox did not acquire shares proportionally to its interest. As a result, Shinfox decreased its share interest from 100% to 51%, refer to Note 6(36) for details.

Note 15: Shinfox prepaid a payment for investments on December 27, 2022, and acquire 40% equity interests in SFE in January 2023. Subsequently, the Company acquired an additional 27% equity interests in SFE on November 6, 2023, and the Company's shareholding ratio was 67% in total.

Note 16: GLORY TEK (SAMOA) and Glorytek Suzhou jointly held 100% equity interest of GOYC.

C. Subsidiaries not included in the consolidated financial statements:

Investor	Subsidiary	Main activity	Ownership(%)		Description
			December 31, 2023	December 31, 2022	
FII	Yixin Precision Industry Co., Ltd. (YX)	Manufacture of electronic telecommunication components and electronic machinery equipment	75	75	Note 1
Studio A	Tayih Digital Technology Co., Ltd. (TAYIH)	Manufacture and sales of electronic parts and components	60	60	Note 2

Note 1: The ratio of total assets to the Company's total assets was insignificant, and it was approved by the Ministry of Economic Affairs on October 5, 2004 to be dissolved and is currently undergoing liquidation procedures. Thus, this subsidiary was not included in the consolidated financial statements.

Note 2: The ratio of total assets to the Company's total assets was insignificant, and it was approved by the Ministry of Economic Affairs on July 7, 2010 to be dissolved and is

currently undergoing liquidation procedures. Thus, this subsidiary was not included in the consolidated financial statements.

D. Adjustments for subsidiaries with different balance sheet dates:

- (a) Sinocity and DG are subsidiaries of PQI in Hong Kong and Macau, respectively, with balance sheet date of March 31. For the preparation of consolidated financial statements, PQI had required Sinocity and DG as consolidated entities to prepare financial statements with balance sheet date of December 31 to conform with the balance sheet date of the Group.
- (b) FOXLINK MYANMAR is a subsidiary of SINOBEST in Myanmar with balance sheet date of March 31. For the preparation of consolidated financial statements, SINOBEST had required FOXLINK MYANMAR as consolidated entities to prepare financial statements with balance sheet date of December 31 to conform to the balance sheet date of the consolidated financial statements.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group:

As of December 31, 2023 and 2022, the non-controlling interest amounted to \$12,631,718 and \$11,835,496, respectively. The information of non-controlling interest and respective subsidiaries is as follows:

Name of subsidiary	Principal place of business	Non-controlling interest			
		December 31, 2023		December 31, 2022	
		Amount	Ownership (%)	Amount	Ownership (%)
FIT Holding	Taiwan	\$ 4,415,678	61.81%	\$ 4,826,603	61.81%

Summarised financial information of the subsidiaries:

Statements of cash flows

	FIT Holding	
	Years ended December 31,	
	2023	2022
Net cash used in operating activities	(\$ 5,161,915)	(\$ 2,351,013)
Net cash used in investing activities	(1,751,140)	(5,578,178)
Net cash provided by financing activities	8,166,220	8,614,718
Effect of exchange rates on cash and cash equivalents	(32,731)	78,822
Increase in cash and cash equivalents	<u>1,220,434</u>	<u>764,349</u>
Cash and cash equivalents, beginning of year	<u>5,732,695</u>	<u>4,968,346</u>
Cash and cash equivalents, end of year	<u>\$ 6,953,129</u>	<u>\$ 5,732,695</u>

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

- c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- a) The operating results and financial position of all the group entities associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- c) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(5) Classification of current and non-current items

- A. The construction contracts contracted by the Group are generally longer than one year. The assets and liabilities of the construction projects are classified as current or non-current according to the business cycle; the other criteria for classifying between current and non-current are as follows:
 - a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - b) Assets held mainly for trading purposes;
 - c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- a) Liabilities that are expected to be paid off within the normal operating cycle;
- b) Liabilities arising mainly from trading activities;
- c) Liabilities that are to be paid off within twelve months from the balance sheet date.

Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash and cash equivalents

Cash equivalents refer to short-term highly liquid investments that are readily convertible to known amount of cash and subject to an insignificant risk of changes in value. Time deposits that meet the above criteria and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated fixed production overheads based on actual capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling

price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(14) Investments accounted for under the equity method / associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for under the equity method and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred statutory/constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity are not recognised in profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- F. Upon loss of significant influence over an associate, the Group remeasures any investment retained in the former associate at its fair value. Any difference between fair value and carrying amount is recognised in profit or loss.
- G. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are

reclassified to profit or loss proportionately in accordance with the aforementioned approach.

- H. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss proportionately.
- I. When the Group disposed the subsidiary which was a developed and constructed renewable energy power generation project, gain or loss on disposal of the subsidiary was categorised as income and expenses arising from operating activities, which was accounted for as other income and expense based on the actual operating condition.

(15) Investments accounted for using equity method – joint ventures

Investment of joint arrangements are classified as joint operations or joint ventures based on its contractual rights and obligations.

The Group accounts for its interest in a joint venture using equity method. Unrealised profits and losses arising from the transactions between the Group and its joint venture are eliminated to the extent of the Group's interest in the joint venture. However, when the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, all such losses shall be recognised immediately. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture together with any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint venture.

(16) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment

are as follows:

Buildings and structures	3~50 year(s)
Machinery and equipment	1~20 year(s)
Office equipment	2~5 year(s)
Miscellaneous equipment	3~15 year(s)

(17) Leasing arrangements (lessee)-right-of-use assets/ lease liabilities

A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term.

When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(18) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 15 ~ 50 years.

(19) Intangible assets

A. Goodwill

Goodwill arises in a business combination accounted for by applying the acquisition method.

B. Trademark right (indefinite useful life)

Trademark right is stated at cost and regarded as having an indefinite useful life as it was assessed to generate continuous net cash inflow in the foreseeable future. Trademark right is not amortised, but is tested annually for impairment.

C. The intangible assets, other than goodwill and trademark rights, are computer software and customer relationships, which are amortized using the straight-line method over a period of 3 to 5 years.

(20) Impairment of non-financial assets

A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist, the impairment loss shall be reversed to the extent of the loss previously recognised in profit or loss. Such recovery of impairment loss shall not result to the asset's carrying amount greater than its amortised cost where no impairment loss was recognised.

B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.

C. Goodwill for impairment testing purpose is allocated to cash generating units. This allocation is identified based on operating segments. Goodwill is allocated to a cash generating unit or a group of cash generating units that expects to benefit from business combination that will produce goodwill.

(21) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(22) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(23) Bonds payable

Ordinary corporate bonds issued by the Group are initially recognised at fair value less transaction

costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to ‘finance costs’.

(24) Convertible corporate bonds

Convertible corporate bonds issued by the Company contain conversion options (that is, the bondholders have the right to convert the bonds into the Group’s common shares by exchanging a fixed amount of cash for a fixed number of common shares) and put options. The Group classifies the bonds payable upon issuance as a financial asset, a financial liability or an equity instrument in accordance with the contract terms. They are accounted for as follows:

- A. The embedded put options are recognised initially at net fair value as ‘financial assets or financial liabilities at fair value through profit or loss’. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognised as ‘gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss’.
- B. The host contracts of bonds are initially recognised at fair value. Any difference between the initial recognition and the redemption value is accounted for as the premium or discount on bonds payable and subsequently is amortised in profit or loss as an adjustment to ‘finance costs’ over the period of circulation using the effective interest method.
- C. The embedded conversion options which meet the definition of an equity instrument are initially recognised in ‘capital surplus—share options’ at the residual amount of total issue price less the amount of financial assets or financial liabilities at fair value through profit or loss and bonds payable as stated above. Conversion options are not subsequently remeasured.
- D. Any transaction costs directly attributable to the issuance are allocated to each liability or equity component in proportion to the initial carrying amount of each abovementioned item.
- E. When bondholders exercise conversion options, the liability component of the bonds (including bonds payable and ‘financial assets or financial liabilities at fair value through profit or loss’) shall be remeasured on the conversion date. The issuance cost of converted common shares is the total book value of the abovementioned liability component and ‘capital surplus—share options’.

(25) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(26) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(27) Employee benefits

- A. Pensions

a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

b) Defined benefit plans

- i. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds (at the balance sheet date).
- ii. Remeasurement arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

B. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(28) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is

provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(29) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, are included in equity attributable to the Company's equity holders.

(30) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(31) Revenue recognition

A. Sales of goods

- a) The Group manufactures and sells electronic telecommunication component products. Revenue is measured at the fair value of the consideration received or receivable taking into

account value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods should be recognised when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

- b) The goods are often sold with volume discounts based on aggregate sales over a 12-month period. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated sales discounts and allowances. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. No element of financing is deemed present as the sales are made with a credit term of 30 to 120 days, which is consistent with market practice.
- c) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Sales of services

The Group is engaged in research and development and mold repair of products, energy saving and maintenance of energy-saving equipment as well as design and development of solar engineering, etc. In cases where the results of transactions involving the provision of services can be reliably estimated or when certain milestones in research and development projects are achieved, revenue shall be recognized based on the project's progress. In other cases, revenue shall be recognized upon the completion of the provision of services or over the period in which the services are provided to the customer.

C. Construction revenue from construction contracts

- a) The Group's construction revenue mainly arises from undertaking construction contracts. As the cost of construction input is directly related to the stage of completion of performance obligations, revenue is recognised by the proportion of contract costs input to the estimated total costs.
- b) The Group's revenue is recognised as contract assets over time based on the proportion of the cost of construction input. Accounts receivable from a service contract are recognised in which the Group bills monthly at the amount to which the Group has the right to invoice. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a

contract liability is recognised.

D. Electricity (natural gas) sales revenue

Electricity (natural gas) sales revenue of the Group is mainly recognised when the Group has provided the goods to the customer, the amount can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity.

(32) Government grants

Government grants are recognised at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants related to property, plant and equipment are recognised as non-current liabilities and are amortised to profit or loss over the estimated useful lives of the related assets using the straight-line method

(33) Business combinations

A. The Group uses the acquisition method to account for business combinations. The consideration transferred for an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed and equity instruments issued at the acquisition date, plus the fair value of any assets and liabilities resulting from a contingent consideration arrangement. All acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the Group measures at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to the proportionate share of the entity's net assets in the event of liquidation at either fair value or the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other non-controlling interests should be measured at the acquisition-date fair value.

B. The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previous equity interest in the acquiree over the fair value of the identifiable assets acquired and the liabilities assumed is recorded as goodwill at the acquisition date. If the total of consideration transferred, non-controlling interest in the acquiree recognised and the fair value of previously held equity interest in the acquiree is less than the fair value of the identifiable assets acquired and the liabilities assumed, the difference is recognised directly in profit or loss on the acquisition date.

(34) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

Critical accounting estimates and assumptions

(1) Impairment assessment of goodwill

The impairment assessment of goodwill relies on the Group's subjective judgement, including identifying cash-generating units, allocating assets and liabilities as well as goodwill to related cash-generating units, and determining the recoverable amounts of related cash-generating units.

As of December 31, 2023, the Group's goodwill amount is \$1,252,490. Please refer to Note 6(13) for detailed information.

(2) Recognition of construction revenue

Construction revenue is recognised based on the percentage of completion method, which is the same method used to calculate the expense during the construction period. The stage of completion of a contract is measured by the proportion of contract costs incurred for work performed up to the balance date to the estimated total costs for the contract. The estimated total costs and contract items are assessed by the management based on the different nature of constructions and the price fluctuations in the market to estimate the costs for each construction activity such as estimated subcontract charges and material and labour expenses, which may affect the calculation of construction profit or loss. Information on the transaction price in relation to the unfulfilled obligation of the Group's construction contract is provided in Note 6(24).

(3) Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the Group's inventory book value is \$14,297,590 Please refer to Note 6(7) for detailed information.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Cash on hand and revolving funds	\$ 29,079	\$ 32,183
Checking accounts and demand deposits	7,473,858	7,136,651
Cash equivalents		
Time deposits-repatriated offshore funds	174,047	184,629
Time deposits	7,119,832	4,015,782
Short-term notes and bills	47,980	61,825
Total	<u>\$ 14,844,796</u>	<u>\$ 11,431,070</u>

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. Details of the Group's cash and cash equivalents pledged to others as collateral are provided in Note 8.

C. According to IFRS Q&A amended by the competent authority on January 5, 2024, the Group reclassified the undrawn balance of deposits account for offshore funds which applies "The Management, Utilization, and Taxation of Repatriated Offshore Funds Act" as cash and cash equivalents. As of December 31, 2023 and 2022, cash and cash equivalents was increased by \$174,047 and financial assets at amortised cost was decreased by \$184,629.

(2) Financial assets and liabilities at fair value through profit or loss (No such transaction in 2022)

<u>Item</u>	<u>December 31, 2023</u>
Current items	
Financial assets and liabilities mandatorily measured at fair value through profit or loss	
Listed stocks	\$ 927
Convertible corporate bonds	3,900
	<u>4,827</u>
Valuation adjustment	340
	<u>\$ 5,167</u>

A. Amounts recognised in profit or loss in relation to financial assets/liabilities at fair value through profit or loss are listed below:

	<u>Year ended December 31,</u>
	<u>2023</u>
Financial assets and liabilities mandatorily measured at fair value through profit or loss	
Forward exchange contracts - gains on settlement	\$ 629
Listed stocks	110
	<u>\$ 739</u>

- B. The Group entered into forward foreign exchange contracts to hedge exchange rate risk of assets denominated in foreign currencies whose values would be affected by the exchange rate fluctuations. However, these forward foreign exchange contracts are not accounted for under hedge accounting.
- C. The Group has no financial assets at fair value through profit or loss pledged to others as collateral.
- D. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).

(3) Financial assets at fair value through other comprehensive income

Items	December 31, 2023	December 31, 2022
Non-current items:		
Equity instruments		
Listed stocks	\$ 323,491	\$ -
Unlisted stocks	1,339,323	2,235,952
Valuation adjustment	(317,507)	(714,574)
	<u>\$ 1,345,307</u>	<u>\$ 1,521,378</u>

- A. The Group has elected to classify equity instruments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. As of December 31, 2023 and 2022, the fair value of such investments amounted to \$1,345,307 and \$1,521,378, respectively.
- B. For the year ended December 31, 2023, the Group derecognised original investment costs as its investee was dissolved, and the Company wrote off accumulated loss by decreasing retained earnings based on shareholding ratio amounting to \$437.
- C. For the year ended December 31, 2023, the Company's subsidiaries, Power Quotient International Co., Ltd. and Foxlink Image Technology Co., Ltd., derecognised original investment costs at the effective date of merger as their investee, Taiwan Star Telecom Co., Ltd, was dissolved through the exchange of shares with Taiwan Mobile Co., Ltd. Accordingly, the Company wrote off accumulated loss by decreasing retained earnings based on shareholding ratio amounting to \$225,324.
- D. Amounts recognised in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	Years ended December 31,	
	2023	2022
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognised in other comprehensive income	(\$ 148,776)	(\$ 42,267)
Cumulative losses reclassified to retained earnings due to derecognition	(\$ 225,761)	\$ -

- E. The Group has no financial assets at fair value through other comprehensive income pledged to

others as collateral.

F. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).

(4) Financial assets at amortised cost

Items	December 31, 2023	December 31, 2022
Current items:		
Time deposits maturing over three months	\$ 837,506	\$ 68,040
Restricted deposits	390,806	1,131,507
Pledged time deposits	1,689,866	1,716,728
	<u>\$ 2,918,178</u>	<u>\$ 2,916,275</u>
Non-current items:		
Restricted deposits	\$ 316,794	\$ 76,698
Pledged time deposits	384,267	373,354
	<u>\$ 701,061</u>	<u>\$ 450,052</u>

A. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortised cost held by the Group was \$3,619,239 and \$3,366,327, respectively.

B. Details of the Group's financial assets at amortised cost pledged to others as collateral are provided in Note 8.

C. Information relating to credit risk of financial assets at amortised cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposit are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(5) Accounts receivable and note receivable

	December 31, 2023	December 31, 2022
Note receivable	<u>\$ 53,933</u>	<u>\$ 59,703</u>
Accounts receivable	\$ 16,926,316	\$ 18,124,623
Construction receivable	852,465	7,790
Less: Loss allowance	(69,843)	(126,750)
	<u>\$ 17,708,938</u>	<u>\$ 18,005,663</u>

A. The information on the Group's ageing analysis of accounts receivable is provided in Note 12(2).

B. As of December 31, 2023 and 2022, accounts receivable were all from contracts with customers. And as of January 1, 2022, the balance of receivables from contracts with customers amounted to \$16,481,390.

C. The quality information of accounts receivable is based on customers' credit ranking and recoverable period of receivables in order to calculate the accrual of impairment. The Group's internal credit ranking policy is that the Group's business and management segment assesses periodically or occasionally whether the credit ranking of existing customers is appropriate and

adjusts to obtain the latest information when necessary. Customers' credit ranking assessment is based on industrial operating scale, profitability and ranking assessed by financial insurance institutions.

The Group has insured accounts receivable of certain customers and the Group will receive 80%~90% compensation if bad debts occur. As of December 31, 2023 and 2022, the balance of accounts receivable from specific customers amounted to \$2,291,815, and \$2,100,339, respectively.

D. The Group does not hold any collateral as security.

E. Information relating to credit risk of accounts receivable is provided in Note 12(2).

(6) Transfer of financial assets (as at December 31, 2023: None)

A. The Group entered into a factoring agreement with the banks to sell its accounts receivable. Under the agreement, the Group is not obligated to bear the default risk of the transferred accounts receivable, but is liable for the losses incurred on any business dispute. The Group does not have any continuing involvement in the transferred accounts receivable. Thus, as of December 31, 2022, the Group derecognised the transferred accounts receivable, and the related information is as follows:

December 31, 2022								
Purchaser of accounts receivable	Accounts receivable transferred	Amount derecognised	Facilities	Amount advanced	Amount advanced for advance (shown as other receivables)	Interest rate of amount advanced	Collateral Provided	
Bank of Taiwan	\$ 641,782	\$ 641,782	\$ 4,606,500	\$ 577,603	\$ 64,179	4.84%~4.92%	None	
Mega International Commercial Bank	159,223	159,223	1,535,500	143,300	15,923	5.66%	None	

B. As of December 31, 2022, the Group issued promissory notes to some banks for the factoring agreements signed.

(7) Inventories

December 31, 2023			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 5,683,115	(\$ 394,692)	\$ 5,288,423
Work in progress and semi-finished goods	2,426,515	(7,276)	2,419,239
Finished goods (including merchandise)	6,762,112	(172,314)	6,589,798
Inventory in transit	130	-	130
	<u>\$ 14,871,872</u>	<u>(\$ 574,282)</u>	<u>\$ 14,297,590</u>

	December 31, 2022		
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 9,167,963	(\$ 330,700)	\$ 8,837,263
Work in progress and semi-finished goods	3,068,101	(76,882)	2,991,219
Finished goods (including merchandise)	6,121,494	(197,750)	5,923,744
Inventory in transit	58,973	-	58,973
	<u>\$ 18,416,531</u>	<u>(\$ 605,332)</u>	<u>\$ 17,811,199</u>

A. FOXLINK INDIA ELECTRIC PRIVATE LIMITED, a subsidiary of the Group, sustained a fire damage at its factory in TIRUPATI, India on February 27, 2023. The carrying amount of the loss of inventory due to the fire amounted to \$302,830, which was listed as ‘other gains and losses - loss by fire’. Refer to Note 10 for details.

B. The cost of inventories recognised as expense for the period:

	Years ended December 31,	
	2023	2022
Cost of inventories sold	\$ 69,104,546	\$ 78,729,055
Construction cost and cost of electricity sold	10,054,709	3,736,667
(Gain on reversal of) loss on decline in market value	(31,050)	(78,611)
Others (revenue from sale of scraps)	(271,353)	(378,716)
	<u>\$ 78,856,852</u>	<u>\$ 82,008,395</u>

The Group reversed a previous inventory write-down because obsolete and slow-moving inventories and inventories with decline in market value were partially sold by the Group for the years ended December 31, 2023 and 2022.

(8) Prepayments

	December 31, 2023	December 31, 2022
Construction prepayment	\$ 4,658,272	\$ 4,192,448
Overpaid VAT	1,523,196	1,135,339
Others	982,899	739,810
	<u>\$ 7,164,367</u>	<u>\$ 6,067,597</u>

A. Associates

(a) The basic information of the associates that are material to the Group is summarised below:

Company name	Principal place of business	Shareholding ratio		Nature of relationship	Methods of measurement
		December 31, 2023	December 31, 2022		
Central Motion Picture Corporation	Taiwan	17.49%	17.49%	Note	Equity method
Well Shin Technology Co., Ltd.	Taiwan	18.84%	18.84%	Note	Equity method

Note : As the Group's management holds several seats in the Board of Directors of Central Motion Picture Corporation and Well Shin Technology Co., Ltd., the Group is assessed to have significant influence.

(b) Summarised financial information of the associates that are material to the Group is as follows:

Balance sheet

		Central Motion Picture Corporation	
		December 31, 2023	December 31, 2022
Current assets	\$	320,558	\$ 496,469
Non-current assets		17,007,034	16,700,586

	Well Shin Technology Co., Ltd.	
	Years ended December 31,	
	2023	2022
Revenue	\$ 5,328,786	\$ 6,159,487
Profit for the year from continuing operations	\$ 507,511	\$ 759,540
Other comprehensive (loss) income, net of tax	(85,254)	120,545
Total comprehensive income	\$ 422,257	\$ 880,085
Dividends received from associates	\$ 89,130	\$ 44,565

(c) The carrying amount of the Group's interests in all individually immaterial associates (Note) and the Group's share of the operating results are summarised below:

As of December 31, 2023 and 2022, the carrying amount of the Group's individually immaterial associates amounted to \$2,160,223, and \$1,749,140, respectively.

	Years ended December 31,	
	2023	2022
Profit for the year from continuing operations	\$ 1,191,188	\$ 604,545
Total comprehensive income	\$ 1,191,188	\$ 604,545

Note: Sharetronic Data, CMPC Cultural & Creative, Microlink, CYNC, Chung Chia Power, Banrin, Synergy, TEGNA, Huantuo and Cheng Shin Digital.

(d) The fair value of the Group's material associates with quoted market prices is as follows:

	December 31, 2023	December 31, 2022
Well Shin Technology Co., Ltd.	\$ 1,152,001	\$ 1,102,980

B. Joint ventures

The carrying amount of the Group's interests in all individual immaterial joint ventures (Note) and the Group's share of the operating results are summarised below:

As of December 31, 2023 and 2022, the carrying amount of the Group's individually immaterial joint ventures amounted to \$118,027 and \$116,102, respectively.

	Years ended December 31,	
	2023	2022
Loss for the year from continuing operations	(\$ 1,033)	\$ -
Total comprehensive loss	(\$ 1,033)	(\$ 896)

Note: Changpin Wind and GRID RESPONSE LLC.

C. The Group is the single largest shareholder of Well Shin Technology Co., Ltd. with an 18.84% equity interest. Given that it was a strategic investment, and the Group had no involvement in its substantial operations and no active participation at the last shareholders' meeting by other shareholders, which indicates that the Group has no current ability to direct the relevant activities of Well Shin Technology Co., Ltd., the Group has no control, but only has significant influence, over the investee.

D. The Group has signed a stock purchase agreement with an individual on May 15, 2014 to purchase

all the Company's shares in CMPC amounting to \$150,000 thousand. As of December 31, 2023, uncollected amount was \$141,000 thousand (shown as 'other receivables') and accrued impairment loss was \$141,000 thousand.

- E. Chung Chia Power Co., Ltd. increased its capital by issuing new shares on January 29, 2023. The Group did not acquire shares proportionally to its interest. As a result, the Group lost its significant influence and decreased its share interest from 20% to 8%. Accordingly, the Group's investment in Chung Chia Power Co., Ltd. was reclassified as financial assets at fair value through other comprehensive income.
- F. On October 17, 2023, the Group acquired 49% equity interests in Cheng Shin Digital Co., Ltd. in the amount of \$490. Gain recognised in bargain purchase transaction from the acquisition amounted to \$707 (shown as 'other income').
- G. On December 27, 2022, the Group invested in Shinfox Far East Company Pte. Ltd. in the amount of \$981,545 (shown as prepayments for investments), and acquired 40% equity interests in Shinfox Far East Company Pte. Ltd. in January 2023. On September 25, 2023, the Group's Board of Directors resolved to increase the shareholding of Shinfox Far East Company Pte. Ltd., an overseas investee company. On November 6, 2023, the Group acquired an additional 27% equity interest in Shinfox Far East Company Pte. Ltd., and the shareholding ratio increased to 67% in total. As a result, Shinfox Far East Company Pte. Ltd. became a subsidiary of the Group. The Group recognised gain on disposal of investments for this transaction amounting to \$45,025 (shown as 'other gains and losses-gain on disposal of investments'). For the year ended December 31, 2023, share of profit or loss of investments accounted for under the equity method before the Group increasing its shareholding in the company amounted to (\$33,302).
- H. On September 25, 2023, the Group's Board of Directors resolved to invest in renewable energy power plants in Vietnam, including GIO THANH ENERGY JOINT STOCK COMPANY, SECO JOINT STOCK COMPANY, VIETNAM RENEWABLE ENERGY JOINT COMPANY STOCK and SECO JOINT STOCK COMPANY, of which the Company's shareholding ratio are all 35%, and both parties completed the signing of the contract on September 29, 2023, with an investment amount of VND 853,248,000 thousand. As of the financial reporting date, the investment has not yet been completed.
- I. For the year ended December 31, 2023, the Group did not participate in the capital increase of Sharetronic Data Technology Co., Ltd. proportionately to ownership, and the shareholding ratio decreased to 16.89%. The Company recognised capital surplus according to shareholding ratio amounting to \$255,743.
- J. The prepayments for investments of the Group in the amount of \$227,072 on December 31, 2023 were used to invest in JOURN TA BROTHERS LIMITED. However, the registration had not yet been completed.

A. FOXLINK INDIA ELECTRIC PRIVATE LIMITED, a subsidiary of the Group, sustained a fire damage at its factory in TIRUPATI, India on February 27, 2023. The carrying amount of the loss of equipment due to fire amounted to \$249,584, which was listed as 'other gains and losses - loss by fire'. Refer to Note 10 for details.

B. Amount of borrowing costs capitalised as part of property, plant and equipment and the range of the interest rates for such capitalisation are as follows:

	Years ended December 31,	
	2023	2022
Amount capitalised	\$ 47,797	\$ 4,343
Range of the interest rates for capitalisation	1.95%~2.689%	1.88%~2.863%

C. The Group's property, plant and equipment were pledged to others as collateral, please refer to Note 8 for detailed information.

D. As of December 31, 2023 and 2022, the Group's prepayments for the purchase of equipment amounted to \$791,122 and \$2,328,066, respectively.

(11) Leasing arrangements-lessee

A. The Group leases various assets including land, buildings, and transportation equipment. Rental contracts are typically made for periods of 2 to 70 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	December 31, 2023	December 31, 2022
	Carrying amount	Carrying amount
Land	\$ 1,319,658	\$ 1,416,817
Buildings	1,941,328	881,504
Transportation equipment (Business vehicles)	3,993	3,941
Office equipment (Photocopiers)	197	11
	<u>\$ 3,265,176</u>	<u>\$ 2,302,273</u>

	Years ended December 31,	
	2023	2022
	Depreciation charge	Depreciation charge
Land	\$ 114,879	\$ 49,862
Buildings	513,759	291,899
Transportation equipment (Business vehicles)	5,370	3,253
Office equipment (Photocopiers)	12	70
Less: Capitalisation of depreciation	(7,400)	-
	<u>\$ 626,620</u>	<u>\$ 345,084</u>

C. For the years ended December 31, 2023 and 2022, the additions to right-of-use assets amounted to \$1,759,145 and \$1,013,954, respectively.

D. The information on income and expense accounts relating to lease contracts is as follows:

	Years ended December 31,	
	2023	2022
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 35,274	\$ 11,189
Expense on short-term lease contracts	80,900	45,625
Expense on leases of low-value assets	3,841	6,921
Expense on variable lease payments	56,826	56,665
Lease modification gain	157	1,246

E. For the years ended December 31, 2023 and 2022, the Group's total cash outflow for leases amounted to \$689,663 and \$432,997, respectively.

F. Variable lease payments

(a) Some of the Group's lease contracts contain variable lease payment terms that are linked to sales generated from a store or a counter in a department store and sales generated from electricity sold. For aforementioned contracts, up to 3.73%~44.12% of lease payments are on the basis of variable payment terms and are accrued based on the sales amount. Variable payment terms are used for a variety of reasons and various lease payments that depend on sales are recognised in profit or loss in the period in which the event or condition that triggers those payments occurs.

(b) A 1% increase in the aggregate sales amount of all stores with such variable lease contracts would increase total lease payments by approximately \$568.

G. Please refer to Note 8 for information of right-of-use assets provided by the Group as collaterals.

(12) Investment property

A. Rental income from the lease of the investment property and direct operating expenses arising from the investment property are shown below:

	Years ended December 31,	
	2023	2022
Rental income from the lease of the investment property	<u>\$ 17,512</u>	<u>\$ 17,185</u>
Direct operating expenses arising from the investment property that generated rental income in the year	<u>\$ 13,011</u>	<u>\$ 13,093</u>

B. Investment property is stated initially at its cost and is depreciated on a straight-line basis over its estimated useful life. The fair value of the investment property held by the Group as at December 31, 2023 and 2022 was \$988,241 and \$1,146,850, respectively, which was evaluated based on the market prices of similar real estate in the areas nearby, as Level 2 fair value market prices did not change significantly.

C. There was no impairment loss on investment property.

D. The investment property was not pledged to others as collateral.

	<u>\$ 715,197</u>	<u>\$ 418,571</u>	<u>\$ 39,528</u>	<u>\$ 19,864</u>	<u>\$ 1,193,160</u>

B. The value of customer relationship arose from the Group acquiring shares in Elegant Energy in February 2022. Refer to Note 6(35) for details.

C. The recoverable amount of all cash-generating units has been determined based on value-in-use calculations. These calculations use pre-tax cash flow projections and decisions assisted by independent valuation institutions based on financial budgets approved by the management covering a five-year period. The Group performs impairment testing annually. For the years

ended December 31, 2023 and 2022, there was no impairment on assets.

D. The intangible assets were not pledged to others as collateral.

(14) Short-term borrowings

Type of borrowings	December 31, 2023	Interest rate range	Collateral

Note: Refer to Note 9(1) B. for details.

(17) Bonds payable

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Secured corporate bonds	\$ 6,600,000	\$ 6,600,000
Secured convertible bonds payable	3,000,000	-
Less: Discount on bonds payable	(162,267)	(17,626)
	9,437,733	6,582,374
Less: Current portion of corporate bonds payable (shown as “long-term liabilities, current portion”)	(2,994,906)	-
	<u>\$ 6,442,827</u>	<u>\$ 6,582,374</u>

A. The main terms of the \$3,600,000 2nd secured corporate bonds issued by the Company on July 29, 2020 are as follows:

- (a) Total initial issue amount: \$3,600,000.
- (b) Issue price: Issue at par value, \$1,000 each.
- (c) Issue period: 5 years, from July 29, 2020 to July 27, 2025.
- (d) Coupon rate: 0.65% fixed per annum.
- (e) Interest payment method: Interest is calculated from the date of issuance at the coupon rate, is a simple interest and is paid yearly.
- (f) Principal repayment method: Pay entire amount at the maturity date.
- (g) Guarantee method:

The joint guarantor banks including CTBC Bank Co., Ltd., Taiwan Cooperative Bank Co., Ltd., Hua Nan Commercial Bank Ltd., Agricultural Bank of Taiwan Corporation and Mega International Commercial Bank Co., Ltd. provide guarantees based on a joint engagement guarantee contract and bond-fulfilling guarantee obligation contract.

- (h) Commitment:

The company should maintain the following financial ratios during the contract duration for semi-annual consolidated and annual consolidated financial statements:

- i. Current assets to current liabilities ratio of at least 1:1;
- ii. Liabilities not exceeding 200% of tangible net equity;
- iii. Interest coverage of at least 400%; and
- iv. Tangible net equity of at least NT\$15,000,000 thousand.

B. The main terms of the \$3,000,000 1st secured corporate bonds issued by the Company on June 26, 2019 are as follows:

- (a) Total initial issue amount: \$3,000,000.
- (b) Issue price: Issue at par value, \$1,000 each.
- (c) Issue period: 5 years, from June 26, 2019 to June 26, 2024.
- (d) Coupon rate: 0.80% fixed per annum.
- (e) Interest payment method: Interest is calculated from the date of issuance at the coupon rate, is a simple interest and is paid yearly.

- (f) Principal repayment method: Pay entire amount at the maturity date.
 - (g) Guarantee method:

The joint guarantor banks including CTBC Bank Co., Ltd., Taiwan Cooperative Bank Co., Ltd., Mega International Commercial Bank Co., Ltd. and Chang Hwa Commercial Bank, Ltd. provide guarantees based on a joint engagement guarantee contract and bond-fulfilling guarantee obligation contract.
 - (h) Commitment:

The company should maintain the following financial ratios during the contract duration for semi-annual consolidated and annual consolidated financial statements:

 - i. Current assets to current liabilities ratio of at least 1:1;
 - ii. Liabilities not exceeding 200% of tangible net equity;
 - iii. Interest coverage of at least 400%; and
 - iv. Tangible net equity of at least NT\$15,000,000 thousand.
- C. The terms of the first domestic secured convertible bonds issued by the Group's second-tier subsidiary, Shinfox Energy Co., Ltd., are as follows:
- (a) The competent authority has approved Shinfox Energy Co., Ltd.'s first time raising and issuance of domestic secured convertible bonds. The bonds have a total issuance amount of \$3,000,000 and a coupon rate of 0%, covering a 3-year period of issuance and a circulation period from November 22, 2023 to November 22, 2026. The convertible bonds will be fully redeemed in cash at face value at the maturity date. The bonds were listed on the Taipei Exchange on November 22, 2023.
 - (b) The bondholders have the right to ask for conversion of the bonds into common shares of Shinfox Energy Co., Ltd. during the period from the date after three months of the bonds issue to the maturity date, except for the stop transfer period as specified in the terms of the bonds or the laws/regulations. The rights and obligations of the new shares converted from the bonds are the same as the issued and outstanding common shares.
 - (c) The conversion price of the convertible bonds was made in accordance with the pricing model as specified in the terms of conversion. The conversion price was NT\$114 per share at the issuance date of the bonds.
 - (f) Shinfox Energy Co., Ltd. may repurchase all the bonds outstanding in cash at the bonds' face value at any time after the following events occur: (i) the closing price of Shinfox Energy Co., Ltd.'s common shares is above the then conversion price by 30% for 30 consecutive trading days during the period from the date after three months of the bonds issue to 40 days before the maturity date, or (ii) the outstanding balance of the bonds is less than 10% of total initial issue amount during the period from the date after three months of the bonds issue to 40 days before the maturity date.
 - (e) Under the terms of the bonds, all bonds redeemed (including bonds repurchased from the Taipei Exchange), matured and converted are retired and not to be re-issued; all rights and obligations attached to the bonds are also extinguished.
- D. Regarding the issuance of convertible bonds of the Group's second-tier subsidiary, Shinfox Energy Co., Ltd., the equity conversion options were separated from the liability component in accordance with IAS 32. The call options embedded in bonds payable were separated from their host contracts and were recognised in 'financial assets at fair value through profit or loss' in net amount of \$3,900 in accordance with IFRS 9 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The effective interest rate of the bonds payable after such separation was 1.7688%.

(18) Long-term borrowings

Type of borrowings	Borrowing period and repayment term	Interest rate range	Unused credit line	December 31, 2023

A. In November 2020, the Group signed a medium-term syndicated revolving NTD credit facility agreement with the Bank of Taiwan as the lead bank. The terms of agreement are summarised below:

- Duration of loan: The loan period of the agreement was 5 years from the agreement signing date.
- Credit line and draw-down: The credit line was NT\$8,000,000, which can be drawn down in installments of at least NT\$100,000 thousand per draw-down.
- Principal repayment: The duration of each loan drawn down is either 90 days or 180 days at the Company's option. The Company, if without any default, may submit an application to the banks to draw down a new loan with principal equal to the original loan before its maturity, and the new loan is directly used to repay the original loan. The banks and the Company are not required to make remittances for such draw-down and repayment, which is viewed that the Company has received the new loan on the maturity of original loan.

- (d) Commitment: The Company should maintain the following financial ratios during the contract duration for semi-annual consolidated and annual consolidated financial statements:
 - i. Current assets to current liabilities ratio of at least 1:1;
 - ii. Liabilities not exceeding 200% of tangible net equity;
 - iii. Interest coverage of at least 400%; and
 - iv. Total equity of at least NT\$15,000,000 thousand.
 - (e) The loan period is decided by the borrower. The borrower may choose to early repay the loans during the contract period according to the syndicated loan contract.
- B. The Company entered into the borrowing contracts with Bank SinoPac, Taipei Fubon and Far Eastern International Bank, and the total credit line is \$4,300,000. As of December 31, 2023, the borrowings that have been used amounted to \$3,600,000. In the duration period of these contracts, the financial ratios in the semi-annual consolidated and annual consolidated financial statements shall be as follows:
- (a) Current assets to current liabilities ratio of at least 1:1;
 - (b) Liabilities not exceeding 200% of tangible net equity;
 - (c) Interest coverage of at least 400%; and
 - (d) Tangible net equity of at least NT\$15,000,000 thousand.
- C. The Group's subsidiary, FIT Holding, Foxlink Image and PQI, entered into the borrowing contracts with Bank SinoPac, Entie Commercial Bank, Yuanta Commercial Bank, Taishin International Bank and Far Eastern International Bank, and the total credit line is NT\$2,900,000. As of December 31, 2023, the borrowings that have been used amounted to NT\$1,281,000. In the duration period of these contracts, the financial ratios in the semi-annual consolidated and annual consolidated financial statements shall be as follows:
- (a) Current assets to current liabilities ratio of at 80% or above;
 - (b) Liabilities not exceeding 200% of tangible net equity;
 - (c) Financial gearing ratio should be below 75%;
 - (d) Interest coverage of at 3 to 4 times or above;
 - (e) Tangible net equity of at least NT\$1,500,000 thousand to NT\$8,000,000 thousand; and
 - (f) Net asset value of at least NT\$1,800,000 thousand.
- D. The long-term borrowing contract entered into by the Group's second-tier subsidiary, Foxwell Power, with Taishin International Bank on March 7, 2022 stipulates that the Group shall annually review the financial ratios to maintain a current assets to current liabilities ratio not less than 150%, liabilities not less than 200% of tangible net equity and a net asset value not less than \$800,000 before every July 31 during the loan period. Additionally, the Group is required to review the shareholding ratio of the ultimate parent company and the parent company on a semi-annual basis. As of December 31, 2022, the Group did not violate the terms of the above contract signed with the bank; As of December 31, 2023, the Group reclassified unpaid borrowings as current portion of long-term borrowings in accordance with the contract terms.

- E. The Group's subsidiary Foxwell Power entered into a syndicated contract for a credit line of \$1,750,000 with three syndicated banks including O-Bank, etc., on October 3, 2022, and the credit line was divided into Tranche A's and Tranche B's credit line. As of December 31, 2023 and 2022, the undrawn credit line was from Tranche A for both years. As the use of Tranche B is for the Company repaying the unsettled claim, Tranche A borrowings will be reclassified as Tranche B borrowings if the preconditions of the first drawing of Tranche A's credit line are satisfied. In addition, financial commitments relating to Tranche B are summarised as follows:
- (a) Foxwell Power committed to review the latest nine months' or twelve months' revenue from ancillary services on a semi-annual or annual basis after the site of the project has been qualified to trade on the energy trading platform and the first settlement amount of ancillary services revenue has been remitted to the reserve account. The interest rate will be adjusted by 0.1% if the cumulative number of times did not meet the above requirement of which the revenue reached 80% of the average monthly income listed in the "Estimated statement of annual gain and loss and cash flow".
 - (b) The Group committed to review the DSCR (Debt Service Coverage Ratio) semi-annually based on the revenue from ancillary services and the principal and interest amount for the last twelve months from the date the first monthly settlement amount of ancillary services revenue for the site of project has been remitted to the reserve account for a full twelve months. The Group should repay the principal in advance within three months or by other appropriate means as agreed by the management bank, so that the DSCR will not be lower than 1.1 times.
- F. The Group's subsidiary, Foxwell Energy, entered into the borrowing contracts with eleven banks including CTBC Bank, etc., on March 10, 2023, and the total credit line is \$6,720,000. In the duration period of these contracts, the Group shall semi-annually review the tangible net equity to not be less than \$6,000,000, and maintain the shareholding ratio of the parent company.

G. As of December 31, 2023, the borrowings that have been used amounted to as follows:

Company	Bank	Loan approval amounts (in thousands)	Amount of borrowings used as of December 31, 2023
Cheng Uei	Yuanta Commercial Bank Co., Ltd.	\$ 450,000	\$ 400,000

Note: The credit line was shared by short-term and long-term borrowings and were disclosed in the consolidation.

G. Information about the collateral that was pledged for the long-term borrowings is provided in Note 8.

(19) Pensions

A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labour Standards Act, covering all regular employees' service years prior to the enforcement of the Labour Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labour standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its

domestic subsidiaries would assess the balance in the aforementioned labour pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company and its domestic subsidiaries will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Present value of defined benefit obligations	(\$ 272,313)	(\$ 311,689)
Fair value of plan assets	<u>226,889</u>	<u>241,068</u>
Net defined benefit liability (shown as other non-current liabilities)	<u>(\$ 45,424)</u>	<u>(\$ 70,621)</u>

(c) Movements in net defined benefit liabilities are as follows:

	<u>Present value of defined benefit obligations</u>	<u>Fair value of plan assets</u>	<u>Net defined benefit liability</u>
<u>Year ended December 31, 2023</u>			
Balance at January 1	(\$ 311,689)	\$ 241,068	(\$ 70,621)

Benefit paid	18,304	(18,304)	
Paid pension	9,976	(215)	9,761
Balance at December 31	(\$ 311,689)	\$ 241,068	(\$ 70,621)

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2023	2022
Discount rate	1.20%~1.875%	1.25%~2.00%
Future salary increases	2.00%~5.00%	2.00%~5.00%

Future mortality rate was estimated based on the 5th Taiwan Standard Ordinary Experience Mortality Table. Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	\$ 3,880	(\$ 3,991)	(\$ 3,360)	\$ 3,314
<u>December 31, 2022</u>				
Effect on present value of defined benefit obligation	\$ 4,944	(\$ 5,093)	(\$ 3,701)	\$ 3,745

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- (f) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2024 amount to \$2,119.
- (g) As of December 31, 2023, the weighted average duration of that retirement plan is 8 to 17.9 years.

B.(a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a funded defined contribution pension plan (the “New Plan”) under the Labour Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labour Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Company’s Mainland China subsidiaries have a funded defined contribution plan. Monthly contributions are based on the employees’ monthly salaries (the contribution ratio for the years ended December 31, 2023 and 2022 is between 10.2%~21%) and wages to an independent fund administered by the government in accordance with the pension regulations. Other than the monthly contributions, the Group has no further obligations.

(c) The pension costs under the abovementioned defined contribution pension plan for the years ended December 31, 2023 and 2022 were \$906,506 and \$904,077, respectively.

(20) Share capital

A. As of December 31, 2023, the Company’s authorised common stock was \$7,000,000 (including 50,000,000 shares reserved for the issuance of employees’ warrants), and the issued and outstanding shares were 462,823,940 shares.

B. Treasury shares

Before becoming a subsidiary, Foxlink Image Technology Co., Ltd. held the parent's capital stock amounting to 27,503 thousand shares with a book value of \$272,066 for general investment purpose. For the year ended December 31, 2023, Foxlink Image Technology Co., Ltd. acquired 22,000 thousand shares with a book value of \$350,708 after the Company acquired control over Foxlink Image on October 1, 2018. As of December 31, 2023 and 2022, the detailed information of Foxlink Image's parent equity shares is as follows:

	December 31, 2023	December 31, 2022
Thousand shares	49,503	27,503
Book value	\$ 622,774	\$ 272,066

(21) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital reserve to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit unless the legal reserve is insufficient.

	2023					
	Share premium	Treasury share transactions	Difference between proceeds from acquisition or disposal of subsidiary and book value	Changes in ownership interests in subsidiaries	Change in net equity of associates accounted for using equity method	Total
At January 1	\$ 9,337,850	\$ 87,091	\$ 700,203	\$ 3,894	\$ 253,645	\$ 10,382,683

At December 31	<u>\$ 9,337,850</u>	<u>\$ 87,091</u>	<u>\$ 700,203</u>	<u>\$ 3,894</u>	<u>\$ 253,645</u>	<u>\$ 10,382,683</u>

(22) Retained earnings

A. Based on the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. The appropriation of remainder shall be proposed by the Board of Directors and be resolved by the shareholders.

The Board of Directors may, upon resolution adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors, distribute dividends and bonus, capital surplus or legal reserve, in whole or in part, in the form of cash. The above distribution is not subject to approval by the shareholders.

B. According to the Company's Articles of Incorporation, no more than 90% of the distributable retained earnings shall be distributed as stockholders' bonus and cash dividend distributed in any calendar year shall be at least 20% of the total distributable earnings in that year based on future capital expenditures budget and capital requirements.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.

D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

- (c) The amounts previously set aside by the Company as special reserve for the initial application of IFRSs amounted to \$665,206. Furthermore, the Company did not reverse special reserve to retained earnings for the years ended December 31, 2023 and 2022 as a result of the use, disposal or reclassification of related assets. As of December 31, 2023 and 2022, the amount of special reserve set aside for the initial application of IFRSs all amounted to \$665,206.
- E. (a) For the years ended December 31, 2023 and 2022, the Company recognised dividends distributed to owners amounting to \$1,127,119 and \$768,490, respectively. Details of the appropriation of 2022's and 2021's net income which was resolved at the stockholders' meeting on May 31, 2023 and June 21, 2022, respectively, are as follows:

	Year ended December 31, 2022		Year ended December 31, 2021	
	Amount	Dividend per share (in dollars)	Amount	Dividend per share (in dollars)
Legal reserve	\$ 153,911	\$ -	\$ 94,372	\$ -
Special reserve	(237,890)	-	565,304	-
Cash dividends	1,127,119	2.2	768,490	1.5
Total	<u>\$ 1,043,140</u>	<u>\$ 2.2</u>	<u>\$ 1,428,166</u>	<u>\$ 1.5</u>

- (b) The appropriation of 2023 earnings had been proposed by the Board of Directors on March 11, 2024. Details are summarized below:

	Year ended December 31, 2023	
	Amount	Dividend per share (NTD)
Legal reserve	\$ 117,296	\$ -
Special reserve	309,668	-
Cash dividends	1,024,654	2.0
Total	<u>\$ 1,451,618</u>	<u>\$ 2.0</u>

Information about earnings distribution of the Company as approved and proposed by the Board of Directors and resolved by the shareholders' will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(24) Operating revenue

A. Disaggregation of revenue from contracts with customers

The Group derives revenue from the transfer of goods over time and at a point in time in the following major product lines and generates related revenue in each reportable segment:

	Years ended December 31,	
	2023	2022
Systems and peripheral products	\$ 37,683,291	\$ 40,762,357
3C component	29,198,974	31,850,107
3C product retail	12,422,435	17,188,938
Energy service management	11,246,064	4,301,192
Total	<u>\$ 90,550,764</u>	<u>\$ 94,102,594</u>

B. Unfulfilled construction contracts

Aggregate amount of the transaction price allocated to and the year expected to recognise revenue for the unsatisfied performance obligations in relation to the contracted significant construction contracts as of December 31, 2023 and 2022 are as follows:

Year	Year expected to recognise revenue	Contracted amount (before tax)
December 31, 2023	2024~2025	\$ 41,439,682
December 31, 2022	2023~2025	50,750,368

C. Contract assets and contract liabilities

(a) The Group has recognised the following revenue-related contract assets and liabilities:

	December 31, 2023	December 31, 2022
Contract assets:		
Contract assets-construction contracts	<u>\$ 8,675,960</u>	<u>\$ 2,716,125</u>
	December 31, 2023	December 31, 2022
Contract liabilities:		
Contract liabilities-advance sales receipts	\$ 512,263	\$ 1,057,380
Contract liabilities-construction contracts	42,777	3,171
Contract liabilities-warranty with an extra fee	41,171	8,912
Contract liabilities-education training courses	18,611	18,404
	<u>\$ 614,822</u>	<u>\$ 1,087,867</u>
Contract liabilities-non-current:		
Contract liabilities-warranty with an extra fee	\$ 134,202	\$ 173,085
Contract liabilities-education training courses	32,975	50,901
Total	<u>\$ 167,177</u>	<u>\$ 223,986</u>

(b) Contract assets and liabilities recognised for the aforementioned construction contracts as at December 31, 2023 and 2022 are as follows:

	December 31, 2023	December 31, 2022
Aggregate costs incurred plus recognised profits	\$ 20,545,655	\$ 8,411,401
Less: Progress billings	(11,912,472)	(5,698,447)
Net balance sheet position for construction in progress	<u>\$ 8,633,183</u>	<u>\$ 2,712,954</u>
Presented as:		
Current contract assets	\$ 8,675,960	\$ 2,716,125
Current contract liabilities	(42,777)	(3,171)
Total	<u>\$ 8,633,183</u>	<u>\$ 2,712,954</u>

(c) Revenue recognised that was included in the contract liability balance at the beginning of the period:

	Years ended December 31,	
	2023	2022
Revenue recognised that was included in the contract liability balance at the beginning of the year	<u>\$ 774,889</u>	<u>\$ 224,879</u>

D. Please refer to Note 9 for the information of significant construction contracts of the Group.

(25) Net other income (expenses)

	Years ended December 31,	
	2023	2022
Gains on disposals of investments	<u>\$ 118,111</u>	<u>\$ -</u>

Other gains and losses	(43,535)	(56,504)
	<u>(\$ 313,702)</u>	<u>(\$ 523,402)</u>

(29) Finance costs

	Years ended December 31,	
	2023	2022
Bank borrowings	\$ 483,944	\$ 323,291
Corporate bonds	100,014	88,777
Lease liabilities	35,274	11,189
	<u>\$ 619,232</u>	<u>\$ 423,257</u>

(30) Expenses by nature

	Years ended December 31,	
	2023	2022
Employee benefit expense	\$ 12,896,773	\$ 13,487,044
Depreciation expense	3,760,839	3,424,016
Amortisation charges on intangible assets	140,150	78,470
Transportation expense	557,349	674,103
Advertising costs	95,732	65,855
Operating lease payments	141,567	109,211
	<u>\$ 17,592,410</u>	<u>\$ 17,838,699</u>

(31) Employee benefit expense

	Years ended December 31,	
	2023	2022
Wages and salaries	\$ 11,005,450	\$ 11,694,317
Pension costs	908,553	906,456
Labour and health insurance fees	617,171	544,165
Director's remuneration	8,000	10,000
Other personnel expenses	357,599	332,106
	<u>\$ 12,896,773</u>	<u>\$ 13,487,044</u>

- A. According to the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 6% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$231,145 and \$312,000, respectively; directors' and supervisors' remuneration was both accrued at \$8,000 and \$10,000, respectively. The aforementioned amounts were recognised in salary expenses.
- C. The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on the distributable profit of current period for the year ended December 31, 2023 and percentage as prescribed by the Company's Articles of Incorporation. The Board of Directors resolved the actual appropriation amounts of \$231,145 and \$8,000 and appropriated in cash in March 11, 2024.
- D. Employees' compensation and directors' and supervisors' remuneration of 2022 as resolved at the Board of Directors were in agreement with those amounts recognised in the profit or loss of 2022.
- E. Information about employees' compensation and directors' and supervisors' remuneration of the Company as approved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(32) Income tax

A. Income tax expense

(a) Components of income tax expense:

	Years ended December 31,	
	2023	2022
Current tax:		
Tax payable incurred in current year	\$ 1,127,199	\$ 989,167
Tax on undistributed surplus earnings	29,268	4,904
Prior year income tax (over) under estimation	(24,920)	47,279
Total current tax	<u>1,131,547</u>	<u>1,041,350</u>
Deferred tax:		
Origination and reversal of temporary differences	(97,068)	275,744
Total deferred tax	<u>(97,068)</u>	<u>275,744</u>
Income tax expense	<u>\$ 1,034,479</u>	<u>\$ 1,317,094</u>

(b) The income tax relating to components of other comprehensive income is as follows:

	Years ended December 31,	
	2023	2022

2014-2023	\$ 3,785,045	\$ 3,547,357	\$ 2,646,822	2024-2033

December 31, 2022				
Year incurred	Amount filed /assessed	Unused amount	Unrecognised deferred tax assets	Expiry year
2011-2022	\$ 3,406,188	\$ 3,150,618	\$ 2,466,819	2022-2032

E. The amounts of deductible temporary difference that are not recognised as deferred tax assets are as follows:

	December 31, 2023	December 31, 2022
Deductible temporary differences	<u>\$ 8,325</u>	<u>\$ 275,630</u>

- F. The latest year of the Company's and its domestic subsidiaries' income tax returns that have been assessed and approved by the Tax Authority is as follows:

	<u>Status of Assessment</u>
The Company, Suntain, Zhi De Investment, Darts, FII, FUII, FAT, WCT, DU Precision, Shinfox, Foxwell Energy, Foxwell Power, Studio A, Jing Jing, Straight A, VA, PSI, Shinfox Natural Gas, Elegant Energy, Eastern Rainbow Green Energy and Eastern Rainbow Environmental	Assessed and approved up to 2021
Foxlink Image, PQI, Glory Science and FIT Holding	Assessed and approved up to 2018
G. The Group has applied the exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.	
H. The Group's exposure to Pillar Two income taxes arising from the Pillar Two legislation is as follows:	
(a) The Group is within the scope of the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (OECD).	
(b) Since Pillar Two legislation was enacted in Vietnam, the jurisdiction in which the Group's subsidiaries are incorporated, and will come into effect from January 1, 2024, the Group has no related current tax exposure as of December 31, 2023.	
(c) Under the Pillar Two legislation, the Group is liable to pay a top-up tax for the difference between its GloBE effective tax rate per jurisdiction and the 15% minimum rate.	
(d) The Group is in the process of assessing its exposure to the Pillar Two legislation for when it comes into effect. However, due to the complexities in applying the legislation and calculating GloBE income as well as the impact of specific adjustments envisaged in the Pillar Two legislation which give rise to different effective tax rates compared to those calculated in accordance with IAS 12, the quantitative impact of the enacted or substantively enacted legislation is not yet reasonably estimable. The Group is currently engaged with tax specialists to assist it with applying the legislation.	

(33) Earnings per share

	Year ended December 31, 2023		
	Amount after tax	Weighted average number of ordinary shares outstanding (share in thousands)	Earnings per share (in dollars)
<u>Basic earnings per share</u>			
Profit attributable to ordinary shareholders of the parent	\$ 1,457,132	471,542	\$ 3.09
<u>Diluted earnings per share</u>			
Profit attributable to ordinary shareholders of the parent	\$ 1,457,132	471,542	
Assumed conversion of all dilutive potential ordinary shares			
Employees' compensation	-	4,786	
Profit attributable to ordinary shareholders of the parent plus assumed conversion of all dilutive potential ordinary shares	\$ 1,457,132	476,328	\$ 3.06

	Year ended December 31, 2022		
	Amount after tax	Weighted average number of ordinary shares outstanding (share in thousands)	Earnings per share (in dollars)
<u>Basic earnings per share</u>			
Profit attributable to ordinary shareholders of the parent	\$ 1,522,518	484,824	\$ 3.14

Profit attributable to ordinary shareholders of the parent	\$ 1,522,518	484,824	
Assumed conversion of all dilutive potential ordinary shares			
Employees' compensation	-	6,353	
Profit attributable to ordinary shareholders of the parent plus assumed conversion of all dilutive potential ordinary shares	\$ 1,522,518	491,177	\$ 3.10

(34) Transactions with non-controlling interest

A. The Group did not participate in the capital increase raised by the second-tier subsidiary proportionally to its interest to the subsidiary.

(a) The second-tier subsidiary, Shinfox Energy Co., Ltd., and Foxwell Power Co., Ltd. increased its capital by issuing new shares in 2022. The Group did not acquire shares proportionally to its interest. As a result, the Group decreased its share interest by 3.01% and 18.77%, respectively. The transaction increased non-controlling interest by \$2,381,970 and increased

the equity attributable to owners of parent by \$109,969.

(b) The Group's second-tier subsidiary, Guanwei Power Co., Ltd., increased its capital by issuing new shares on July 5, 2023. The Group did not acquire shares proportionally to its interest. As a result, the Group decreased its share interest by 49%, and the transaction amounted was \$34,300. The transaction increased non-controlling interest by \$34,312 and decreased the equity attributable to owners of parent by \$12.

B. Disposal of equity interest in second-tier subsidiaries (that did not result in a loss of control)

The Group sold 2.67% equity interests of the second-tier subsidiary, Foxwell Power Co., Ltd., in December 2023, and the transaction amount was \$60,838. The transaction decreased non-controlling interest by \$51,081 and increased the equity attributable to owners of parent by \$9,757.

C. For the year ended December 31, 2023, the Group's second-tier subsidiary, Shinfox Energy Co., Ltd., had changes in equity due to the issuance of convertible bonds. The transaction decreased non-controlling interest by \$227,723 and increased the equity attributable to owners of parent by \$83,504.

(35) Business combinations

A. Elegant Energy TECH Co., Ltd. ("Elegant Energy")

(a) On February 14, 2022, the Group acquired 100% of the share capital of Elegant Energy for \$200,000 and obtained control over Elegant Energy. As a result of the acquisition, the Group is expected to increase its presence in the land-based wind market.

(b) The following table summarises the consideration paid for Elegant Energy and the fair values of the assets acquired and liabilities assumed at the acquisition date:

	<u>February 14, 2022</u>
Purchase consideration	
Cash	\$ 200,000
Fair value of the identifiable assets acquired and liabilities assumed	
Cash	786
Other current assets	3,293
Intangible assets	197,637
Other current liabilities	(1,716)
Deferred tax liabilities:	(39,528)
Total identifiable net assets	<u>160,472</u>
Goodwill	<u>\$ 39,528</u>

(c) The allocation of purchase price due to acquisition of Elegant Energy was completed in the first quarter of 2022. The fair value of the acquired identifiable intangible assets and goodwill amounted to \$197,637 and \$39,528, respectively.

(d) The operating revenue included in the consolidated statement of comprehensive income since February 14, 2022 contributed by Elegant Energy was \$1,998. Elegant Energy also contributed profit before income tax of \$1,990 over the same period. Had Elegant Energy

been consolidated from January 1, 2022, the consolidated statement of comprehensive income would show operating revenue of \$94,103,343 and profit before income tax of \$3,407,578.

B. Eastern Rainbow Green Energy Environmental Technology Co., Ltd. (“Eastern Rainbow Green Energy”)

- (a) On October 6, 2023, the Group subscribed to the newly issued common shares of Eastern Rainbow Green Energy in cash amounting to \$218,020. The Group held 56.63% equity interests in Eastern Rainbow Green Energy and had control over Eastern Rainbow Green Energy after the subscription.
- (b) The allocation of the acquisition price of Eastern Rainbow Green Energy was completed in the fourth quarter of 2023. The fair value of the identifiable intangible assets acquired and goodwill amounted to \$716 and \$9,519, respectively.
- (c) The operating revenue included in the consolidated statement of comprehensive income since October 6, 2023 contributed by Eastern Rainbow Green Energy was \$67,503. Eastern Rainbow Green Energy also contributed loss before income tax of (\$23,557) over the same period. Had Eastern Rainbow Green Energy been consolidated from January 1, 2023, the consolidated statement of comprehensive income would show operating revenue of \$241,902 and loss before income tax of (\$59,035) for the year ended December 31, 2023.

C. Shinfox Far East Company Pte. Ltd. (“SFE”)

- (a) The Group originally held 40% equity interest in SFE before the business combination, and the Group acquired an additional 27% equity interests in SFE in cash amounting to \$1,649,347 on November 6, 2023. After the acquisition, the Group totally held 67% equity interests in SFE and had control over SFE. The Group recognised gain on remeasurement of fair value amounting to \$45,025 (shown as ‘other gains and losses-gain on disposal of investment’).
- (b) The allocation of the acquisition price of SFE was completed in the fourth quarter of 2023. The fair value of the acquired goodwill amounted to \$49,878.
- (c) The operating revenue included in the consolidated statement of comprehensive income since November 6, 2023 contributed by SFE was \$522,429. SFE also contributed loss before income tax of (\$92,246) over the same period. Had SFE been consolidated from January 1, 2023, the consolidated statement of comprehensive income would show operating revenue of \$1,875,937 and loss before income tax of (\$491) for the year ended December 31, 2023.

D. The following table summarises the consideration paid for Eastern Rainbow Green Energy and the fair values of the assets acquired and liabilities assumed at the acquisition date:

	Eastern Rainbow Green Energy	SFE
Purchase consideration		
Cash paid	\$ 218,020	\$ 663,097
The fair value of the equity previously held as of the acquisition date	-	986,250
The non-controlling interest's proportionate share of the recognised amounts of acquire's identifiable net assets	159,688	787,798
	<u>377,708</u>	<u>2,437,145</u>
Fair value of the identifiable assets acquired and liabilities assumed		
Cash	273,914	225,447
Other current assets	284,856	396,034
Property, plant and equipment	38,072	2,038,523
Intangible assets	716	-
Deferred tax assets	34,144	-
Other non-current assets	9,209	14,451
Other current liabilities	(237,750)	(278,405)
Deferred tax liabilities	(2,710)	-
Other non-current Liabilities	(32,262)	(8,783)
Total identifiable net assets	<u>368,189</u>	<u>2,387,267</u>
Goodwill	<u>\$ 9,519</u>	<u>\$ 49,878</u>

(36) Supplemental cash flow information

A. Investment activities with partial cash payments:

	Years ended December 31,	
	2023	2022
Purchase of property, plant and equipment	\$ 3,651,410	\$ 2,603,213
Add: Opening balance of payable on equipment	514,893	447,305
Less: Ending balance of payable on equipment	(749,489)	(514,893)
Less: Capitalisation of interest expense	(47,797)	(4,343)
Cash paid during the period	<u>\$ 3,369,017</u>	<u>\$ 2,531,282</u>

- B. The Group sold 58.50% of its shares in the subsidiary, Junezhe, on December 27, 2022 and therefore lost control over the subsidiary (please refer to Note 4(3)B.). The details of the consideration received from the transaction (including cash and cash equivalents) and assets and liabilities relating to the subsidiary are as follows:

	<u>December 27, 2022</u>
Consideration received	
Cash	\$ 134,550
Carrying amount of assets and liabilities of Junezhe	
Cash	11,788
Accounts receivable	16,790
Other current assets	1,091
Property, plant and equipment	173,333
Accounts payable (including related parties)	(4,013)
Other payables	(3,587)
Current tax liabilities	(7,081)
Other current liabilities	(17)
Total net assets	<u>\$ 188,304</u>

- C. The Group sold 100% of share in subsidiary Diwei Power Co., Ltd. and Liangwei Power Co., Ltd. on December 25, 2023 and therefore lost control over the subsidiary (please refer to Note 4(3) B.). The details of the consideration received from the transaction (including cash and cash equivalents) and assets and liabilities relating to the subsidiary are as follows:

	<u>Diwei Power</u>	<u>Liangwei Power</u>
Consideration received		
Cash	\$ 77,297	\$ 163,175
Carrying amount of the assets and liabilities		
Cash	4,362	8,716
Other current assets	21,819	26,243
Property, plant and equipment	102,700	160,452
Short-term notes and bills payable	(76,587)	(94,490)
Other current liabilities	(16,353)	(14,501)
Total net assets	<u>\$ 35,941</u>	<u>\$ 86,420</u>

(37) Changes in liabilities from financing activities

2023						
	Short-term borrowings	Short-term notes and bills payable	Corporate bonds payable	Long-term borrowings	Lease liabilities	Liabilities from financing activities - gross
At January 1	\$ 9,550,241	\$ 1,789,159	\$ 6,582,374	\$ 16,096,464	\$ 977,569	\$ 34,995,807

7. RELATED PARTY TRANSACTIONS

(1) Names of related parties and relationship

Names of related parties	Relationship with the Group
Well Shin Technology Co., Ltd. (Well Shin)	Associate
Sharetronic Data Technology Co., Ltd. (Sharetronic)	Associate
Microlink Communications Inc. (Microlink)	Associate
Central Motion Picture Corporation (Central Motion Picture)	Associate
Deepwaters Digital Support Inc. (Deepwaters)	Associate
Dongguan Banrin Robot Technology Co., Ltd. (Banrin)	Associate
Synergy Co., Ltd. (Synergy)	Associate
Cheng Shin Digital Co., Ltd. (Cheng Shin Digital)	Associate
Changpin Wind Power Ltd.(Changpin)	Joint venture (Note 1)
Shin Hon International Investment Co., Ltd. (SHIN HON)	Other related party
Hon Hai Precision Industry Co., Ltd. (Hon Hai)	Other related party
Chern Feng Engineering Tech Co., Ltd. (Chern Feng)	Formerly other related party (Note 2)

Note 1: The Group acquired the investment accounted for using equity method in the second quarter of 2022, so it is listed as a related party.

Note 2: Chern Feng was the Group's related party because Chern Feng was the major shareholder of the Group's subsidiary - Junezhe. However, the Group disposed all the equity interest in Junezhe on December 27, 2022. As a result, Chern Feng was no longer a related party of the Group starting from December 27, 2022.

(2) Significant related party transactions

A. Operating revenue

	Years ended December 31,	
	2023	2022
-Associates	\$ 151	\$ 9,270
-Joint ventures	133,354	60,000
-Other related parties	729,715	809,822
	<u>\$ 863,220</u>	<u>\$ 879,092</u>

(a) The sales price in relation to the transaction made with related parties is based on mutual agreement. All the credit terms on sales to related parties were receivable within 4 to 6 months after sales. The credit terms on sales to third parties were 30 to 120 days after monthly billing or by telegraphic transfer upon shipment of goods, except for receivables arising from the sales of tooling that are collectible upon acceptance by customers.

(b) The Group's sales of services to the abovementioned related parties refer to construction revenue and service revenue from contracts such as electricity sales revenue charged from the contracted construction agreements, contracted agreements for development, design, manufacture and supervision of construction and the operation and maintenance contract for wind turbine generator system (WTGS) entered with other related parties, and the transaction price and credit terms are the same with the market situation or the general customers.

B. Operating costs

(a) Purchase

	Years ended December 31,	
	2023	2022
Purchases of goods:		
- Associates	\$ 249,244	\$ 393,253
- Other related parties	642,049	1,064,707
	<u>\$ 891,293</u>	<u>\$ 1,457,960</u>

The purchase price in relation to the transaction made with related parties is based on mutual agreement. All purchases from related parties are at arm's-length. Payment period was 60 to 120 days after receipt of goods from suppliers.

(b) Construction cost

	Years ended December 31,	
	2023	2022
Construction cost		
- Other related parties	\$ 1,225	\$ -
- Formerly other related parties	-	60,007
	<u>\$ 1,225</u>	<u>\$ 60,007</u>

Except for construction cost which is calculated based on the construction contract entered into using market quotes, other payments of the transactions between the Group and the abovementioned related parties are calculated based on mutual agreement and paid monthly.

C. Rental revenue

	Years ended December 31,	
	2023	2022
Associates	<u>\$ 48,273</u>	<u>\$ -</u>

D. Receivables from related parties

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Accounts receivable:		
- Other related parties	\$ 350,624	\$ 339,390
- Joint ventures	5,250	-
- Associates	78,005	74,797
	<u>\$ 433,879</u>	<u>\$ 414,187</u>
Other receivables (Financing):		
- Associates		
Microlink	\$ 55,000	\$ 55,000
Other receivables (Others):		
- Associates	6,338	11,184
- Other related parties	1,481	364
	<u>\$ 62,819</u>	<u>\$ 66,548</u>

Other receivables (Other) mainly refer to the rental income received from related parties, and the collection terms are based on mutual agreement.

E. Payables to related parties:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Accounts payable:		
- Associates	\$ 69,920	\$ 123,552
- Other related parties	74,685	57,572
	<u>\$ 144,605</u>	<u>\$ 181,124</u>
	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Other payables-Receipts under custody:		
- Associates	\$ 20,341	\$ 20,476
- Other related parties	-	-
	<u>\$ 20,341</u>	<u>\$ 20,476</u>

F. Property transactions

Acquisition of property, plant and equipment

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
- Associates	<u>\$ 21,267</u>	<u>\$ -</u>

The Company purchased equipment from the associates and the payment terms were determined based on mutual agreements.

G. Lease transactions - lessee

(a) The Group leases buildings from related parties. Rental contracts are typically made for periods of 3 years. Rents are paid at the end of the month.

(b) Acquisitions of right-of-use assets

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
Associates	<u>\$ 28,314</u>	<u>\$ 4,654</u>

(c) Lease liability

i. Outstanding balance:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Associates	\$ 28,312	\$ 9,011
Other related parties	4,550	13,542
	<u>\$ 32,862</u>	<u>\$ 22,553</u>

ii. Interest expense

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
Associates	\$ 70	\$ 358
Other related parties	151	294
	<u>\$ 221</u>	<u>\$ 652</u>

(3) Key management compensation

	Years ended December 31,	
	2023	2022
Short-term employee benefits	\$ 178,537	\$ 218,468
Post-employment benefits	2,857	2,732
Total	<u>\$ 181,394</u>	<u>\$ 221,200</u>

8. PLEDGED ASSETS

The Group's assets pledged as collateral are as follows:

Pledged asset	Book value		Purpose
	December 31, 2023	December 31, 2022	
Property, plant and equipment	\$ 1,278,790	\$ 2,637,959	Short-term notes and bills, long-term borrowings, debt mortgage guarantee
Right-of-use assets	23,491	198,125	Debt mortgage guarantee
Restricted deposits and time deposits-current (shown as financial assets at amortised cost-current)	2,080,672	2,848,235	Customs deposit, guarantee for L/C issued for purchases of materials, government grants coupon trust, construction performance security deposit, short-term borrowings and guaranteed bill
Refundable deposits (shown as other current assets)	1,001,654	999,711	Construction performance security deposit, performance security deposit
Restricted deposits and time deposits-non-current (shown as financial assets at amortised cost-non-current)	701,061	450,052	Reserve account, development deposit and guarantee for bonds
Refundable deposits (shown as other non-current assets)			Customs deposit, plant deposit and rental performance security deposit, security deposit and Electrical energy performance security deposit
	609,687	642,607	
	<u>\$ 5,695,355</u>	<u>\$ 7,776,689</u>	

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

(1) Contingencies

A. The Group's subsidiary, Shih Fong Power Co., Ltd. ("Shih Fong"), carried out the "Shih Fong Power's FongPing River and Its Tributary Hydroelectric Project" (the "Project") in Hualien County and planned to build a weir in FongPing River for hydropower plants to generate electricity. Since 2000, the Company has successively obtained the permit to build the infrastructure as an electricity enterprise and the work permit to operate power generation equipment as an electricity enterprise (the "Work Permit"). As the construction was unable to be completed on time, an extension was applied for according to the law year by year and the Work Permit was obtained as approved and issued by the Ministry of Economic Affairs. Certain litigations that ensued during the period of application for the renewal of the Work Permit were as follows:

(a) Administrative appeal

The local indigenous peoples (the “Petitioners”) filed a petition on May 14, 2021 with the Administrative Appeals Committee of the Executive Yuan (AAC), requesting “the suspension of the Project” and “the revocation of work permit in 2021 issued by the Ministry of Economic Affairs”. Regarding the dispute with the former, the administrative appeal was dismissed from the AAC on May 31, 2021; and regarding the dispute with the latter, the decision of administrative appeal was rendered by the AAC on March 3, 2022 and the original administrative action was revoked.

In accordance with the decision of the AAC, the Ministry of Economic Affairs sent a letter to Shih Fong on March 10, 2022, ordering it to consult and obtain consent and participation from the indigenous peoples or tribes. Shih Fong disagreed with the judgement and filed an administrative litigation according to the law on April 29, 2022, requesting the Executive Yuan to revoke the decision of administrative appeal of Shih Fong’s Work Permit in 2021. Currently, the case trial has been initiated by the court on November 9, 2022. However, as of the reporting date, the judgement had not been made.

(b) Administrative litigation

The Petitioners disagreed with the decision of dismiss on May 31, 2021 by the AAC and filed an administrative litigation with the Taipei High Administrative Court (THAC). On December 3, 2021, the THAC rendered a judgement that the Project is suspended until the administrative litigation is finalised. The Ministry of Economic Affairs and Shih Fong disagreed with the abovementioned judgement and filed an counterappeal with the Supreme Administrative Court (SAC). On March 31, 2022, the SAC revoked the original verdict, excluding certain final judgements.

However, in order to conduct the construction smoothly in the future and respect the will of local peoples, Shih Fong sent a letter to the Zhuoxi Township Office on April 7, 2022, requesting it to consult and obtain consent from the tribes. Shih Fong completed relevant tribal consultation and obtained a majority of consent in December 2022 and sent a letter to the Bureau of Energy to report the results of the tribal consultation. The Company had obtained the renewal Work Permit in 2021 and 2022 in December 2022 and the Work Permit in 2023 was renewed by the Ministry of Economic Affairs in February 2023 which will be valid until December 31, 2023. The Petitioners disagreed with the issuance of the Work Permit in 2023 by the Ministry of Economic Affairs and requested for a suspension until the administrative litigation is finalised. On September 28, 2023, the Supreme Court issued a ruling that “the execution shall be stayed until the administrative litigation is concluded and the certain litigation expenses shall all be abandoned.” Shih Fong had obtained the renewal Work Permit between 2024 and 2026 in February 2024 which will be valid until December 31, 2026.

B. The Group’s subsidiary, Fugang Electric (Maanshan) Co., Ltd.(“FG MAANSHAN”), a subsidiary of the Group, has a lawsuit with Maanshan Economic and Technological Development Zone

Construction Investment Co., Ltd. On November 19, 2021, Ma'anshan Intermediate People's Court in Anhui Province rendered a first-instance decision pursuant to the Articles 201 and 206 of "Contract Law of The People's Republic of China", Articles 26 and 53 of "Guarantee Law of The People's Republic of China", Article 26 of "Provisions of the Supreme People's Court on Certain Issues concerning Application of Law in Trial of Cases involving Private Lending" and Article 142 of "Administrative Procedure Law of the People's Republic of China", and affirmed that FG MAANSHAN shall pay principal amounting to RMB 274,450 thousand and interest amounting to RMB 139,488.9 thousand, based on the principal agreed in the court's judgement and interest calculated until the date when the principal is fully repaid, to Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. within 30 days from the effective date of this judgement. If the payments are not repaid on time, Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. has the priority right to obtain compensation by converting the properties pledged by FG MAANSHAN into money or seek preferential payments from the proceeds from the auction or sale of the properties concerned. On December 7, 2021, FG MAANSHAN filed a second instance appeal with the Higher People's Court of Anhui Province to request to modify or remand the decision according to the first instance. Trials of the case had been initiated by the Higher People's Court of Anhui Province on May 11, 2022. On October 14, 2022, FG MAANSHAN and Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. signed the settlement agreement, and on October 18, 2022, both parties reached a settlement in Anhui Ma'anshan Intermediate People's Court. Based on the agreement, FG MAANSHAN should repay the borrowing principal from Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. in the amount of RMB 31.44 million before October 31, 2022. The residual of RMB 333.96 million should be repaid by using right-of-use assets, property and all buildings and affiliated facilities in relation to property on the accounts of FG MAANSHAN, and the actual written transfer procedures should be completed before January 20, 2023. Because of the settlement agreement, FG MAANSHAN was responsible for the loss on disposal of assets transferred and indemnity in the amount of RMB 179.25 million (accounted as other gains and losses in 2022). As of December 31, 2023, the Company had transferred the properties and land use rights based on the contract. However, due to a procedural problem, certain properties and use rights (approximately RMB 69.92 million) would be transferred after the completion of the procedure based on mutual agreement. As of January 22, 2024, the procedure was completed.

On March 17, 2022, Fugang Electric (Maanshan) Co., Ltd. filed an administrative litigation with the Ma'anshan Intermediate People's Court in Anhui Province against the People's Government of Ma'anshan Municipality, the Administrative Committee of Ma'anshan Economic and Technological Development Zone and Maanshan Economic and Technological Development Zone Construction Investment Co., Ltd. pursuant to Article 12 of the "Administrative Procedure Law of the People's Republic of China". Fugang Electric (Maanshan) Co., Ltd., received the

dismissal of the administrative litigation by the Ma'anshan Intermediate People's Court in Anhui Province on May 6, 2022 and filed an appeal to the Ma'anshan Higher People's Court in Anhui Province on May 13, 2022. The administrative litigation has been filed as a case by the Ma'anshan Higher People's Court in Anhui Province on July 6, 2022. Additionally, on August 8, 2022, the Ma'anshan Higher People's Court in Anhui Province denied the appeal and upheld the original administrative litigation. According to the judgement, on August 24, 2022, FG MAANSHAN filed a motion for a retrial with Supreme People's Court, and on October 10, 2022, the case had been filed. Because the litigants had reached a settlement, on October 31, 2022, FG MAANSHAN withdrew the motion.

- C. The Group's subsidiary, Foxwell Energy Corporation Ltd. ("Foxwell Energy"), entered into a 'Transportation and Installment Contract of Wind Turbines in Wind Farm Site No. 26' with a Singapore contractor, Teras Offshore Pte. Ltd. As the contractor failed to submit the essential documents within the time frame prescribed in the contract, Foxwell Energy has the right to revoke the contract and has notified the contractor in writing of the termination of the contract. After receiving the written notice from Foxwell Energy, the contractor entrusted a lawyer on December 11, 2021 to request for compensation from Foxwell Energy, and state that it will refer the matter to arbitration if the compensation is not paid. On December 24, 2021, Foxwell Energy also appointed a lawyer to send a letter stating that it was a lawful termination of the contract and it reserves the right to claim compensation from the contractor. As of March 11, 2024, Foxwell Energy has not yet received the notice of arbitration submitted by the contractor to the arbitration institution, and the termination of the contract has no impact on the original construction contract and subsequent performance obligations.
- D. The Group's subsidiary, Foxlink International, Inc. ("Foxlink"), originally has a lawsuit with Azooca, Inc ("Azooca"). Azooca filed a lawsuit against Foxlink on February 9, 2021 and claimed a compensation of US\$6 million for the development of interactive game product in 2015. Foxlink filed a counterclaim on March 15, 2021 and requested a compensation of US\$821,800. However, on August 25, 2023, the parties entered into a settlement agreement and the related litigation was revoked by both parties, thus the litigation was concluded.
- E. The Group's subsidiary, Elegant Energy TECH Co., Ltd., was commissioned by VAI Renewables Co., Ltd. to develop a wind farm. As there are objections over the development process of the wind farm, VAI Renewables Co., Ltd. has filed a claim for reimbursement to the Company's subsidiary, Elegant Energy TECH Co., Ltd., for approximately \$33,593, which has not yet started trial proceedings, and it is not possible to anticipate the outcome of the court trial.

(2) Commitments

A. Capital expenditure contracted for at the balance sheet date but not yet incurred is as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Equipment purchase contract		
Contract price	<u>\$ 2,809,411</u>	<u>\$ 2,504,383</u>
Outstanding amount	<u>\$ 719,229</u>	<u>\$ 668,407</u>
	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Construction contract		
Contract price	<u>\$ 44,455,932</u>	<u>\$ 38,700,551</u>
Outstanding amount	<u>\$ 28,075,259</u>	<u>\$ 28,572,525</u>

- B. As of December 31, 2023 and 2022, the letters of guarantee to be issued by the bank, which are required for contracting the Phase II of Taipower's Offshore Wind Power Project, the "Wind Farm Property Procurement and Installation Project", all amounted to \$5,400,000, of which the amounts of collateral pledged by the Group to the banks (shown "as financial assets at amortised cost") were all \$1,620,000, the amounts of endorsements and guarantees provided by the Group's subsidiary, Shinfox Energy Co., Ltd., were all \$3,780,000, and the amounts of collateral pledged by using the letters of guarantee issued by the subcontractor were all \$1,608,370.
- C. Except as described in Note 9(2) B., the Group's subsidiary, Shinfox Energy Co., Ltd., provided performance guarantee on the subcontracted construction and the credit line on the guaranteed amount to the Group's subsidiary, Foxwell Energy Corporation Ltd., amounting to \$19,786,950 and \$12,762,997 as of December 31, 2023 and 2022, respectively.
- D. As of December 31, 2023 and 2022, the letters of guarantee to be issued by the bank, which are required for contracting the Solar System Integration Project, amounted to \$150,519 and \$75,144, respectively.
- E. On August 13, 2020, the Group entered into an equipment procurement contract and an operation and maintenance contract with Taiwan Power Company for the Phase II of Taipower's Offshore Wind Power Project, and the "Wind Farm Property Procurement and Installation Project" amounting to \$56,588,000 and \$6,300,000, respectively. The terms of the equipment procurement contract specifies that the Company shall complete the foundation construction for wind turbine generator system and offshore substation as of September 30, 2024, shall complete all wind turbine generator system which shall be under the security constrained dispatch process as of September 30, 2025, shall complete the whole construction as of December 31, 2025 and shall provide 2 years warranties from the date of completion and acceptance of the whole construction. In addition, the equipment shall provide guaranteed generating capacity. The performance term of this project is divided into stages progress and the final completion deadline. The default penalty shall be computed until the termination date of the contract according to each stage of the project. The operation and maintenance contract specifies the terms such as the guaranteed annual availability

and default penalty of all wind turbine generator system as well as the relevant rights and obligations of both parties. The contract period is 5 years from the time when all wind turbine generator system are under the security constrained dispatch process. As of December 31, 2023, the construction was constructed as scheduled, and no compensation loss was made due to overdue construction.

- F. The Group entered into an operation and maintenance contract with customers for wind turbine generator system and solar energy equipment. The contract specifies the terms such as the bonus and penalty of operation and maintenance which are calculated based on ceiling and floor guaranteed generating capacity as well as the relevant rights and obligations of both parties. The contract period is for 20 years from the parallel connection date.

10. SIGNIFICANT DISASTER LOSS

The plant of the Group's subsidiary, FOXLINK INDIA ELECTRIC PRIVATE LIMITED, in Tirupati, India sustained a fire damage on February 27, 2023, resulting in losses on certain equipment and inventories. The disaster losses on the equipment and inventories amounted to \$249,584 and \$302,830, respectively, totalling \$520,642. For the aforementioned loss on the fire, the amount of claim that can be obtained from the insurance company is \$520,642 and the relevant loss and estimated insurance claim income will be shown as 'other gains and losses'.

11. SIGNIFICANT SUBSEQUENT EVENTS

- (1) Details of the appropriation of 2023 earnings as resolved by the Board of Directors on March 11, 2024 are provided in Note 6(22).
- (2) On March 11, 2024, the Board of Directors of the Company resolved to grant short-term financings to the second-tier subsidiary, Shinfox, to meet working capital needs. The loan facility is NT\$1.5 billion. The loan is repayable according to the agreement, and interest is repayable at an annual interest of 8%.
- (3) On February 27, 2024, the Board of Directors of the Group resolved to provide endorsements and guarantees for the investee company, Changpin Wind Power Ltd. by pledging the shares of Changpin Wind Power Ltd. to Bank SinoPac with the 50% shareholding ratio of which the value amounted to \$120,000 to apply for a project financing facility.
- (4) On February 27, 2024, the Board of Directors of the Group resolved to provide an endorsement and guarantee for the subsidiary, SFE, with the credit line within the limit of US\$100 million (equivalent to approximately NT\$3.15 billion) to financial institutions.
- (5) On February 27, 2024, to meet the needs of the Group's subsidiary, SFE, for purchasing heavy lifting vessels, the Board of Directors of the Group resolved to provide short-term financing facilities with a borrowing amount of \$1,500,000 and the interest is repayable monthly at an annual interest rate of 8%.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a

going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the actual financial condition.

(2) Financial instruments

A. Financial instruments by category

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
<u>Financial assets</u>		
Financial assets at fair value through profit or loss		
Financial assets mandatorily measured at fairvalue through profit or loss	<u>\$ 5,167</u>	<u>\$ -</u>
Financial assets at fair value through other comprehensive income		
Designation of equity instrument	<u>\$ 1,345,307</u>	<u>\$ 1,521,378</u>
Financial assets at amortised cost/loans and receivables		
Cash and cash equivalents	14,844,796	11,431,070
Financial assets at amortised cost	3,619,239	3,366,327
Notes receivable	53,933	59,703
Accounts receivable	18,142,817	18,419,850
Other receivables	509,659	595,359
Guarantee deposits paid	<u>1,611,341</u>	<u>1,642,318</u>
	<u>\$ 38,781,785</u>	<u>\$ 35,514,627</u>
<u>Financial liabilities</u>		
Financial liabilities at amortised cost		
Short-term borrowings	\$ 9,890,697	\$ 9,550,241
Short-term notes and bills payable	4,085,520	1,789,159
Notes payable	32,677	657
Accounts payable	15,914,236	15,833,624
Other accounts payable (including current portion)	5,766,392	6,108,349
Corporate bonds payables	6,585,954	6,582,374
Long-term borrowings (including current portion)	18,079,707	16,096,464
Guarantee deposits received	<u>56,801</u>	<u>41,082</u>
	<u>\$ 60,411,984</u>	<u>\$ 56,001,950</u>
Lease liability	<u>\$ 2,158,295</u>	<u>\$ 977,569</u>

B. Risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Group treasury) under

policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Group hedges foreign exchange rate by using forward exchange contracts. However, the Group does not adopt hedging accounting. Details of financial assets or liabilities at fair value through profit or loss are provided in Note 6(2).
- iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB and HKD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2023		
	Foreign currency		
	amount		Book value
	(In thousands)	Exchange rate	(NTD)
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 478,365	30.71	\$ 14,690,589
RMB:NTD	80,980	4.33	350,643
HKD:NTD	46,424	3.93	182,446
EUR:NTD	832	33.98	28,271

USD : HKD	4,152	7.80	127,508

- v. The total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2023 and 2022 amounted to (\$34,063) and \$374,682, respectively.

vi. Analysis of foreign currency market risk arising from significant foreign exchange variation:

Year ended December 31, 2023				
Sensitivity Analysis				
	Degree of variation		Effect on profit or loss	Effect on other comprehensive income

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise domestic or foreign listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant. Other components of equity for the years ended December 31, 2023 and 2022 would have increased by \$10,762 and \$12,171, respectively, as a result of gains/losses on equity securities other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. The Group's interest rates of borrowings are fixed and floating rate. For the years ended December 31, 2023 and 2022, the Group's borrowings issued by floating rate are priced in New Taiwan dollars, Renminbi and US dollar.

- ii. As of December 31, 2023, and 2022, if interest rates on borrowings at that date had been 1% lower/higher with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have been \$256,447 and \$219,487 lower/higher, respectively, mainly as a result of higher interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. Group treasury manages credit risk of cash in banks and other financial instruments based on the Group's credit policy. Because the Group's counterparties are determined based on the Group's internal control, only rated banks with an optimal rating and financial institutions with investment grade are accepted.
- iv. The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition. If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
The Group adopts the assumptions under IFRS 9 and considers the industry characteristics, the default occurs when the contract payments are past due over 120 days.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganisation due to their financial difficulties;
 - (ii) A breach of contract.
- vi. The Group classifies customers' accounts receivable in accordance with customer types. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.

vii. The Group used the forecastability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. As of December 31, 2023 and 2022, the provision matrix is as follows:

	Not past due	Up to 30 days past due	31~120 days past due	Over 120 days	Total
<u>At December 31, 2023</u>					
Expected loss rate	0.00%~4.41%	0.00%~13.56%	0.30%~46.01%	100%	
Total book value	\$ 16,959,836	\$ 634,671	\$ 162,334	\$ 21,940	\$ 17,778,781
Loss allowance	\$ 3,176	\$ 41,706	\$ 3,021	\$ 21,940	\$ 69,843
	Not past due	Up to 30 days past due	31~120 days past due	Over 120 days	Total
<u>At December 31, 2022</u>					
Expected loss rate	0.03%~0.12%	0.03%~9.69%	5.37%~70.70%	100%	
Total book value	\$ 17,161,008	\$ 751,389	\$ 184,216	\$ 35,800	\$ 18,132,413
Loss allowance	\$ 16,231	\$ 64,829	\$ 9,890	\$ 35,800	\$ 126,750

viii. Movements in relation to the group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2023	2022
	Accounts receivable	Accounts receivable
At January 1	\$ 126,750	\$ 111,508
Provision for impairment loss	-	13,792
Reversal of impairment loss	(56,739)	-
Effect of foreign exchange	(168)	1,450
At December 31	<u>\$ 69,843</u>	<u>\$ 126,750</u>

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.

- ii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. Except that the carrying amounts of notes payable, accounts payable and other payables are approximate to the amounts of contractual undiscounted cash flows and those accounts will expire within a year, the amounts of financial liabilities disclosed in the table are the contractual undiscounted cash flows:

Non-derivative financial liabilities:

December 31, 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Between 3 and 5 years	Over 5 years
Short-term borrowings	\$ 9,955,096	\$ -	\$ -	\$ -	\$ -
Short-term notes and bills payable	4,265,200	-	-	-	-
Lease liabilities	420,078	368,855	300,463	488,230	776,444
Long-term borrowings (including current portion)	585,400	15,631,240	2,193,169	176,206	58,909
Corporate bonds payable (including current portion)	3,064,196	3,617,656	3,000,000	-	-

Non-derivative financial liabilities:

December 31, 2022	Less than 1 year	Between 1 and 2 years	Between 2 and 3 years	Between 3 and 5 years	Over 5 years
Short-term borrowings	\$ 9,838,606	\$ -	\$ -	\$ -	\$ -
Short-term notes and bills payable	1,791,564	-	-	-	-
Lease liabilities	290,251	154,081	89,995	163,709	430,047
Long-term borrowings (including current portion)	998,692	8,359,883	6,162,777	1,090,393	176,064
Corporate bonds payable (including current portion)	91,010	3,064,196	3,617,656	-	-

- iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's convertible bonds is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in non-hedging derivatives is included in Level 3.

B. Fair value information of investment property at cost is provided in Note 6(12).

C. Financial instruments not measured at fair value

Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, short-term notes and bills payable notes payable, accounts payable, other payables and long-term borrowings are approximate to their fair values.

December 31, 2023			
Book value	Fair value		
	Level 1	Level 2	Level 3
Financial liabilities:			
Bonds payable	\$ 9,600,000	\$ -	\$ 9,437,733
			\$ -
December 31, 2022			
Book value	Fair value		
	Level 1	Level 2	Level 3
Financial liabilities:			
Bonds payable	\$ 6,600,000	\$ -	\$ 6,582,374
			\$ -

D. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

December 31, 2023	Level 1	Level 2	Level 3	Total
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Equity securities	\$ 1,267	\$ -	\$ -	\$ 1,267
Financial assets at fair value through other comprehensive income				
Equity securities	321,535	-	1,023,772	1,345,307
Embedded derivatives				
Put options of convertible bonds	-	3,900	-	3,900
	<u>\$ 322,802</u>	<u>\$ 3,900</u>	<u>\$ 1,023,772</u>	<u>\$ 1,350,474</u>
December 31, 2022	Level 1	Level 2	Level 3	Total
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	\$ -	\$ -	\$ 1,521,378	\$ 1,521,378

E. The methods and assumptions the Group used to measure fair value are as follows:

- (a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>
Market quoted price	Closing price

- (b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- (c) When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- (d) The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate.
- (e) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- (f) The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.

F. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.

G. The following chart is the movement of Level 3 for years ended December 31, 2023 and 2022:

	2023	2022
	Equity securities	Equity securities
At January 1	\$ 1,521,378	\$ 1,116,311
Recorded as unrealised losses on valuation of investments in equity instruments measured at fair value through other comprehensive income	(146,819)	(42,267)
Acquired in the period	-	431,984
Transfers into in the period	170,591	-
Sold in the period	(169,942)	-
Decreased in the period	(14,755)	-
Transfers out in the period	(323,491)	-
Effect of exchange rate changes	(13,190)	15,350
At December 31	<u>\$ 1,023,772</u>	<u>\$ 1,521,378</u>

H. The information on the transfers into Level 3 for the years ended December 31, 2023 and 2022 is provided in Note 6(9).

I. Group treasury is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

J. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	December 31, 2023	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 1,023,772	Market comparable companies	Discount for lack of marketability	20%~50%	The higher the discount for lack of marketability, the lower the fair value
	Fair value at December 31, 2022	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument:					
Unlisted shares	\$ 1,521,378	Market comparable companies	Discount for lack of marketability	20%~30%	The higher the discount for lack of marketability, the lower the fair value

- K. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. For financial assets and liabilities categorised within Level 3, there is no significant impact to other comprehensive income on December 31, 2023 and 2022 if the net asset value increase or decrease by 1%.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

For the investees' information, refer to investees' independent accountant attestation report.

- A. Loans to others: Please refer to table 1.
- B. Provision of endorsements and guarantees to others: Please refer to table 2.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 4.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 5.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 6.
- I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Note 6(2).
- J. Significant inter-company transactions during the reporting periods: Please refer to table 7.

(2) Information on investees

For the information on investees, except for current profit (loss) for the year ended December 31, 2023 that is translated using the monthly average exchange rate in 2023, others are translated using the spot rate at December 31, 2023.

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 8.

(3) Information on investments in Mainland China

- A. Processing on order plant invested in Mainland China:

In 1997, the Company rented plants located in Shenzhen and Dongguan, Guangdong Province, Mainland China, respectively, through the investee, CU International Ltd. and operated the plants through processing on order. The plants were primarily engaged in the manufacture of electronic telecommunication components and electric wire, under Cu International Ltd. without their own corporate entity for the operating period ended December 2017. As of March 11, 2024, the plants are still under the cancellation process.

- B. Investee in Mainland China, main business activities, paid-in capital, investment method, amount remitted from Taiwan to Mainland China / amount remitted back to Taiwan, ownership, investment income (loss), investments in Mainland China as of December 31, 2023, book value, investment income remitted back and ceiling on investments in Mainland China: Please refer to table 9.
- C. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland China, and price, payment terms, unreleased income/loss and other related information relating to investments in Mainland China:
- (a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period:

Company name	General ledger account	Year ended December 31, 2023	
		Amount	Percentage of total amount
Dongguan Fuqiang Electronics Co., Ltd.	Purchases of goods	\$ 24,944,932	43%
Fugang Electronic (Dongguan) Co., Ltd.	Purchases of goods	\$ 15,438,851	26%
Fugang Electric (Xuzhou) Co., Ltd.	Purchases of goods	\$ 9,735,601	17%

Dongguan Fuqiang Electronics Co., Ltd.	Other receivables	\$ 17,846	-
Fuqiang Electric (Yancheng) Co., Ltd.	Other receivables	\$ 13,054	-
Fugang Electric (Yancheng) Co., Ltd.	Other receivables	\$ 477	-
Foxlink Tianjin Co., Ltd.	Other receivables	\$ 35	-

(4) Major shareholders information

Major shareholders information: Please refer to table 10.

14. SEGMENT INFORMATION

(1) General information

The Group has classified the reportable operating segments based on product types. The Company's operations and segmentation are both developed according to the product types. The current main product types are: 3C component, systems and peripheral products, 3C product retail and others.

(2) Measurement of segment information

The Board of Directors of the Group uses operating profit to measure the operating segments and as evaluation basis of the segments' performance.

(3) Segment information

The financial information of reportable segments provided to Chief Operating Decision-Maker is as follows:

Year ended December 31, 2023

	3C component department	Systems and peripheral products department	3C product retail department	Energy service management	Adjustments	Total
External Revenue	\$ 29,198,974	\$ 37,683,291	\$ 12,422,435	\$ 11,246,064	\$ -	\$ 90,550,764
Revenue from Internal Customers	2,289,116	985,355	-	2,094	(3,276,565)	-
Segment Revenue	\$ 31,488,090	\$ 38,668,646	\$ 12,422,435	\$ 11,248,158	(\$ 3,276,565)	\$ 90,550,764
Segment (Loss) Profit	(\$ 65,585)	\$ 2,200,301	\$ 77,320	\$ 806,097	\$ -	\$ 3,018,133

Year ended December 31, 2022

	3C component department	Systems and peripheral products department	3C product retail department	Energy service management	Adjustments	Total
External Revenue	\$ 31,850,107	\$ 40,762,357	\$ 17,188,938	\$ 4,301,192	\$ -	\$ 94,102,594
Revenue from Internal Customers	1,879,810	161,824	-	-	(2,041,634)	-
Segment Revenue	<u>\$ 33,729,917</u>	<u>\$ 40,924,181</u>	<u>\$ 17,188,938</u>	<u>\$ 4,301,192</u>	<u>(\$ 2,041,634)</u>	<u>\$ 94,102,594</u>
Segment Profit	<u>\$ 758,883</u>	<u>\$ 2,102,750</u>	<u>\$ 417,673</u>	<u>\$ 252,387</u>	<u>\$ -</u>	<u>\$ 3,531,693</u>

(4) Reconciliation for segment profit (loss)

The external revenue and segment profit (loss) reported to the chief operating decision-maker are measured in manner consistent with revenue and profit (loss) before tax in the financial statements. Therefore, no reconciliation was needed.

(5) Geographical information

Geographical information for the years ended December 31, 2023 and 2022 is as follows:

	Years ended December 31,			
	2023		2022	
	Revenue	Non-current assets	Revenue	Non-current assets
Taiwan	\$ 22,357,958	\$ 12,078,147	\$ 14,689,833	\$ 9,412,021

Note 1: The numbers as follows represent the nature of loan:

- (1) Business transaction is labelled as “1”.
- (2) Short-term financing is labelled as “2”.

Note 2: (1) Limit on loans granted to a single party is 40% of the Company's net asset value.

- (2) Limit on loans granted to the domestic unlisted subsidiaries of the Company and FIT Holding Co., Ltd. is 40% of their net asset value.
- (3) Limit on loans granted to direct or indirect holding foreign subsidiaries is 40% of their net asset value.
- (4) Limit on loans granted between foreign companies whose voting shares are 100% held by the Company directly or indirectly, or on loans granted to the Company by such foreign companies is 100% of their net asset value.
- (5) Limit on loans granted by FIT Holding Co., Ltd. to its direct or indirect holding foreign subsidiaries is 30% of FIT Holding Co., Ltd.'s net asset value on recent financial report.

Note 3: (1) Ceiling on total loans granted to the company is 40% of the Company's net asset value.

- (2) Ceiling on total loans granted to the domestic unlisted subsidiaries of the Company and FIT Holding is 40% of their net asset value.
- (3) Ceiling on total loans granted to the direct or indirect holding subsidiaries is 40% of their net asset value.
- (4) Ceiling on total loans granted between foreign companies whose voting shares are 100% held by the Company directly or indirectly, or on loans granted to the Company by such foreign companies is 100% of their net asset value.
- (5) Ceiling on total loans granted by FIT Holding Co., Ltd. to its direct or indirect holding foreign subsidiaries is 40% of their net asset value on recent financial report.

Note 1: Calculation for limit on endorsements/guarantees provided for a single party is as follows:

- (1) For subsidiaries whose shares are 90% or above held by the Company, ceiling on total amount of endorsements and guarantees provided by the Company is 150% of the Company’s net asset value; limit on endorsements and guarantees provided by the Company for a single party is 150% of the Company’s net asset value.
- (2) For FIT Holding Co.,Ltd., limit on endorsements and guarantees for a single party is 600% of FIT Holding Co.,Ltd.’s current net asset value and for subsidiary whose equity is no less than 90% held by FIT Holding Co.,Ltd., is 600% of FIT Holding Co.,Ltd.’s net asset value.
- (3) Endorsements and guarantees are available between companies whose voting shares are more than 90% held by FIT Holding Co., Ltd. directly or indirectly. And the limit on endorsements and guarantees is 10% of FIT Holding Co., Ltd.’s net asset value except that endorsements and guarantees are between companies whose voting shares are 100% held by FIT Holding Co., Ltd. directly or indirectly.
- (4) For subsidiaries whose shares are 90% or above held by Shinfox, ceiling on total amount of endorsements and guarantees provided by the Company is 600% of the Company's net asset value; limit on endorsements and guarantees provided by the Company for a single party is 560% of the Company's net asset value.
- (5) For subsidiaries whose shares are 90% or above held by Foxwell Energy, ceiling on total amount of endorsements and guarantees provided by the Company is 150% of the Company's net asset value; limit on endorsements and guarantees provided by the Company for a single party is 140% of the Company’s net asset value.

Note 2: Calculation for limit on endorsements/guarantees provided is as follows:

- (1) The Company’s and subsidiaries’ endorsements and guarantees to others should not exceed 300% of the Company’s net asset value.
- (2) FIT Holding Co.,Ltd.’s endorsements and guarantees to others and subsidiaries should not exceed 600% of FIT Holding Co., Ltd.’s net asset value in the latest financial statements.
- (3) Endorsements and guarantees are available between companies whose voting shares are more than 90% held by FIT Holding Co., Ltd. directly or indirectly. And the limit on endorsements and guarantees is 10% of FIT Holding Co., Ltd.’s net asset value except that endorsements and guarantees are between companies whose voting shares are 100% held by FIT Holding Co., Ltd. directly or indirectly.
- (4) Ceiling on total amount of endorsements/guarantees provided by Foxwell Energy and subsidiaries is 150% of Foxwell Energy's net asset value in the latest financial statements.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1)Parent company is '0'.

(2)The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1)Parent company to subsidiary.

(2)Subsidiary to parent company.

(3)Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: Disclosure of the transactions of related party over \$100 million only and the related party transactions for counterparty are not disclosed.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR 23000581

To the Board of Directors and Stockholders of Cheng Uei Precision Industry Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Cheng Uei Precision Industry Co., Ltd. (the "Company") as at December 31, 2023 and 2022, and the related parent company only statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the parent company only financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the reports of other auditors (please refer to the *Other matter* section), the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as at December 31, 2023 and 2022, and its parent company only financial performance and its parent company only cash flows for the years then ended, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for opinion

We conducted our audits of the parent company only financial statements in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagement of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the parent company only financial statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the parent company only financial statements of the current period. These matters were addressed in the context of our audit of the parent company only financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent company only financial statements of the year ended December 31, 2023 are stated as follows:

Valuation of goodwill impairment for the investments accounted for under the equity method / subsidiaries

Description

Please refer to Note 4(10) in the parent company only financial statements for accounting policies on investments accounted for under the equity method, Note 6(5) in the parent company only financial statements for details of investments accounted for under the equity method, Note 4(20) in the consolidated financial statements for accounting policies on impairment loss on non-financial assets, Note 5(1) in the consolidated financial statements for the uncertainty of accounting estimates and assumptions applied to goodwill impairment valuation, and Note 6(13) in the consolidated financial statements for details of intangible assets.

The amount of goodwill (including indefinite useful life trademarks) was derived from the acquisition of Foxlink Image Technology Co., Ltd. and DG Lifestyle Store Limited by the Company's subsidiary, FIT Holding Co., Ltd. The Company valued the impairment of goodwill through the discounted cash flow method, using the higher of value in use or fair value less costs to sell to measure the cash generating unit's recoverable amount. As the assumptions of expected future cash flows contained subjective judgement and involved a high degree of uncertainty which would cause a material impact on the

valuation result, the valuation of goodwill impairment was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. Obtained an understanding and assessed the reasonableness of valuation of goodwill impairment policies and procedures, including collection of internal and external data, operating forecast and industry changes.
- B. Obtained the external appraisal report on impairment valuation and performed the following procedures:
 - (a) We examined the external appraiser's qualification and assessed the independence, objectiveness and competence.
 - (b) We assessed that the valuation method used in the appraisal report was widely used and appropriate.
 - (c) We assessed the reasonableness of significant assumptions (including expected growth rate and discount rate) applied in the appraisal report.

Recognition of construction revenue-assessment on the stage of completion for the investments accounted for under the equity method

Description

Please refer to Note 4(10) in the parent company only financial statements for accounting policies on investments accounted for under the equity method, Note 6(5) in the parent company only financial statements for details of investments accounted for under the equity method, Note 4(31) in the consolidated financial statements for accounting policies on construction contracts, and Note 5(2) in the consolidated financial statements for the uncertainty of critical judgement, accounting estimates and assumptions applied to construction contracts. As of December 31, 2023, contract assets, contract liabilities and construction revenue of each subsidiary of the Company amounted to \$8,675,960 thousand, \$43,541 thousand, and \$10,285,643 thousand, respectively, refer to Note 6(24)

in the consolidated financial statements for details.

Construction revenue and costs of each subsidiary of the Company mainly arise from undertaking construction works. If the outcome of a construction contract can be estimated reliably, profit or loss should be recognised by reference to the stage of completion of the contract activity, using the percentage-of-completion method of accounting, over the contract term. The stage of completion of a construction contract is measured by the proportion of contract costs incurred for the construction performed as of the financial reporting date to the estimated total costs for the construction contract, and revenue is recognised over time.

The aforementioned estimated total costs are assessed by the management based on the different nature of constructions and the price fluctuations in the market to estimate the costs for each construction activity such as estimated subcontract charges and material and labor expenses, and the complexity of aforementioned total cost usually involves subjective judgement and contains a high degree of uncertainty, which may affect the construction revenue recognition, thus, we consider the assessment on the stage of completion which was applied on construction revenue recognition as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the stage of completion as described on the above key audit matter:

- A. Obtained an understanding on the nature of business and industry, and assessed the reasonableness of internal process applied to estimate total construction cost, including the basis for estimating the expected total cost for construction contracts of the same nature.
- B. Assessed and tested the internal controls used by the management to recognise construction revenue based on the stage of completion, including checking the supporting documents of additional or reduced constructions and significant constructions performed in the period.

- C. Sampled and tested the subcontracts that have been assigned, and assessed the basis and reasonableness of estimating costs for those that have not been assigned.
- D. Performed substantive procedures relating to the construction profit or loss statement, including sampling and verifying the costs incurred in the period with the appropriate evidence, and recalculating and confirming that construction revenue calculated based on the stage of completion had been accounted for appropriately.

Assessment of allowance for inventory valuation losses of the Company and investments accounted for under the equity method

Description

Please refer to Note 4(9) for accounting policies on inventory, Note 5 for the uncertainty of accounting estimates and assumptions applied to inventory valuation, and Note 6(4) for details of inventory. Please refer to Note 4(10) for accounting policies on investments accounted for under the equity method, and Notes 8 and 9 for details of investments accounted for under the equity method.

As of December 31, 2023, the balances of inventory and allowance for inventory valuation losses were NT\$2,833,390 thousand and NT\$66,908 thousand, respectively; and the balance of investments accounted for under the equity method was NT\$39,291,060 thousand.

Cheng Uei Precision Industry Co., Ltd. and subsidiaries are primarily engaged in the manufacturing and sale of electronic components and parts. As the electronic products' life cycles are relatively short and the market is highly competitive, there is a higher risk of incurring inventory valuation losses or obsolescence due to economic depression or an excess of supply over demand. The Company's inventories are measured at the lower of cost and net realisable value, and individually assessed for those inventories over a certain age in order to identify obsolete or slow-moving inventories.

The industry technology is rapidly changing, and the net realisable value involves subjective judgement resulting in an uncertainty when assessing the obsolete or slow-moving inventories. Given that the inventory and allowance for inventory valuation losses were material to the financial statements, the assessment of allowance for inventory valuation losses was identified as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. Assessed the reasonableness of policies and procedures on allowance for inventory valuation losses based on our understanding of the Company's operation and industry.
- B. Obtained an understanding of the Company's warehousing control procedures. Reviewed annual physical inventory count plan and participated in the annual inventory count event in order to assess the effectiveness of the management of inventory.
- C. Verified whether the systematic logic used in the Company's inventory aging report is appropriate and in line with its policies.
- D. Inspected inventory valuation basis adequacy and verified the selected samples' information, for instance, purchase price and sale price. Also recalculated and evaluated the reasonableness of inventory allowance basis in order to verify that the inventory was measured at the lower of cost and net realisable value.

Other matter - Reference to the reports of other auditors

We did not audit the parent company only financial statements of certain investees accounted for under the equity method which reflect the balance of investments of NT\$74,590 thousand and NT\$172,037 thousand as at December 31, 2023 and 2022, constituting 0.12% and 0.27% of total assets; total comprehensive income (including share of profit of subsidiaries, associates and joint ventures accounted for under the equity method, and share of other comprehensive income of subsidiaries, associates and joint ventures accounted for under the equity method) of NT\$(5,267) thousand and NT\$(4,977)

thousand, for the years ended December 31, 2023 and 2022, constituting (0.61%) and (0.28%) of total comprehensive income, respectively. Those financial statements and the information disclosed in Note 13 were audited by other auditors whose report thereon have been furnished to us, and our opinion expressed herein is based solely on the reports of the other auditors.

Responsibilities of management and those charged with governance for the parent company only financial statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the parent company only financial statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

E. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial

statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Chou, Hsiao-Tzu

Liang Yi Chang

For and on behalf of PricewaterhouseCoopers, Taiwan

March 11, 2024

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

CHENG UEI PRECISION INDUSTRY CO.,LTD.
NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

Cheng Uei Precision Industry Co., Ltd. (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) on July 14, 1986 and has begun operations on July 31, 1986. The Company is engaged in the manufacture of cable assemblies, connectors, battery packs, and power modules. Effective September 1999, the shares of the Company were listed on the Taiwan Stock Exchange.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE PARENT COMPANY ONLY FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These parent company only financial statements were authorized for issuance by the Board of Directors on March 11 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by FSC and became effective from 2023 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023
Amendments to IAS 12, ‘International tax reform - pillar two model rules’	May 23, 2023

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRSs Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(2) Basis of preparation

A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:

- a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- b) Financial assets at fair value through other comprehensive income.

c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligations.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

(3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The parent company only financial statements are presented in New Taiwan dollars, which is the Company’s functional currency.

A. Foreign currency transactions and balances

a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.

b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

d) All foreign exchange gains and losses are presented in the statement of comprehensive income within ‘other gains and losses’.

B. Translation of foreign operations

a) The operating results and financial position of all the Company entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

- ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- iii. All resulting exchange differences are recognised in other comprehensive income.
- b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Company still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- c) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing exchange rates at the balance sheet date.

(4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - b) Assets held mainly for trading purposes;
 - c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - a) Liabilities that are expected to be paid off within the normal operating cycle;
 - b) Liabilities arising mainly from trading activities;
 - c) Liabilities that are to be paid off within twelve months from the balance sheet date;
 - d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(5) Cash and cash equivalents

Cash equivalents refer to short-term highly liquid investments that are readily convertible to known amount of cash and subject to an insignificant risk of changes in value. Time deposits that meet the above criteria and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(6) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(7) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(8) Derecognition of financial assets

The Company derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows from the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows from the financial asset have been transferred; however, the Company has not retained control of the financial asset.

(9) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated fixed production overheads based on actual capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(10) Investments accounted for under the equity method / subsidiaries and associates

- A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.

- C. The Company's share of its subsidiaries' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in a subsidiary equals or exceeds its interest in the subsidiary, the Company recognise loss continuously in proportion to its ownership.
- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- E. When the Company loses control of a subsidiary, the Company remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Company loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.
- F. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for under the equity method and are initially recognised at cost.
- G. The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognise further losses, unless it has incurred statutory/constructive obligations or made payments on behalf of the associate.
- H. When changes in an associate's equity are not recognised in profit or loss or other comprehensive income of the associate and such changes do not affect the Company's ownership percentage of the associate, the Company recognises change in ownership interests in the associate in 'capital surplus' in proportion to its ownership.
- I. Unrealised gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted

by the Company.

- J. In the case that an associate issues new shares and the Company does not subscribe or acquire new shares proportionately, which results in a change in the Company's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for under the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Company's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- K. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- L. When the Company disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss. If it retains significant influence over this associate, the amounts previously recognised as capital surplus in relation to the associate are transferred to profit or loss proportionately.
- M. Pursuant to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, profit (loss) of the current period and other comprehensive income in the parent company only financial statements shall equal to the amount attributable to owners of the parent in the financial statements prepared with basis for consolidation. Owners' equity in the parent company only financial statements shall equal to equity attributable to owners of the parent in the financial statements prepared with basis for consolidation.

(11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each component of property, plant and equipment is significant, it is depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	20~50 years
Machinery and equipment	1 ~ 5 years
Office equipment	3 years
Miscellaneous equipment	3 ~ 8 years

(12) Leasing arrangements (lessee)-right-of-use assets/ lease liabilities

A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate.

The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(13) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 20 ~ 50 years.

(14) Intangible assets

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 years.

(15) Impairment of non-financial assets

A. The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist, the impairment loss shall be reversed to the extent of the loss previously recognised in profit or loss. Such recovery of impairment loss shall not result to the asset's carrying amount greater than its amortised cost where no impairment loss was recognised.

B. The recoverable amounts of goodwill, intangible assets with an indefinite useful life and intangible assets that have not yet been available for use shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.

C. Goodwill for impairment testing purpose is allocated to cash generating units. This allocation is identified based on operating segments. Goodwill is allocated to a cash generating unit or a Group of cash generating units that expects to benefit from business combination that will produce goodwill.

(16) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(17) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(18) Bonds payable

Ordinary corporate bonds issued by the Company are initially recognised at fair value less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to 'finance costs'.

(19) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(20) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(21) Employee benefits

A. Pensions

a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

b) Defined benefit plans

- i. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds (at the balance sheet date).
- ii. Remeasurement arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Past service costs are recognised immediately in profit or loss.

B. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(22) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

(23) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, are included in equity attributable to the Company's equity holders.

(24) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(25) Revenue recognition

- A. The Company manufactures and sells electronic telecommunication component products. Revenue is measured at the fair value of the consideration received or receivable taking into account value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Company's activities. Revenue arising from the sales of goods should be recognised when the Company has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.
- B. The goods are often sold with volume discounts based on aggregate sales over a 12-month period. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated sales discounts and allowances. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. No element of financing is deemed present as the sales are made with a credit term of 30 to 120 days, which is consistent with market practice.
- C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

Critical accounting estimates and assumptions

A. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. Impairment assessment of investments accounted for under the equity method

The Company assesses the impairment of an investment accounted for under the equity method as soon as there is any indication that it might have been impaired and its carrying amount cannot be recovered. The Company assesses the recoverable amounts of an investment accounted for under the equity method based on the present value of the Company's share of expected future cash flows of the investee or fair value less costs of disposal, and analyses the reasonableness of related assumptions.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Cash on hand and revolving funds	\$ 905	\$ 1,190
Checking accounts and demand deposits	302,433	391,350
Time deposits (Note)	235,299	4,820
Total	<u>\$ 538,637</u>	<u>\$ 397,360</u>

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. As of December 31, 2023 and 2022, the annual interest rate of time deposits was 1.10%~5.10% and 0.85%~4.10%, respectively.

C. The Company has no cash and cash equivalents pledged to others as collateral.

(2) Accounts receivable

	December 31, 2023	December 31, 2022
Accounts receivable	\$ 10,201,805	\$ 8,584,195
Less: Loss allowance	(22,794)	(46,161)
	<u>\$ 10,179,011</u>	<u>\$ 8,538,034</u>

- A. The information on the Company's ageing analysis of accounts receivable is provided in Note 12(2).
- B. As of December 31, 2023 and 2022, accounts and notes receivable were all from contracts with customers. And as of January 1, 2022, the balance of receivables from contracts with customers amounted to \$10,057,338.
- C. The quality information of accounts receivable is based on customers' credit ranking and recoverable period of receivables in order to calculate the accrual of impairment. The Company's internal credit ranking policy is that the Company's business and management segment assesses periodically whether the credit ranking of existing customers is appropriate and adjusts to obtain the latest information when necessary. Customers' credit ranking assessment is based on industrial operating scale, profitability and ranking assessed by financial insurance institutions. The Company has insured accounts receivable of certain customers and the Company will receive 80%~90% compensation if bad debts occur. As of December 31, 2023 and 2022, the balance of accounts receivable from certain customers amounted to \$2,291,185 and \$2,100,339, respectively.
- D. The Company does not hold any collateral as security.
- E. Information relating to credit risk of accounts receivable is provided in Note 12(2).

(3) Transfer of financial assets (As at December 31, 2023: None)

- A. The Company entered into a factoring agreement with the banks to sell its accounts receivable. Under the agreement, the Company is not obligated to bear the default risk of the transferred accounts receivable, but is liable for the losses incurred on any business dispute. The Company does not have any continuing involvement in the transferred accounts receivable. Thus, the Company derecognised the transferred accounts receivable, and the related information is as follows:

December 31, 2022							
Purchaser of accounts receivable	Accounts receivable transferred	Amount derecognised	Facilities	Amount advanced	Amount advanced for advance	Interest rate of amount advanced	Collateral Provided
Mega International Commercial Bank	\$ 159,223	\$ 159,223	\$ 1,535,500	\$ 143,300	\$ 15,923	5.66%	None
Bank of Taiwan	396,048	396,048	3,085,200	356,444	39,604	5.27%	None

- B. For the year ended December 31, 2022, the Company issued promissory notes to some banks for the factoring agreements signed.

(4) Inventories

December 31, 2023			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 171,910	(\$ 10,573)	\$ 161,337
Work in progress	68,220	(270)	67,950
Finished goods	2,593,260	(56,065)	2,537,195
	<u>\$ 2,833,390</u>	<u>(\$ 66,908)</u>	<u>\$ 2,766,482</u>

December 31, 2022			
	Cost	Allowance for valuation loss	Book value
Raw materials	\$ 139,668	(\$ 11,089)	\$ 128,579
Work in progress	33,208	(168)	33,040
Finished goods	1,461,805	(14,293)	1,447,512
	<u>\$ 1,634,681</u>	<u>(\$ 25,550)</u>	<u>\$ 1,609,131</u>

The cost of inventories recognised as expense for the year:

	Years ended December 31,	
	2023	2022
Cost of inventories sold	\$ 58,757,213	\$ 61,569,823
(Gain on reversal of) loss on decline in market value	41,358	(4,322)
	<u>\$ 58,798,571</u>	<u>\$ 61,565,501</u>

The Company reversed a previous inventory write-down because inventories with net realisable value lower than its cost were partially sold by the Company for the year ended December 31, 2022.

(5) Investments accounted for under the equity method

Investee	December 31, 2023		December 31, 2022	
	Amount	Ownership percentage (%)	Amount	Ownership percentage (%)
Cu International Ltd.	\$ 26,164,967	100%	\$ 25,409,499	100%
Foxlink International Investment Ltd.	4,390,733	100%	3,696,037	100%
Fu Uei International Investment Ltd.	2,725,367	100%	3,230,556	100%
Culink International Ltd.	1,268,983	18.84%	1,472,408	100%
Well Shin Technology Co., Ltd.	1,772,836	100%	1,278,262	18.84%
Darts Technologies Corporation	889,607	100%	879,437	97%
Foxlink Technology Ltd.	1,186,665	97%	890,227	100%
Sinobest Brothers Limited	300,231	91.19%	316,883	91.19%
Suntain Co., Ltd.	249,536	100%	236,699	100%
DU Precision Industry Co., Ltd.	86,774	100%	69,294	100%
Foxlink Arizona Inc.	28,289	100%	45,339	100%
	<u>39,063,988</u>		<u>37,524,641</u>	
Add : Current prepayments for investments				
-Journ Ta Brothers Limited	227,072		227,072	
Total	<u>\$ 39,291,060</u>		<u>\$ 37,751,713</u>	

- A. Please refer to Note 4(3) in the 2023 consolidated financial statements for the information regarding the Company's subsidiaries.
- B. The gain on investments accounted for under the equity method amounted to \$978,694 and \$1,929,613 for the years ended December 31, 2023 and 2022, respectively, and were valued based on the investees' audited financial statements for the corresponding period.
- C. Associates

(a) The basic information of the associates that are material to the Company is summarised below:

Company name	Principal place of business	Shareholding ratio		Nature of relationship	Methods of measurement
		December 31, 2023	December 31, 2022		
Well Shin Technology Co., Ltd.	Taiwan	18.84%	18.84%	Note	Equity method

Note: As the Company's management holds several seats in the Board of Directors of Well Shin Technology Co., Ltd., the Company is assessed to have significant influence.

(b) Summarised financial information of the associates that are material to the Company is as follows:

Balance sheet

	Well Shin Technology Co., Ltd.	
	December 31, 2023	December 31, 2022
Current assets	\$ 2,308,642	\$ 2,468,684
Non-current assets	6,724,825	6,379,703
Current liabilities	(1,777,201)	(1,599,211)
Non-current liabilities	(715,667)	(657,804)
Total net assets	\$ 6,540,599	\$ 6,591,372
Share in associate's net assets	\$ 1,232,394	\$ 1,241,673
Goodwill	36,589	36,589
Carrying amount of the associates	\$ 1,268,983	\$ 1,278,262

Statement of comprehensive income

	Well Shin Technology Co., Ltd.	
	Years ended December 31,	
	2023	2022
Revenue	\$ 3,979,213	\$ 4,793,919
Profit for the year from continuing operations	\$ 507,511	\$ 759,540
Other comprehensive income (loss), net of tax	(85,254)	120,545
Total comprehensive income	\$ 422,257	\$ 880,085
Dividends received from associates	\$ 89,130	\$ 44,565

D. The fair value of the Company's material associates with quoted market prices is as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Well Shin Technology Co., Ltd.	<u>\$ 1,152,001</u>	<u>\$ 1,102,980</u>

- E. As of December 31, 2023, the registration of the Company's prepayment for investments- JOURN TA BROTHERS LIMITED has not yet been completed.
- F. For the year ended December 31, 2023, the Company's second-tier subsidiary, Power Channel Limited, did not participate in the capital increase of Sharetronic Data Technology Co., Ltd. proportionately to its ownership, thus resulted in the shareholding ratio decreasing to 16.89%. The Company recognised capital surplus according to shareholding ratio amounting to \$255,753.
- G. For the year ended December 31, 2023, the Company's second-tier subsidiary, Shinfox Energy Co., Ltd., did not participate in the capital increase of Guanwei Power Co., Ltd. proportionately to its ownership, thus resulted in the shareholding ratio decreasing to 51%. The Company recognised capital surplus according to shareholding ratio amounting to (\$12).
- H. For the year ended December 31, 2023, the Company's second-tier subsidiary, Shinfox Energy Co., Ltd., disposed Guanwei Power Co., Ltd.'s shares in the amount of 1,601 thousand shares, and the proceeds from sales of shares amounted to \$60,838. The Company recognised capital surplus according to shareholding ratio amounting to \$9,757.
- I. For the year ended December 31, 2023, the Company's second-tier subsidiary, Shinfox Energy Co., Ltd., had changes in equity due to its issuing convertible bonds, and the Company recognised capital surplus according to shareholding ratio amounting to \$83,504.

(6) Property, plant and equipment

	2023						Total
	Land	Buildings and structures	Machinery and equipment	Office equipment	Others	Unfinished construction	
At January 1

The Company has no property, plant and equipment pledged to others as collateral.

(7) Leasing arrangements-lessee

A. The Company leases various assets including land and buildings. Rental contracts are typically made for periods of 3 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
	<u>Carrying amount</u>	<u>Carrying amount</u>
Land	\$ 68,483	\$ 20,745
Buildings	4,460	32,852
	<u>\$ 72,943</u>	<u>\$ 53,597</u>
	<u>Years ended December 31,</u>	<u>Years ended December 31,</u>
	<u>2023</u>	<u>2022</u>
	<u>Depreciation</u>	<u>Depreciation</u>
	<u>expense</u>	<u>expense</u>
Land	\$ 14,190	\$ 13,880
Buildings	28,393	27,799
	<u>\$ 42,583</u>	<u>\$ 41,679</u>

C. For the years ended December 31, 2023 and 2022, the additions to right-of-use assets amounted to \$61,928 and \$2,287, respectively.

D. The information on income and expense accounts relating to lease contracts is as follows:

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
<u>Items affecting profit or loss</u>		
Interest expense on lease liabilities	\$ 723	\$ 1,038
Expense on short-term lease contracts	1,969	6,346
Expense on leases of low-value assets	1,463	872

E. For the years ended December 31, 2023 and 2022, the Company's total cash outflow for leases amounted to \$48,584 and \$50,452, respectively.

(8) Investment property

	<u>2023</u>	<u>2022</u>
	Buildings and structures	Buildings and structures
At January 1		
Cost	\$ 198,804	\$ 198,101
Accumulated depreciation and impairment	(45,614)	(41,694)
	<u>\$ 153,190</u>	<u>\$ 156,407</u>
Opening net book amount	\$ 153,190	\$ 156,407

	<u>\$ 3,591,048</u>	<u>\$ 6,582,374</u>

A. The main terms of the \$3,600,000 2nd secured corporate bonds issued by the Company on July 29, 2020 are as follows:

- (a) Total initial issue amount: \$3,600,000.
- (b) Issue price: Issue at par value, \$1,000 each.
- (c) Issue period: 5 years, from July 29, 2020 to July 27, 2025.
- (d) Coupon rate: 0.65% fixed per annum.
- (e) Interest payment method: Interest is calculated from the date of issuance at the coupon rate, is a simple interest and is paid yearly.
- (f) Principal repayment method: Pay entire amount at the maturity date.
- (g) Guarantee method:
The joint guarantor banks including CTBC Bank Co., Ltd., Taiwan Cooperative Bank Co., Ltd., Hua Nan Commercial Bank Ltd., Agricultural Bank of Taiwan Corporation and Mega International Commercial Bank Co., Ltd. provide guarantees based on a joint engagement guarantee contract and bond-fulfilling guarantee obligation contract.

(h) Commitment:

The company should maintain the following financial ratios during the contract duration for semi-annual consolidated and annual consolidated financial statements:

- i. Current assets to current liabilities ratio of at least 1:1;
- ii. Liabilities not exceeding 200% of tangible net equity;
- iii. Interest coverage of at least 400%; and
- iv. Tangible net equity of at least NT\$15,000,000 thousand.

B. The main terms of the \$3,000,000 1st secured corporate bonds issued by the Company on June 26, 2019 are as follows:

- a) Total initial issue amount: \$3,000,000.
- b) Issue price: Issue at par value, \$1,000 each.
- c) Issue period: 5 years, from June 26, 2019 to June 26, 2024.
- d) Coupon rate: 0.80% fixed per annum.
- e) Interest payment method: Interest is calculated from the date of issuance at the coupon rate, is a simple interest and is paid yearly.

f) Principal repayment method: Pay entire amount at the maturity date.

g) Guarantee method:

The joint guarantor banks including CTBC Bank Co., Ltd. Taiwan Cooperative Bank Co., Ltd., Mega International Commercial Bank Co., Ltd. and Chang Hwa Commercial Bank, Ltd. provide guarantees based on a joint engagement guarantee contract and bond-fulfilling guarantee obligation contract.

h) Commitment:

The company should maintain the following financial ratios during the contract duration for semi-annual parent company only and annual parent company only financial statements:

- i. Current assets to current liabilities ratio of at least 1:1;
- ii. Liabilities not exceeding 200% of tangible net equity;
- iii. Interest coverage of at least 400%; and
- iv. Tangible net equity of at least NT\$15,000,000 thousand.

(13) Long-term borrowings

Type of borrowings	Borrowing period and repayment term	Interest rate range	Unused credit line	December 31, 2023
Long-term loan borrowings				
- including covenants	Borrowing period is from May 2023 to December 2026 pay entire amount when due	1.85%~1.89%	\$ 700,000	\$ 3,600,000
- without covenants	Borrowing period is from March 2023 to November 2026 pay entire amount when due	1.7%~1.940%	2,151,625	4,781,250
Medium-term and long-term syndicated loans	Borrowing period is from November 2020 to November 2025. The Company may issue a drawing application before the maturity date of borrowing to repay the loan principal that was originally expired.	2.20%	4,800,000	<u>3,200,000</u>
				11,581,250
Less: Current portion				(73,750)
				<u>\$ 11,507,500</u>

Type of borrowings	Borrowing period and repayment term	Interest rate range	Unused credit line	December 31, 2022
Long-term loan borrowings				
Bank's unsecured borrowings				
- including covenants	Borrowing period is from September 2022 to September 2025 pay entire amount when due	1.98%~2.06%	\$ 2,500,000	\$ 1,500,000
- without covenants	Borrowing period is from September 2022 to March 2025 pay entire amount when due	1.45%~2.30%	2,034,500	5,198,750
Medium-term and long-term syndicated loans	Borrowing period is from November 2020 to November 2025. The Company may issue a drawing application before the maturity date of borrowing to repay the loan principal that was originally expired.	1.93%~2.06%	4,000,000	<u>4,000,000</u>
				10,698,750
Less: Current portion				-
				<u>\$ 10,698,750</u>

A. In November 2020, the Company signed a medium-term syndicated revolving NTD credit facility agreement with the Bank of Taiwan as the lead bank. The terms of agreement are summarised below:

- (a) Duration of loan: The loan period of the agreement was 5 years from the agreement signing date.
- (b) Credit line and draw-down: The credit line was \$8,000,000, which can be drawn down in installments of at least NT\$100,000 thousand per draw-down.
- (c) Principal repayment: The duration of each loan drawn down is either 90 days or 180 days at the Company's option. The Company, if without any default, may submit an application to the banks to draw down a new loan with principal equal to the old one before its maturity, and the new loan is directly used to repay the original loan. The banks and the Company are not required to make remittances for such draw-down and repayment, which is viewed that the Company has received the new loan on the maturity of original loan.
- (d) Commitment: The Company should maintain the following financial ratios during the contract duration for semi-annual parent company only and annual parent company only financial statements:
 - i. Current assets to current liabilities ratio of at least 1:1;
 - ii. Liabilities not exceeding 200% of tangible net equity;
 - iii. Interest coverage of at least 400%; and
 - iv. Tangible net equity of at least NT\$15,000,000 thousand.
- (e) The loan period is decided by the borrower. The borrower may choose to early repay the loans during the contract period according to the syndicated loan contract.

B. The Company entered into the borrowing contracts with Bank SinoPac, Taipei Fubon and Far Eastern International Bank, and the total credit line is \$4,300,000. As of December 31, 2023, the borrowings that have been used amounted to \$3,600,000. In the duration period of these contracts, the financial ratios in the semi-annual parent company only and annual parent company only financial statements shall be as follows:

- (a) Current assets to current liabilities ratio of at least 1:1;
- (b) Liabilities not exceeding 200% of tangible net equity;
- (c) Interest coverage of at least 400%; and
- (d) Tangible net equity of at least NT\$15,000,000 thousand.

C. As of December 31, 2023, the borrowings that have been used amounted to as follows:

Company	Bank	Credit line (in thousands)	Amount of borrowings used
The Company	Yuanta Commercial Bank	\$ 450,000	\$ 400,000
The Company	DBS Bank	USD 35,000	900,000
The Company	Taiwan Cooperative Bank	500,000	-
The Company	Cathay Bank	500,000	500,000
The Company	United Overseas Bank	USD 10,000	-
The Company	KGI Commercial Bank Co., Ltd.	1,000,000	885,000
The Company	First Bank	600,000	600,000
The Company	Mizuho Bank	USD 30,000	900,000
The Company	En Tie Commerical Bank	500,000	-
The Company	Export-Import Bank of Republic of China	480,000	96,250
The Company	Panhsin Bank	300,000	200,000
The Company	E.Sun Bank	300,000	300,000

(14) Pensions

A.(a) The Company has a defined benefit pension plan in accordance with the Labour Standards Act, covering all regular employees' service years prior to the enforcement of the Labour Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labour standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labour pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	December 31, 2023	December 31, 2022
Present value of defined benefit obligations	(\$ 243,710)	(\$ 282,568)
Fair value of plan assets	99,276	115,210
Net defined benefit liability		
(shown as "other non-current liabilities")	(\$ 144,434)	(\$ 167,358)

(c) Movements in net defined benefit liabilities are as follows:

	Present value of defined benefit obligations	Fair value of plan assets	Net defined benefit liability
<u>Year ended December 31, 2023</u>			
Balance at January 1	(\$ 282,567)	\$ 115,209	(\$ 167,358)

Paid pension	6,859	-	6,859
	26,996	(17,977)	9,019
Balance at December 31	(\$ 243,710)	\$ 99,276	(\$ 144,434)
	Present value of defined benefit obligations	Fair value of plan assets	Net defined benefit liability
<u>Year ended December 31, 2022</u>			
Balance at January 1	(\$ 314,531)	\$ 110,060	(\$ 204,471)
Current service cost	(1,541)	-	(1,541)
Interest (expense) income	(2,202)	770	(1,432)
	(318,274)	110,830	(207,444)
Remeasurements:			
Change in financial assumptions	14,753	-	14,753
Experience adjustments	(7,112)	7,646	534
	7,641	7,646	15,287
Pension fund contribution	-	15,037	15,037
Number of benefits paid	18,304	(18,304)	-
Paid pension	9,762	-	9,762
	28,066	(3,267)	24,799
Balance at December 31	(\$ 282,567)	\$ 115,209	(\$ 167,358)

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The compositions of fair value of plan assets as of December 31, 2023 and 2022 are given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	Years ended December 31,	
	2023	2022
Discount rate	1.20%	1.30%
Future salary increases	3%	3.00%

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2023				
Effect on present value of defined benefit obligation	\$ 4,679	(\$ 4,823)	\$ 4,134	\$ 4,038
December 31, 2022				
Effect on present value of defined benefit obligation	\$ 5,824	(\$ 6,010)	\$ 5,213	\$ 5,086

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(f) Expected contributions to the defined benefit pension plans of the Company for the year ending December 31, 2024 amount to \$1,977.

(g) As of December 31, 2023, the weighted average duration of that retirement plan is 8 years.

B. Effective July 1, 2005, the Company has established a funded defined contribution pension plan (the “New Plan”) under the Labour Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labour Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

The pension costs under the abovementioned defined contribution pension plan for the years ended December 31, 2023 and 2022 were \$38,609 and \$37,630, respectively.

(15) Share capital

A. As of December 31, 2023, the Company’s authorised common stock was \$7,000,000 (including 50,000,000 shares reserved for the issuance of employees’ warrants), and the issued and outstanding shares were both 512,326,940 shares, with a par value of \$10 (in dollars) per share.

B. Treasury shares

Before becoming a subsidiary, Foxlink Image Technology Co., Ltd. (Foxlink Image) held parent’s capital stock for general investment purpose. Foxlink Image acquired 22,000 thousand shares with a book value of \$350,708 after the Company acquired control over Foxlink Image on October 1, 2018. As of December 31, 2023 and 2022, the detailed information of Foxlink Image’s parent equity shares is as follows:

	December 31, 2023	December 31, 2022
In thousand shares	49,503	27,503
Book value	\$ 622,774	\$ 272,066

(16) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital reserve to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital reserve should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(17) Retained earnings/Subsequent events

- A. Based on the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. The appropriation of remainder shall be proposed by the Board of Directors and be resolved by the shareholders.
- B. According to the Company's Articles of Incorporation, no more than 90% of the distributable retained earnings shall be distributed as stockholders' bonus and cash dividend distributed in any

calendar year shall be at least 20% of the total distributable earnings in that year based on future capital expenditures budget and capital requirements.

- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1090150022, dated March 31, 2021, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- (c) The amounts set aside by the Company as special reserve for the initial application of IFRSs amounted to \$665,206. Furthermore, the Company did not reverse special reserve to retained earnings for the years ended December 31, 2023 and 2022 as a result of the use, disposal or reclassification of related assets. As of December 31, 2023 and 2022, the amount of special reserve set aside all amounted to \$665,206.
- E. (a) Details of the appropriation of 2022's and 2021's net income which was resolved at the stockholders' meeting on May 31, 2023 and June 21, 2022 are as follows:

	<u>Year ended December 31, 2022</u>		<u>Year ended December 31, 2021</u>	
	Amount	Dividend per share (NTD)	Amount	Dividend per share (NTD)
Legal reserve	\$ 153,911	\$ -	\$ 94,372	\$ -
Special reserve	(237,890)	-	565,304	-
Cash dividends	1,127,119	2.2	768,490	1.5
Total	<u>\$ 1,043,140</u>	<u>\$ 2.2</u>	<u>\$ 1,428,166</u>	<u>\$ 1.5</u>

- (b) The appropriation of 2023 earnings had been proposed by the Board of Directors on March 11, 2024. Details are summarized below:

	<u>Year ended December 31, 2023</u>	
	Amount	Dividend per share (NTD)
Legal reserve	\$ 117,296	\$ -
Special reserve	309,668	-
Cash dividends	1,024,654	2.0
Total	<u>\$ 1,451,618</u>	<u>\$ 2.0</u>

(18) Other equity items

	2023

At December 31	<u>(\$ 544,591)</u>	<u>(\$ 1,819,170)</u>	<u>(\$ 2,363,761)</u>

- A. For the year ended December 31, 2023, the Company's second-tier subsidiary, Shinfox Energy Co., Ltd., derecognised original investment costs as its investee was dissolved, and the Company wrote off accumulated loss by decreasing retained earnings based on shareholding ratio amounting to \$437.
- B. For the year ended December 31, 2023, the Company's subsidiaries, Power Quotient International Co., Ltd. and Foxlink Image Technology Co., Ltd., derecognised original investment costs at the effective date of merger as their investee, Taiwan Star Telecom Co., Ltd, was dissolved by exchanging shares with Taiwan Mobile Co., Ltd. Accordingly, the Company wrote off accumulated loss by decreasing retained earnings based on shareholding ratio amounting to \$225,324.
- C. For the year ended December 31, 2023, the Company's investee accounted for under the equity method, Central Motion Picture Corporation, derecognised original investment costs at the

effective date of merger as its investee, Taiwan Star Telecom Co., Ltd, was dissolved by exchanging shares with Taiwan Mobile Co., Ltd. Accordingly, the Company wrote off accumulated loss by decreasing retained earnings based on shareholding ratio amounting to \$72,634.

(19) Operating revenue

A. Disaggregation of revenue from contracts with customers

The Company derives revenue from the transfer of goods over time and at a point in time in the following major product lines and generates related revenue in each reportable segment:

	Years ended December 31,	
	2023	2022
3C component	\$ 21,459,234	\$ 22,764,695
Systems and peripheral products	38,692,534	40,005,236
Total revenue from external customer contracts	<u>\$ 60,151,768</u>	<u>\$ 62,769,931</u>

B. Contract liabilities

The Company has recognised the following revenue-related contract liabilities:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Contract liabilities:		
Contract liabilities-advance sales receipts	<u>\$ 75,466</u>	<u>\$ 331,588</u>

Revenue recognised that was included in the contract liability balance at the beginning of the year:

	Years ended December 31,	
	2023	2022
Revenue recognised that was included in the contract liability balance at the beginning of the period		
Sales revenue received in advance	<u>\$ 299,868</u>	<u>\$ 34,256</u>

(20) Interest income

	Years ended December 31,	
	2023	2022
Interest income	<u>\$ 35,784</u>	<u>\$ 14,924</u>

(21) Other income

	Years ended December 31,	
	2023	2022
Revenue from technical service compensation	\$ 221,264	\$ 191,068
Revenue from management service fees	40,630	36,501
Rental revenue	23,836	20,639
Claims income	520,642	-
Others	85,964	37,920
	<u>\$ 892,336</u>	<u>\$ 286,128</u>

Please refer to Note 7(2)C for details of revenue from technical service compensation and Note 10 for details of claims income.

(22) Other gains and losses

	Years ended December 31,	
	2023	2022
Net currency exchange gains	\$ 140,865	\$ 282,969
Depreciation charge on investment property	(3,734)	(3,920)
Net (loss) gain on disposal of property, plant and equipment	(52)	128
Other gains and losses	(17,202)	(6,313)
	<u>\$ 119,877</u>	<u>\$ 272,864</u>

(23) Finance costs

	Years ended December 31,	
	2023	2022
Interest expense:		
Bank borrowings	\$ 218,978	\$ 147,728
Corporate bonds	94,512	88,777
Lease liabilities	723	1,038
	<u>\$ 314,213</u>	<u>\$ 237,543</u>

(24) Expenses by nature

	Years ended December 31,	
	2023	2022
Employee benefit expense	\$ 1,236,651	\$ 1,555,230
Depreciation expense	140,927	143,915
Amortisation charges	14,567	10,870
Transportation expenses	161,945	165,047
Operating lease payments	3,432	7,218

(25) Employee benefit expense

	Years ended December 31,	
	2023	2022
Wages and salaries	\$ 1,039,197	\$ 1,369,289
Labour and health insurance fees	88,842	77,872
Pension costs	42,272	40,603
Directors' remuneration	8,000	10,000
Other personnel expenses	58,340	57,466
	<u>\$ 1,236,651</u>	<u>\$ 1,555,230</u>

- A. According to the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 6% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$231,145 and \$312,000, respectively; directors' and supervisors' remuneration was accrued at \$8,000 and \$10,000 respectively. The aforementioned amounts were recognised in salary expenses.
- C. The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on the distributable profit of current year for the year ended December 31, 2023 and percentage as prescribed by the Company's Articles of Incorporation. The Board of Directors resolved the actual appropriation amounts of \$231,145 and \$8,000 and appropriated in cash in March 11, 2024.
- D. Employees' compensation and directors' and supervisors' remuneration of 2023 as resolved at the Board of Directors were in agreement with those amounts recognised in the profit or loss of 2023.
- E. Information about employees' compensation and directors' and supervisors' remuneration of the Company as approved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(26) Income tax

A. Income tax expense

(a) Components of income tax expense:

	Years ended December 31,	
	2023	2022
Current tax:		
Tax payable incurred in current period	\$ 60,421	\$ -
Tax on undistributed surplus earnings	24,799	-
Prior year income tax (over) under estimation	(20,000)	25,095
Total current tax	65,220	25,095
Deferred tax:		
Origination and reversal of temporary differences	(25,953)	198,867
Income tax expense	\$ 39,267	\$ 223,962

(b) The income tax relating to components of other comprehensive income is as follows:

	Years ended December 31,	
	2023	2022

(2) Significant related party transactions

A. Operating revenue

	Years ended December 31,	
	2023	2022
Sales of goods:		
- Subsidiaries		
FOXLINK	\$ 17,783,841	\$ 19,986,459
Others	34,112	249,307
- Other related parties	707,681	798,909
	<u>\$ 18,525,634</u>	<u>\$ 21,034,675</u>

- (a) All the credit terms on sales to related parties were 120 to 180 days after monthly billings. The credit terms on sales to third parties were 30 to 120 days after monthly billing or upon shipment of goods, except for receivables arising from the sales of tooling that are collectible upon acceptance by customers.
- (b) The Company purchased goods from the abovementioned subsidiaries and sold to the customers after selling raw materials to the factories located in Mainland China for finished goods production for the years ended December 31, 2023 and 2022. Revenue and operating cost of sales of raw materials amounting to \$29,798,236 and \$32,969,240, respectively, were excluded from purchase or sales of goods as they were offset in the aforementioned transactions. The collections depend on the financial situation after offsetting the receivables against the payables.

B. Purchases of goods

	Years ended December 31,	
	2023	2022
Purchases of goods:		
- Subsidiaries		
DGFQ	\$ 24,944,932	\$ 22,462,964
FGEDG	15,438,851	16,108,184
FG XuZhou	9,735,601	13,420,213
Others	7,498,795	1,442,876
- Associates	245,525	390,858
- Other related parties	490,158	880,175
	<u>\$ 58,353,862</u>	<u>\$ 60,071,036</u>

The purchase price in relation to the transaction made with related parties and all purchases from related parties are at arm's-length. Payment period was 60 to 120 days after receipt of goods from suppliers.

C. Non-operating income - other income

	Years ended December 31,	
	2023	2022
Other income		
- Subsidiaries		
DGFQ	\$ 221,264	\$ 189,839
Others	79,008	48,817
	<u>\$ 300,272</u>	<u>\$ 261,160</u>

The Company charged technical service compensation and management service fees from CU, Foxlink Image, Suntain and DGFQ, respectively, and collected the net balance after offsetting with payables to related parties and considering the financial situation.

D. Receivables from related parties

	December 31, 2023	December 31, 2022

FV	769,695	110,888
FG XuZhou	626,189	665,130
FG MANNSHAN	593,312	628,265
FSNK	439,700	1,442,477
Others	374,337	871,974
Other receivables-revenue from technical service compensation and management service fees		
- Subsidiaries	13,643	15,174
Other receivables-others		
- Subsidiaries	756	3,050
- Associates	4,234	4,234
	<u>\$ 5,150,509</u>	<u>\$ 6,118,268</u>

The receivables for raw materials as well as fixtures and equipment, purchased by the Company on behalf of the subsidiaries, were excluded from the purchases or sales of goods of the Company. The details are provided in Note 13(3).

E. Prepayments

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Prepayments:		
- Subsidiaries		
CU	\$ 33,285	\$ 103,809
- Other related parties	140	140
	<u>\$ 33,425</u>	<u>\$ 103,949</u>

Prepayments mainly refer to prepayments to suppliers and the related transactions were based on financial situation of the Company.

F. Payables to related parties

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Accounts payable:		
- Subsidiaries		
FGEDG	\$ 4,158,415	\$ 3,181,103

	<u>\$ 10,817,761</u>	<u>\$ 8,688,814</u>

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Other payables-other financing payable		
- Subsidiaries		
FT	\$ -	\$ 122,840
WCT	100,000	-
FUII	140,000	-
Zhi De Investment	200,000	-
Other payables-Receipts under custody		
- Subsidiaries	94,070	46,888
- Associates	20,341	20,476
	<u>\$ 554,411</u>	<u>\$ 190,204</u>

Details of accounts payable are provided in the abovementioned Note 7(2)B., and other payables refer to financing and receipts under custody.

G. Lease transactions - lessee

- (a) The Company leases buildings from other related parties. The lease term was 3 years and rent was paid at the beginning of every month.
- (b) Acquisition of right-of-use assets

	Years ended December 31,	
	2023	2022
Subsidiaries	\$ -	\$ 2,254
Other related parties	-	-
	<u>\$ -</u>	<u>\$ 2,254</u>

(c) Lease liability

i. Outstanding balance:

	December 31, 2023	December 31, 2022
Subsidiaries	\$ -	\$ 18,873
Other related parties	4,550	13,542
	<u>\$ 4,550</u>	<u>\$ 32,415</u>

ii. Interest expense

	Years ended December 31,	
	2023	2022
Subsidiaries	\$ 171	\$ 474
Other related parties	151	294
	<u>\$ 322</u>	<u>\$ 768</u>

H. Property transactions

(a) Acquisition of property, plant and equipment

	Years ended December 31,	
	2023	2022
- Subsidiaries		
Others	\$ 40,515	\$ 494

The Company purchased equipment from subsidiaries for the years ended December 31, 2023 and 2022. The payment terms are based on mutual agreement.

(b) Disposal of property, plant and equipment and investment property:

	Year ended December 31, 2023	
	Disposal proceeds	Gain on disposal
Subsidiaries	\$ 3,760	\$ 24
	Year ended December 31, 2022	
	Disposal proceeds	Gain on disposal
Subsidiaries	\$ 1,469	\$ -

For the years ended December 31, 2023 and 2022, the Company sold equipment to subsidiaries, the collection terms were based on mutual agreement.

I. Endorsements and guarantees

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
- Subsidiaries		
DGFQ	\$ 1,298,100	\$ 1,322,400
Studio A Hong Kong	1,228,200	1,228,400
Studio A	1,228,200	1,228,400
FOXLINK	994,842	995,004
ASHOP	859,740	859,880
KFET	829,035	829,170
Others	460,575	460,650
	<u>\$ 6,898,692</u>	<u>\$ 6,923,904</u>

(3) Key management compensation

	<u>Years ended December 31,</u>	
	<u>2023</u>	<u>2022</u>
Salaries and other short-term employee benefits	\$ 154,714	\$ 194,528
Post-employment benefits	1,944	1,873
Total	<u>\$ 156,658</u>	<u>\$ 196,401</u>

8. PLEDGED ASSETS

The Company's assets pledged as collateral are as follows:

<u>Pledged asset</u>	<u>Book value</u>		<u>Purpose</u>
	<u>December 31, 2023</u>	<u>December 31, 2022</u>	
Refundable deposits (shown as other non-current assets)	<u>\$ 12,222</u>	<u>\$ 12,222</u>	Customs deposit

9. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT COMMITMENTS

(1) Contingencies

Information on related contingencies of the Company's subsidiaries is provided in Note 9(1).

(2) Commitments

Capital expenditure contracted for at the balance sheet date but not yet incurred is as follows:

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
Property, plant and equipment	<u>\$ 9,165</u>	<u>\$ 21,209</u>

10. SIGNIFICANT DISASTER LOSS

The plant of the Company's subsidiary, Foxlink India Electric Private Limited, which was located in Tirupati, India sustained a fire damage on February 27, 2023, resulting in losses on certain equipment and inventory. Disaster loss recognised for equipment and inventories amounted to \$249,584 and \$302,830, respectively, and the total disaster loss amounted to \$552,414. The claim compensation received from the insurance company for the above disaster loss amounted to \$520,642. Refer to Note 6(7) in the consolidated financial statements for details of related loss on inventories and Note 6(10) in the consolidated financial statements for details of related loss on equipment. The Company recognised the related claim compensation in 'other income' amounting to \$520,642, refer to Note 6(21) for details.

11. SIGNIFICANT SUBSEQUENT EVENTS

- A. Details of the appropriation of 2023 earnings as resolved by the Board of Directors on March 11, 2024 are provided in Note 6(17).
- B. To meet the requirement of working capital of the second-tier subsidiary, Shinfox Energy Co., Ltd., the Board of Directors of the Company during their meeting on March 11, 2024 resolved to provide short-term financing, and the borrowing facility amounted to NT\$1.5 billion. The borrowing is repayable based on the contract, and the interest is paid at 8% per annum.

12. OTHERS

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital on the basis of the actual financial condition.

(2) Financial instruments

A. Financial instruments by category

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
<u>Financial assets</u>		
Financial assets at amortised cost/loans and receivables		
Cash and cash equivalents	\$ 538,637	\$ 397,360
Notes receivable	1,614	2,117
Accounts receivable	14,354,736	14,651,812
Other receivables	5,159,622	6,183,147
Guarantee deposits paid	12,222	12,222
	<u>\$ 20,066,831</u>	<u>\$ 21,246,658</u>

	<u>December 31, 2023</u>	<u>December 31, 2022</u>
<u>Financial liabilities</u>		
Financial liabilities at amortised cost		
Short-term borrowings	\$ -	\$ 614,475
Accounts payable	11,677,735	9,255,219
Other accounts payable	9,246,233	9,907,938
Bonds payable (including current portion)	6,585,954	6,582,374
Long-term borrowings		
(including current portion)	11,581,250	10,698,750
Guarantee deposits received	3,117	2,953
	<u>\$ 39,094,289</u>	<u>\$ 36,447,234</u>
Lease liability	<u>\$ 73,432</u>	<u>\$ 55,932</u>

B. Risk management policies

- (a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Company treasury) under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Company operates internationally and is exposed to exchange rate risk arising from the transactions of the Company used in various functional currency, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require Company entities to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Company treasury. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Company's businesses involve some non-functional currency operations (the

Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2023			
	Foreign currency amount (In thousands)	Exchange rate	Book value (NTD)
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD : NTD	\$ 521,890	30.71	\$ 16,024,632
RMB : NTD	429	4.33	1,856
HKD : NTD	196	3.93	770
EUR : NTD	664	33.98	22,563
JPY : NTD	6,929	0.22	1,505
SGD : NTD	16	23.29	373
<u>Non-monetary items</u>			
USD : NTD	\$ 58,659	30.71	\$ 1,801,125
HKD : NTD	7,020,076	3.93	27,581,877
<u>Financial liabilities</u>			
<u>Monetary items</u>			
USD : NTD	\$ 622,098	30.71	\$ 19,101,519
RMB : NTD	756	4.33	3,271

HKD : NTD	4,360	3.94	17,170
EUR : NTD	1,189	32.72	38,904
JPY : NTD	30,667	0.23	7,127

- iv. The total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2023 and 2022 amounted to \$140,865 and \$282,969, respectively.

v. Analysis of foreign currency market risk arising from significant foreign exchange variation:

Year ended December 31, 2023				
Sensitivity Analysis				
	Degree of variation		Effect on profit or loss	Effect on other comprehensive income
(Foreign currency: functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD : NTD	1%	\$	160,246	\$ -
RMB : NTD	1%		19	-
HKD : NTD	1%		8	-
EUR : NTD	1%		226	-
JPY : NTD	1%		15	-
SGD : NTD	1%		4	-
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD : NTD	1%	\$	191,015	\$ -
RMB : NTD	1%		33	-
HKD : NTD	1%		25	-
EUR : NTD	1%		337	-
JPY : NTD	1%		110	-
Year ended December 31, 2022				
Sensitivity Analysis				
	Degree of variation		Effect on profit or loss	Effect on other comprehensive income
(Foreign currency: functional currency)				
<u>Financial assets</u>				
<u>Monetary items</u>				
USD : NTD	1%	\$	170,587	\$ -
RMB : NTD	1%		13	-
HKD : NTD	1%		16	-
EUR : NTD	1%		311	-
JPY : NTD	1%		169	-
SGD : NTD	1%		4	-
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD : NTD	1%	\$	172,233	\$ -
RMB : NTD	1%		35	-
HKD : NTD	1%		172	-
EUR : NTD	1%		389	-
JPY : NTD	1%		71	-

Cash flow and fair value interest rate risk

- i. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. The Company's interest rates of borrowings are fixed and floating rate. For the years ended December 31, 2023 and 2022, the Company's borrowings issued by floating rate are priced in New Taiwan dollars.
- ii. As of December 31, 2023 and 2022, if interest rates on borrowings at that date had been 1% lower/higher with all other variables held constant, post-tax profit for the years ended December 31, 2023 and 2022 would have been \$92,650 and \$85,590 lower/higher, respectively, mainly as a result of higher interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. Company treasury manages credit risk of cash in banks and other financial instruments based on the Company's credit policy. Because the Company's counterparties are determined based on the Company's internal control, only rated banks with an optimal rating and financial institutions with investment grade are accepted.
- iv. The Company adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition. If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
The Company adopts the assumptions under IFRS 9 and considers the industry characteristics, the default occurs when the contract payments are past due over 120 days.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganisation due to their financial difficulties;
 - (ii) A breach of contract.
- vi. The Company classifies customers' accounts receivable in accordance with customer types. The Company applies the roll rate to estimate expected credit loss.

- vii. The Company used the forecast ability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. As of December 31, 2023 and 2022, the provision matrix is as follows:

	Not past due	Up to 30 days past due	31~120 days past due	Over 120 days	Total
<u>At December 31, 2023</u>					
Expected loss rate	0.13%	2.06%	4.25%	100.00%	
Total book value	\$ 9,747,178	\$ 442,096	\$ 12,519	\$ 12	\$ 10,201,805
Loss allowance	\$ 13,122	\$ 9,128	\$ 532	\$ 12	\$ 22,794
	Not past due	Up to 30 days past due	31~120 days past due	Over 120 days	Total
<u>At December 31, 2022</u>					
Expected loss rate	0.10%	3.71%	17.22%	100.00%	
Total book value	\$ 8,136,871	\$ 399,822	\$ 29,847	\$ 17,655	\$ 8,584,195
Loss allowance	\$ 8,538	\$ 14,828	\$ 5,140	\$ 17,655	\$ 46,161

- viii. Movements in relation to the Company applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2023	2022
	Accounts receivable	Accounts receivable
At January 1	\$ 46,161	\$ 34,576
Provision for impairment (gain on reversal of impairment loss)	(23,367)	11,585
Effect of foreign exchange	-	-
At December 31	<u>\$ 22,794</u>	<u>\$ 46,161</u>

(c) Liquidity risk

- Cash flow forecasting is performed in the operating entities of the Company and aggregated by Company treasury. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- The table below analyses the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows:

Non-derivative financial liabilities:

	Less than	Between	Between	Between	
December 31, 2023	1 year	1 and 2 years	2 and 3 years	3 and 5 years	Over 5 years
Short-term borrowings	\$ -	\$ -	\$ -	\$ -	\$ -
Lease liabilities	20,108	6,600	6,600	13,200	30,800
Long-term borrowings (including current portion)	300,791	9,571,530	2,134,979	-	-

Non-derivative financial liabilities:

	Less than	Between	Between	Between	
December 31, 2022	1 year	1 and 2 years	2 and 3 years	3 and 5 years	Over 5 years
Short-term borrowings	\$ 621,870	\$ -	\$ -	\$ -	\$ -
Lease liabilities	42,951	13,508	-	-	-
Long-term borrowings (including current portion)	208,479	4,869,748	6,086,491	-	-

- iii. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Other matters

The Group's financial condition and financial performance were not affected by the Covid-19 outbreak and various preventive measures which were imposed by the government in 2023.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

For the investees' information, refer to investees' independent accountant attestation report.

A. Loans to others: Please refer to table 1.

B. Provision of endorsements and guarantees to others: Please refer to table 2.

C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 3.

D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 4.

E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.

F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.

G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 5.

H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 6.

I. Trading in derivative instruments undertaken during the reporting periods: None.

(2) Information on investees

For the information on investees, except for current profit (loss) for the year ended December 31, 2023 is translated using the monthly average exchange rate in 2023, others are translated using the spot rate at December 31, 2023.

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 8.

(3) Information on investments in Mainland China

A. Processing on order plant invested in Mainland China:

In 1997, the Company rented plants located in Shenzhen and Dongguan, Guangdong Province, Mainland China, respectively, through the investee, CU International Ltd. and operated the plants through processing on order. The plants were primarily engaged in the manufacture of electronic telecommunication components and electric wire, under CU International Ltd. without their own corporate entity for the operating period ended December 2017. As of March 11, 2024, the plants are still under the cancellation process.

B. Investee in Mainland China, main business activities, paid-in capital, investment method, amount remitted from Taiwan to Mainland China / amount remitted back to Taiwan, ownership, investment income (loss), investments in Mainland China as of December 31, 2023, book value, investment income remitted back and ceiling on investments in Mainland China: Please refer to table 9.

C. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland China, and price, payment terms, unreleased income/loss and other related information relating to investments in Mainland China:

(a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period:

Company name	General ledger account	Year ended December 31, 2023	
		Amount	Ownership (%)
Dongguan Fuqiang Electronics Co., Ltd.	Purchases of goods	<u>\$ 24,944,932</u>	<u>42%</u>
Fugang Electronic (Dongguan) Co., Ltd.	Purchases of goods	<u>\$ 15,438,851</u>	<u>26%</u>
Fugang Electric (Xuzhou) Co., Ltd.	Purchases of goods	<u>\$ 9,735,601</u>	<u>16%</u>
Fushineng Electronics (Kunshan) Co., Ltd.	Purchases of goods	<u>\$ 2,800,885</u>	<u>5%</u>
Fugang Electric (Kunshan) Co., Ltd.	Purchases of goods	<u>\$ 2,219,089</u>	<u>4%</u>
Fugang Electric (Maanshan) Co., Ltd.	Purchases of goods	<u>\$ 429,760</u>	<u>1%</u>
Foxlink Automotive Technology (Kunshan) Co., Ltd.	Purchases of goods	<u>\$ 212,600</u>	<u>-</u>

Company name	General ledger account	December 31, 2023

Note 2: For the years ended December 31, 2023 and 2022, the Company had 963 and 902 employees, including 5 and 5 non-employee directors, respectively.

Note 3: For the years ended December 31, 2023 and 2022, the average employee benefit expense amounted to \$1,283 and \$1,723, respectively.

Note 4: For the years ended December 31, 2023 and 2022, the average employee salary expenses amounted to \$1,085 and \$1,527, respectively. For the year ended December 31, 2023, the average change in adjustments on salary expenses was (29%).

Note 5: The Company's policies on salary and remuneration (including directors, independent directors, managers and employees).

(a) For payment to directors and independent directors, the correlation between the Company's policy, standard and combination, procedures of setting remuneration, operating performance and future risk are as follows:

CHENG UEI PRECISION INDUSTRY CO.,LTD.
SUMMARY STATEMENT OF CURRENT PERIOD EMPLOYEE BENEFITS, DEPRECIATION, DEPLETION AND AMORTIZATION EXPENSES BY
FUNCTION (Cont.)
FOR THE YEAR ENDED DECEMBER 31, 2023
(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

- i. The Company's remuneration of directors were paid based on the common standard of the Company's conference attendance fees and traveling fee approved by the Board of Directors.
 - ii. According to Article 23 of the Company's Articles of Incorporation: income before tax deduct income before employees' compensation and directors' remuneration, after offsetting deficits, if any, shall be distributed as employees' compensation not lower than 6% and directors' remuneration not higher than 3% after resolving by the Board of Directors.
- (b) For payment to managers, the correlation between the Company's policy, standard and combination, procedures of setting remuneration, operating performance and future risk are as follows:
- i. The Company's remuneration for managers shall based on the Company's regulation of performance assessment, individual's performance and operating contribution to the Company's operation taking into consideration the market standard within the same industry, and reported to the directors for approval after being reviewed by salary and remuneration committee.
 - ii. According to Article 23 of the Company's Articles of Incorporation: income before tax deduct income before employees' compensation and directors' remuneration, after offsetting deficits, if any, shall be distributed as employees' compensation not lower than 6% and directors' remuneration not higher than 3% after resolving by the Board of Directors.
- (c) For payment to employees, the correlation between the Company's policy, standard and combination, procedures of setting remuneration, operating performance and future risk are as follows:
- i. The Company's compensation for employees were determined based on individual ability, contribution to the company and performance which have positive correlation with operating performance.

The Company has adequately controlled the future risk, the policies of compensation also related with future risk. Whole combination of salary and compensation includes basic salary, bonus and employees' compensation and allowance.

CHENG UEI PRECISION INDUSTRY CO.,LTD.
SUMMARY STATEMENT OF CURRENT PERIOD EMPLOYEE BENEFITS, DEPRECIATION, DEPLETION AND AMORTIZATION EXPENSES BY
FUNCTION (Cont.)
FOR THE YEAR ENDED DECEMBER 31, 2023
(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

As for the standard of compensation payment, basic salary were determined based on the market competitiveness of their positions and the Company's policy. Bonus and employees' compensation were determined through linking with employees' and segments' target or the Company's operating performance. The benefits were designed to meet employees' requirements under the related regulations in order to share the Company's operating result with employees.

- ii. According to Article 23 of the Company's Articles of Incorporation: income before tax deduct income before employees' compensation and directors' remuneration, after offsetting deficits, if any, shall be distributed as employees' compensation not lower than 6% and directors' remuneration not higher than 3% after resolving by the Board of Directors.

Note 1: The numbers as follows represent the nature of loan:

- (1) Business transaction is labelled as “1”.
- (2) Short-term financing is labelled as “2”.

Note 2: (1) Limit on loans granted to a single party is 40% of the Company's net asset value.

- (2) Limit on loans granted to the domestic unlisted subsidiaries of the Company and FIT Holding Co., Ltd. is 40% of their net asset value.
- (3) Limit on loans granted to direct or indirect holding foreign subsidiaries is 40% of their net asset value.
- (4) Limit on loans granted between foreign companies whose voting shares are 100% held by the Company directly or indirectly, or on loans granted to the Company by such foreign companies is 100% of their net asset value.
- (5) Limit on loans granted by FIT Holding Co., Ltd. to its direct or indirect holding foreign subsidiaries is 30% of FIT Holding Co., Ltd.'s net asset value on recent financial report.

Note 3: (1) Ceiling on total loans granted to the company is 40% of the Company's net asset value.

- (2) Ceiling on total loans granted to the domestic unlisted subsidiaries of the Company and FIT Holding is 40% of their net asset value.
- (3) Ceiling on total loans granted to the direct or indirect holding subsidiaries is 40% of their net asset value.
- (4) Ceiling on total loans granted between foreign companies whose voting shares are 100% held by the Company directly or indirectly, or on loans granted to the Company by such foreign companies is 100% of their net asset value.
- (5) Ceiling on total loans granted by FIT Holding Co., Ltd. to its direct or indirect holding foreign subsidiaries is 40% of their net asset value on recent financial report.

Note 1: Calculation for limit on endorsements/guarantees provided for a single party is as follows:

- (1) For subsidiaries whose shares are 90% or above held by the Company, ceiling on total amount of endorsements and guarantees provided by the Company is 150% of the Company’s net asset value; limit on endorsements and guarantees provided by the Company for a single party is 150% of the Company’s net asset value.
- (2) For FIT Holding Co.,Ltd., limit on endorsements and guarantees for a single party is 600% of FIT Holding Co.,Ltd.’s current net asset value and for subsidiary whose equity is no less than 90% held by FIT Holding Co.,Ltd., is 600% of FIT Holding Co.,Ltd.’s net asset value.
- (3) Endorsements and guarantees are available between companies whose voting shares are more than 90% held by FIT Holding Co., Ltd. directly or indirectly. And the limit on endorsements and guarantees is 10% of FIT Holding Co., Ltd.’s net asset value except that endorsements and guarantees are between companies whose voting shares are 100% held by FIT Holding Co., Ltd. directly or indirectly.
- (4) For subsidiaries whose shares are 90% or above held by Shinfox, ceiling on total amount of endorsements and guarantees provided by the Company is 600% of the Company's net asset value; limit on endorsements and guarantees provided by the Company for a single party is 560% of the Company's net asset value.
- (5) For subsidiaries whose shares are 90% or above held by Foxwell Energy, ceiling on total amount of endorsements and guarantees provided by the Company is 150% of the Company's net asset value; limit on endorsements and guarantees provided by the Company for a single party is 140% of the Company’s net asset value.

Note 2: Calculation for limit on endorsements/guarantees provided is as follows:

- (1) The Company’s and subsidiaries’ endorsements and guarantees to others should not exceed 300% of the Company’s net asset value.
- (2) FIT Holding Co.,Ltd.’s endorsements and guarantees to others and subsidiaries should not exceed 600% of FIT Holding Co., Ltd.’s net asset value in the latest financial statements.
- (3) Endorsements and guarantees are available between companies whose voting shares are more than 90% held by FIT Holding Co., Ltd. directly or indirectly. And the limit on endorsements and guarantees is 10% of FIT Holding Co., Ltd.’s net asset value except that endorsements and guarantees are between companies whose voting shares are 100% held by FIT Holding Co., Ltd. directly or indirectly.
- (4) Ceiling on total amount of endorsements/guarantees provided by Foxwell Energy and subsidiaries is 150% of Foxwell Energy's net asset value in the latest financial statements.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1)Parent company is '0'.

(2)The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1)Parent company to subsidiary.

(2)Subsidiary to parent company.

(3)Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: Disclosure of the transactions of related party over \$100 million only and the related party transactions for counterparty are not disclosed.

Cheng Uei Precision Industry Co., Ltd. and subsidiaries
Information on investees

Central Motion Picture Corporation	32,584,000	6.36%

6. In the most recent year and as of the publication date of the annual report, whether any financial difficulties occur at the Company that affects the Company's financial status: None.

VII. Financial status and financial performance review analysis and risk issue

1. Review and analysis financial status

Comparative analysis table of financial status

Unit: NTD Thousand

Item \ Year	2023	2022	Difference	
			Amount	%
Current Assets	67,717,157	61,093,418	6,623,739	10.84%
Property, Plant And Equipment	22,705,808	20,923,246	1,782,562	8.52%
Intangible Assets	1,724,432	1,749,316	(24,884)	(1.42%)
Other Assets	13,614,161	14,532,031	(917,870)	(6.32%)
Total Assets	105,761,558	98,298,011	7,463,547	7.59%
Current Liabilities	41,256,215	36,357,990	4,898,225	13.47%
Non-Current Liabilities:	27,683,351	25,681,934	2,001,417	7.79%
Total Liabilities	68,939,566	62,039,924	6,899,642	11.12%
Equity Attributable To Owners Of Parent	24,190,274	24,422,591	(232,317)	(0.95%)
Capital Stock	5,123,269	5,123,269	-	0.00%
Additional Paid-In Capital	10,764,901	10,382,683	382,218	3.68%
Retained Earnings	11,598,307	11,552,466	45,841	0.40%
Other Equity Interest	(2,673,429)	(2,363,761)	(309,668)	13.10%
Treasury Shares	(622,774)	(272,066)	(350,708)	128.91%
Non-Controlling Interests	12,631,718	11,835,496	796,222	6.73%
Total Equity	36,821,992	36,258,087	563,905	1.56%
Reasons For Increases Or Decreases In Amounts In The Last Two Years. Treasury Stock Increased By 128.91%, Mainly Due To The Increase Of Subsidiaries' Purchase Of The Company's Stock.				

2. Review and analysis of financial performance:

Unit: NTD Thousand

Item \ Year	2023	2022	Difference	
			Amount	%
Operating revenue	90,550,764	94,102,594	(3,551,830)	(3.77%)
Operating costs	78,856,852	82,008,395	(3,151,543)	(3.84%)
Operating gross profit	11,693,912	12,094,199	(400,287)	(3.31%)
Operating Expenses	8,793,890	8,562,506	231,384	2.70%
Operating profit	118,111	-	118,111	-
Non-operating income and expenses	3,018,133	3,531,693	(513,560)	(14.54%)
Net profit before tax	118,168	(119,900)	238,068	198.56%
Income tax expense	3,136,301	3,411,793	(275,492)	(8.07%)
Net profit for the period	1,034,479	1,317,094	(282,615)	(21.46%)

Reasons for increases or decreases in amounts in the last two years.

1. Non-operating income and expenses increased by 198.56%, mainly due to the recognition of compensation losses in 2022.
2. Income tax expenses decreased by 21.46%, mainly due to the decrease in the net profit before tax in 2023.

3. Cash flow review and analysis

Unit: NTD Thousand

Beginning cash balance	Annual net cash flows from operating activities	Annual cash outflows from investment and financing activities	Effect of exchange rate fluctuations	Cash surplus (insufficiency) amount	Remedial measures for cash shortages	
					Investment plan	Financing plan
11,431,070	2,525,347	1,289,362	(400,983)	14,844,796	-	-

1. Analysis of the changes in cash flows for the most recent year:
 - (1) Operating activities: NTD 2,525,347 thousand
 - (2) Investing activities: NTD (3,662,487)thousand
 - (3) Financing activities: NTD 4,951,849 thousand
2. Remedial measures and liquidity analysis for cash shortage: None.
3. Analysis of cash liquidity in the coming year: With the Company's substantial growth in operations and increased profits in recent years, cash flows in the coming year will be sound.

4. The impact of major capital expenditures in recent years on financial operations

Unit: NTD Thousand

Year	Capital expenditure items	Sources of funds	Total funds	Effect on financial operations
2023	Acquisition of property, plant and equipment	Own funds and bank financing	3,734,836	Build additional factories and purchase production equipment to expand the scale of production and sales to meet market and customer needs.

5. Reinvestment policy in the most recent year, main reasons for its profit or loss, improvement plan and investment plan for the next year

The Company's reinvestment under equity method is for long-term strategic purpose. In 2023, the reinvestment profit under the equity method was NTD 238,603 thousand. In the future, the Company's reinvestments under equity method will continue to be long-term strategic investments, and will focus on expanding production capacity in response to market demands, and will continue to prudently evaluate them.

6. Risk management

6.1 Most recent year impact of interest rate, exchange rate changes, and inflation on the Company's profit and loss and future countermeasures:

- (1) The amount of bank loans increased in 2023 compared with 2022, and market interest rates rose. Therefore, annual interest expense was NTD 619,232 thousand, representing an increase from the NTD 423,257 thousand seen in 2022. In the future, the Company will regularly evaluate deposit and borrowing interest rates between banks and maintain good relationships with correspondent banks to obtain more favorable borrowing rates. At the same time, we will pay close attention to changes in interest rates to maintain the flexibility of financial operations.
- (2) The Company's 2023 exchange gains totaled NTD 34,063 thousand mainly due to the appreciation of the US dollar. However, based on the inconsistency of exchange rate changes in the market, it is difficult to accurately predict the future direction of exchange rate changes. Therefore, the Company's consistent practice is to reduce the net position exposed to the risk of exchange rate fluctuations as its main principle. At the same time, we will closely monitor market exchange rate fluctuations, and undertake forward foreign exchange transactions for risky positions to hedge risks. This will be done to reduce the impact of exchange rate fluctuations on the company's profits and losses.
- (3) Prices of raw materials such as international crude oil and basic metals have remained at high levels, which has put pressure on the Company's overall material costs. In 2023, domestic water, oil and electricity prices gradually increased. The Company thus will pay close attention to price changes. At the same time, a relatively medium- to long-term procurement strategy will be formulated to reduce the impact of inflation on the Company's profits and losses.

6.2 In the past year, policies for engagement in high risk and high leverage investment, loaning funds to others, guarantees/endorsements, and derivative trade, the main reason for profit or loss, and the response in the future:

- (1) Since its establishment, the Company has been committed to operations in its industry and has not engaged in high risk and high leverage investment behavior.
- (2) The Company's conduct of loans of funds to others and of endorsements and guarantees are all handled in accordance with the company's Operational Procedures for Loaning Funds to Others and Implementation Measures for Endorsements and Guarantees.
- (3) The Company did not engage in derivative operations in 2023. Any future derivative transactions will be for the purpose of hedging and will be handled in accordance with the Procedures for the Acquisition or Disposal of Assets.

6.3 The most recent annual research and development plans, current progress of ongoing R&D plans, R&D expenses to be reinvested, estimated time before mass production is completed, and main factors influencing the success of future R&D:

- (1) The main future research and development directions and strategies of the Company will be:
 - A. Closely integrate technology into products to generate differentiated competitive advantages.
 - B. Integrate the technical fields of materials, machinery, electronics, optics, electroacoustics, power, etc.; e.g., through: optical inspection automation, engineering analysis capabilities, secondary processing electroplating technology, antenna design, and wire nano coating development.

- C. Build professional laboratories for high frequency technology, electroacoustic technology, surface technology, and so on.
 - D. Lead and continue to develop various halogen-free, lead-free materials and application products that meet future environmental protection requirements.
 - E. Participate in the development process of customers' new products to provide them with various solutions and technical support.
 - F. Strengthen the ability to integrate existing technologies and evaluate and introduce new product development technologies.
 - G. Integrate the technology platform of electro-optic sound to expand products and market share.
 - H. Pay attention to the development of green technology, including energy-saving and carbon emission reduction technologies, renewable energy applications, and develop corresponding products and solutions, and contribute to the creation of a sustainable environment.
 - I. Develop cloud computing and edge computing technologies and modules, and provide related cloud services and data analysis solutions.
 - J. Development of artificial intelligence (AI) related applications and products.
- (2) Cases that have been developed and completed as of the first quarter of this year:
- A. USB-C connector laser spot welding and welding monitoring technology.
 - B. Connector terminal U-shaped cold forging technology.
 - C. Centrifugal plating technology for metal loose parts.
 - D. Completed the development of 240W high-current charging cable.
 - E. USB4 Gen3 Active Cable.
 - F. Development of integrated technology for the ECG sensor of electric bicycle and the three-power system.
 - G. The AI optical system for detecting the color of game joystick objects.
 - H. Development of smart taillights for two-wheeled vehicles.
 - I. Physical movement detection for remote fitness sessions.
 - J. ANC headset prototype & ANC tuning technology.
 - K. Cooperated with the digital innovation subsidy program developed by the Digital Industry Administration, and Foxwell Power will implement the Foxwell Cloud green power sharing cloud service.
- (3) This year's planned development of ongoing cases is as follows, and it is expected that mass production and shipments will be attained by the end of this year.
- A. Establishment and application of electroplating masking & plating technology.
 - B. Automated busbar technology.
 - C. AOI white light inspection technology.
 - D. Vehicle-mounted Ethernet wire harness products.
 - E. 280W ultra-high current charging cable.
 - F. High Power 460W PSU.
 - G. Physical movement detection for remote fitness sessions.
 - H. IP Cam with AI function.
 - I. In line with Taiwan's 2050 net zero transformation goal, develop inspection software to simplify inspection procedures, integrate public clouds and existing cloud platforms, and provide inspection services through the API framework and functional modules.
- (4) Our company's actual R&D expenditure for the merger in 2023 amounted to NT\$2,521,545 thousand, approximately 2.78% of the consolidated revenue for that year. The planned R&D expenditure for 2024 is currently set at NT\$3.1 billion. The company will allocate R&D expenses according to the aforementioned plan and targets, with adjustments made based on operational conditions.

6.4 In the past year, the impact of important domestic and foreign policies and legal changes on the Company's financial business and corresponding measures:

The Company has a legal unit that keeps an eye on important domestic and foreign policies and changes in laws to propose impact assessments and response plans. At the same time, the Company has also appointed external legal counsel to make inquiries and deal with legal issues related to the Company.

6.5 Effect of changes in technology (including information and communication security risks) and industrial changes on the Company's financial operations and countermeasures:

(1) The advancement of science and technology is set to transform human life as well as impact the ecology of the industry. The changes in and rise and fall of the industry are closely related to the Company's future development. In the past, our Company has developed from its start in the information industry to take its place in the communications industry, and is now set to expand into the consumer electronics industry. The Company has thus always been able to keep abreast of technological information and changes in this industry to understand market needs and trends in this industry, so as to set out strategies that are beneficial to the Company's long-term development.

(2) Information security risk assessment analysis

The Company has formulated an information security policy to strengthen information security management, ensuring the confidentiality, integrity, and availability of the information assets. It has done so in order to provide an information environment for the continuous operation of the Company's business, as well as freedom from internal and external threats whether deliberate or accidental. The Company has also formulated information security risk assessment procedures and conducts regular annual assessments.

A. Information security policy scope

- Personnel management and information security education and training
- Network and computer system security management
- System access control, development and maintenance security management
- Information asset security management
- Physical and environmental safety management
- Planning and management of business continuity operation plan

B. Information security policy responsibilities

- The Company has established an inter-departmental information security management team. The staff work of this group is the responsibility of the information unit, coordinating matters related to information security management.
- Supervisors at all levels of the Company should actively participate in and support the information security management system, and achieve cost policies through the relevant standards and procedures that have been established.
- All personnel of the company, outsourced service vendors and visitors should abide by these policies.
- When any personnel of the Company or outsourced service providers discover an information and security incident, the contact person of the information security team should be notified, and the person in charge of the information security team should be informed. At the same time, the information security contact person should report information security incidents or discovered weaknesses through the notification mechanism, and should also record them.
- Any act that endangers information security will be investigated for civil, criminal and administrative responsibilities according to the seriousness of the circumstances or will be dealt with in accordance with the relevant regulations of the Company.
- The information security team's operations are to be implemented in accordance with the Company's procedures to ensure data integrity and security. As the results of the information security risk assessment are still optimal, the Company's information security has therefore experienced no major adverse effects and no major operational risks in the most recent year and as of the publication date of the annual report.

6.6 In the most recent year, the impact of corporate image change on corporate crisis management and countermeasures:

The Company has been committed to operations in its industry and with the goal of establishing a positive social image of the Company and exerting its social responsibility. Nothing has happened that would damage our corporate image.

6.7 Expected benefits and possible risks of mergers and acquisitions and countermeasures:

In the most recent year and up to the date of publication of the annual report, the Company has not had any mergers or acquisitions.

6.8 Expected benefits and possible risks of plant expansion and countermeasures:

In order to meet the needs of future business growth, the company will continue to expand the production capacity of each production base to expand its market share.

6.9 Risks arising from purchase or sales concentration and countermeasures:

(1) Sales:

As the company's products are diversified, including cables, connectors, batteries, power modules and other system products, the application scope of terminal products covers communication and consumer electronics products and the sales target is mainly international brand manufacturers; therefore, risk is relatively low. At the same time, the company's products have gradually changed from OEM and ODM to JDM (joint design manufacturing with customers) in recent years, thus providing customers with multiple technical resources. Therefore, the close integration of customer relationships also greatly enhances the Company's R&D strength and competitiveness; and even in the face of an oligopolistic market for end products, the Company can also expand various new product areas and achieve the goal of stable growth in its annual performance.

(2) Purchasing:

Except for agency sales involving finished products bought back from subsidiaries, the Company requires a wide range of raw materials in view of the diversified nature of its products. As a result, actual purchasing counterparties are quite spread out and there is no risk of concentration.

6.10 The influence and risk of the massive transfer of shares or the replacement of the directors, supervisors, or major shareholders holding more than 10% of the shares issued by the Company, and the response:

In the most recent year and up to the date of publication of the annual report, the Company has not faced the aforementioned situation.

6.11 The impact, risks and countermeasures of a change of management rights on the Company:

In the most recent year and up to the date of publication of the annual report, there has not been such a concern.

6.12 Litigation or non-litigation events:

(1) The Company's current major litigation or non-litigation events or administrative disputes still being adjudicated:

The Company	Counterparty	Year dispute began	Summary of facts	Targeted amount	Jurisdiction
Shih Fong Power Co., Ltd.	* Shanli tribe, Taiping tribe, and indigenous peoples	2020	<p>Proposal: The Shanli tribe, the Taiping tribe, and indigenous peoples filed a case for the suspension of the extended construction permit of Shih Fong Power Co., Ltd.'s power plant issued by the Bureau of Energy, Ministry of Economic Affairs: Case progress: The first instance of this case has been approved by the Taipei High Administrative Court, referenced 2021-Ting No. 79, to suspend the extended construction permit issued by the Ministry of Economic Affairs on December 31, 2020 until the conclusion of the administrative proceedings, and the court rejected the remaining claims. The Ministry of Economic Affairs and Shih Fong Power Co., Ltd. refused to accept the judgment and filed an appeal with the Supreme Administrative Court prior to a deadline stipulated in law. The case is still being tried, and the result is yet to be known.</p> <p>* On April 13, 2022, the Supreme Court's ruling was received (as attached), and it was considered that the appeal was justified. The ruling's intention: the extension of the case would expire on December 31, 2021 and there was no cause to suspend enforcement. (Program termination of this portion here)</p>	NA	Supreme Administrative Court
Shih Fong Power Co., Ltd.	* Shanli tribe, Taiping tribe, and indigenous peoples	2020	<p>Proposal: The Shanli tribe, the Taiping tribe, and indigenous peoples filed a petition to revoke the extended construction permit of Shih Fong Power Co., Ltd.'s power plant, issued by the Bureau of Energy, Ministry of Economic Affairs: Case progress: (1) This petition case is under review by the Petitions and Appeals Committee, Executive Yuan, and the decision has not come out yet. Shih Fong Power Co., Ltd.'s application for stating opinions has been passed. * On March 3, 2022, by decision of the Appeal Review Committee (Yuantai Suzi No. 1110166224) regarding the portion of petitioner Taiping tribe, the Ministry of Economic Affairs would undertake revocation on December 31, 2020 through Letter Quannengzi No. 10900223510 and the Ministry would take other appropriate legal sanctions within two months. * On April 29, 2022, Shi Fong Company filed an administrative suit against the decision in the preceding paragraph. As of November 9, 2022, the procedural court was still being prepared. The case is still being tried, and the result is yet to be known. (Trial of this case concurrently with the "Environmental Impact Assessment")</p>	NA	Taipei High Administrative Court

			On October 17, 2023, the High Court ruled to allow the applicant to participate in the litigation. As of December 20, 2023, the preparatory proceedings (II) were conducted and the preparatory proceedings were conducted on February 22, 2024 (III).		
Shih Fong Power Co., Ltd.	Citizen of the Earth, Taiwan	2022	<p>Reason: Citizen of the Earth, Taiwan submitted a citizen notification letter to the Environmental Protection Administration in respect to an environmental impact assessment event, requesting the Administration to order the Company to submit a surprise analysis of the current environmental situation and a review report on countermeasures for the development plan, submitting it to the Administration for review. In accordance with the letter from the Environmental Protection Administration of June 9, 2021, the development plan has passed the environmental impact assessment and environmental impact review, and there is no basis for a second environmental impact assessment in accordance with the law. Citizen of the Earth, Taiwan filed an administrative suit (against defendant EPA) on August 6, 2021, alleging administrative inaction.</p> <p>Referred to as the "Environmental Impact Assessment."</p> <p>Case progress: * The Company filed a plea for participation in the litigation on March 23, 2022. As of October 12, 2022, the procedural court was still being prepared. The case is still being tried, and the result is yet to be known.</p> <p>(1) The preparation process (IV) was conducted as of July 12, 2023. The case is still being tried, and the result is yet to be known.</p> <p>As of November 22, 2023, the preparatory proceedings (V) were conducted, and the preparatory proceedings (VI) were conducted on January 17, 2024. The case is still being tried, and the result is yet to be known.</p>	NA	Taipei High Administrative Court
Shih Fong Power Co., Ltd.	* Shanli tribe, Taiping tribe, and indigenous peoples	2023	<p>Proposal: The Shanli Tribe, Taiping Tribe, and the indigenous peoples filed a petition to revoke the "2023" work permit granted to Shifeng Power Plant by the Energy Bureau, MOEA.</p> <p>Case progress: (1) On April 11, 2023, a petition was filed, applying for the suspension and revocation of the 2023 work permit. (2) On May 5, 2023, the Executive Yuan overruled the suspension of execution. The revocation of the 2023 work permit is "pending the court proceedings."</p> <p>* Letter from the Secretary-General of the Executive Yuan on February 6, 2024 inadmissible (indigenous individuals cannot file a lawsuit)</p>	NA	Supreme Administrative Court

			<p>(3) On July 7, 2023, the applicant filed a lawsuit for "application for suspension of 2023 work permit".</p> <p>(4) On August 11, 2023, the Taipei High Administrative Court ruled to "suspend the execution of the 2023 work permit." Shi Feng expects to file a protest to the Supreme Administrative Court in August.</p> <p>On September 28, 2023, the Supreme Administrative Court ruled to reject the application for suspension of execution (the original ruling to abolish Taipei High Administrative Court).</p>		
--	--	--	---	--	--

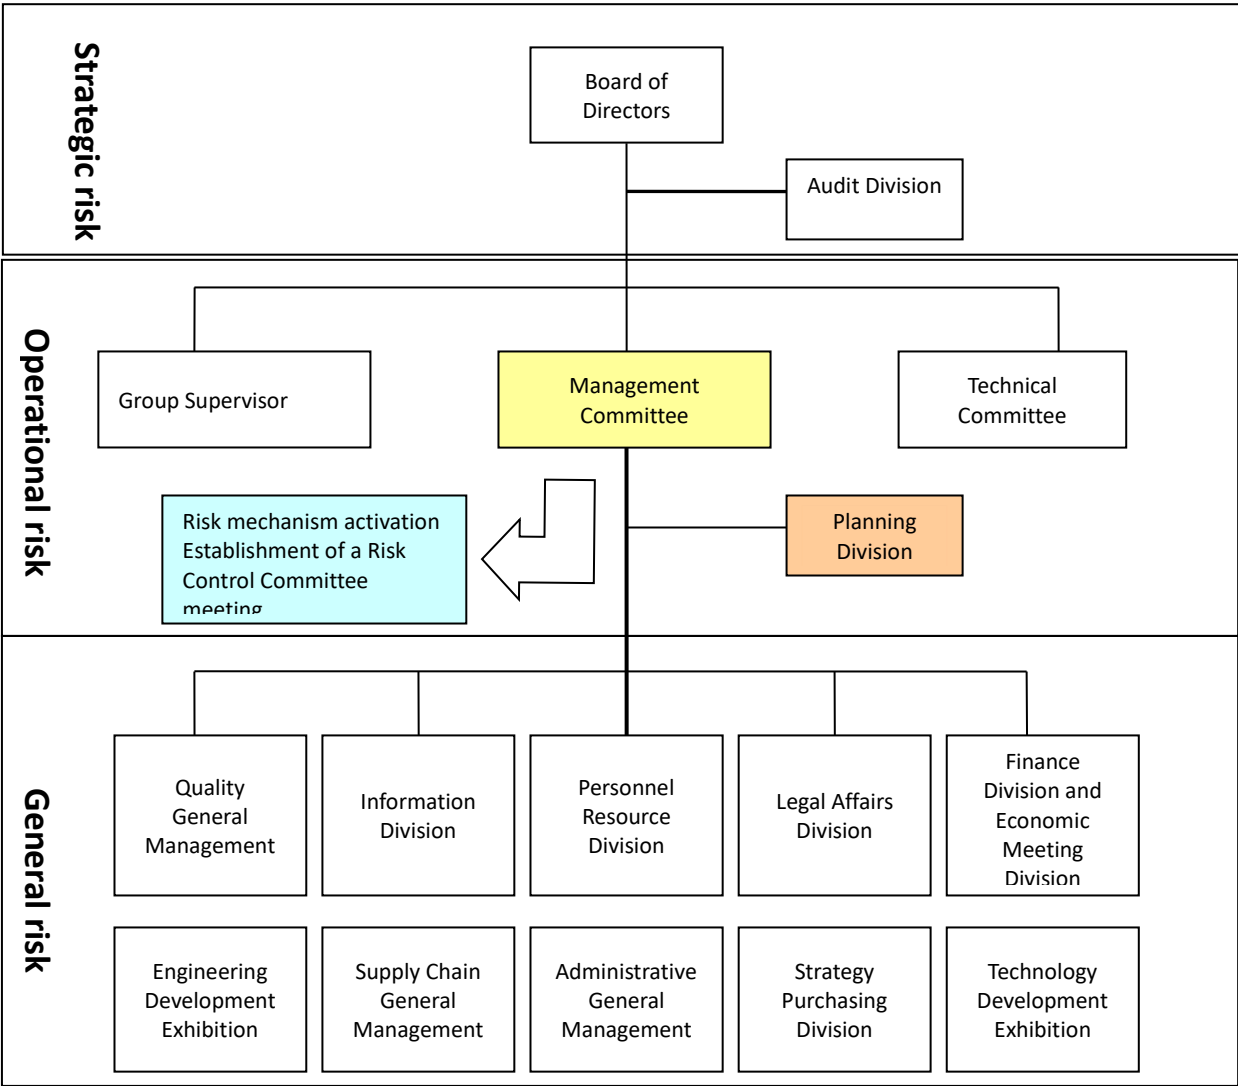

- (2) Major litigation or non-litigation events impacting the Company and its directors, supervisors, general managers, substantive persons in charge, and major shareholders whose shareholding ratio exceeds 10%, and major litigation or non-litigation events or administrative disputes confirmed or still being adjudicated for affiliated companies, where the outcomes may have a significant impact on shareholders' equity or the price of securities: **None.**

6.13 Other important risks and countermeasures: None.

- (1) Risk management policy of the Company:

In order to strengthen its risk management mechanisms and improve internal response to various risk issues, the Company has formulated its Risk Management Measures. These clearly define risk items, risk levels, notification and management procedures, risk control management organizational structure, supervision and tracking rights and responsibilities, and so on. This is done to enhance the Company's internal risk management awareness and reduce the possibility of risk. It is further hoped that the impact of risk items can be reduced so as to achieve the Company's vision and business goals.

(2) Risk management organization framework:

(3) Functional description of each organizational unit:

- Management Committee: Comprehensively coordinates the operation of various functional organizations; discuss and suggest optimal countermeasures
- Finance and Accounting Division: Financial risk assessment and control
- Information Division: Evaluation and control of information systems and computer hardware and software equipment
- Administrative Management Division: Evaluation and control of general affairs and industrial safety system planning
- Human Resources Division: Evaluation and control of talent cultivation and personnel management
- Legal Affairs Division: Evaluation and control of legal risks
- Spokesperson: The Company's unified external contact window
